

## Tests for Entrance Pupils

Papers That Are Being Written By Children Now Trying Their Entrance Exams.

**Literature.**  
Note—Candidates who use the Ontario Public School Readers will take Parts A, B, C, and D; those who use the Canadian Catholic Readers will take Parts A, B, C, and E.

A. A low grey house is set among the trees. And softly night and winter wait it round; Among its garden-walls no creature stirs. And from its frozen meadows breathes no sound.

B. Put, ah, within those quiet walls what light? Lamps globed like mimic moons, and fire-light's glow, And eyes of childhood still with wonder bright Above some fairy record bending low.

C. The mother gazes on the fire and builds a dream—A mighty architecture—Love knows how. And one beside her thinks how fire-light glows. Her hair, and shows the splendor of her brow.

D. Keep watch above it, kindly Powers, and let No evil thing draw nigh that dear shade— The low grey house of quiet, safely set Among its firs beyond the winding road.

1. What is the subject of this poem?  
2. Describe the house and its surroundings.  
3. Describe the scene within the room, and tell what each of the occupants is doing.  
4. Explain the following: "softly night and winter wait it round" (line 2); "Lamps globed like mimic moons" (line 6); "Dream's mighty architecture" (line 10); "fire-light's glow" (line 11); "eyes of childhood" (line 12); "house of quiet" (line 15).

E. When the two champions stood opposed to each other at the two extremities of the lists, the public expectation was strained to the highest pitch. The encounter could terminate well for the Disinherited Knight, yet his courage and gallantry secured the general good wishes of the spectators.

The trumpets had no sooner given the signal, than the champions vanished from their posts with the speed of lightning, and closed in the centre of the lists with the shock of a thunderbolt. The lances burst in shivers up to the very grasp, and it seemed at the moment that both knights had fallen, for the shock had made each horse recoil backwards upon its haunches. The skill of the riders recovered their steeds by use of the bridle and spurs; and having glared at each other for an instant with eyes which seemed to flash fire through the bars of their visors, each made a demi-volte, and retiring to the extremity of the lists, received a fresh lance from the attendants.

A loud shout from the spectators, waving of scarfs and handkerchiefs, and general acclamations attested the interest taken by the spectators in this encounter—the most equal, as well as the performed, which had graced the day. But no sooner had the knights resumed their position, than the clamor of applause was hushed into a silence so deep and so dead that it seemed as if the multitude were afraid even to breathe.

5. (a) What general subject is dealt with in this extract?  
(b) What part of the subject is dealt with in each paragraph?  
(c) State concisely what each sentence of the second paragraph tells us.  
6. Explain the following: "champions" (line 1); "strained to the highest pitch" (lines 2, 3); "vanished from their posts" (line 8); "the shock of a thunderbolt" (line 9); "burst into shivers" (line 10); "the very grasp" (line 10, 11); "skill of the riders recovered their steeds" (lines 12, 13); "the extremity of the lists" (line 14); "general acclamations" (line 15); "resumed their station" (line 15).

7. (a) The first twenty lines of "The Solitary Reaper."  
(b) Twenty consecutive lines, beginning, "Near a cottage where once the garden smiled."  
8. Note—Candidates who use the Ontario Public School Readers will take Part D. From upland slopes I see the cows file by: Loving, great-cheeked, down the homeward trail, By dusky flocks and meadows shining pale With moon-tipped dandelions. Flickering high, A peevish night-hawk in the western sky. Beats up into the luscious solitude, Or drops with griding wing. The stilly woods Grow dark and deep, and gloom mysteriously. Cool night winds creep, and whisper in mine ear. The homely cricket gossips at my feet. From far-off nooks and wastes of reeds I hear.

A GOOD THING.  
When it Comes Along Don't Let It Get Away From You.

"I really feel that it is hardly possible to say too much in favor of Grape-Nuts as a health food," writes a Chicago lady.

"For 9 or 10 years I had suffered from indigestion and chronic constipation, caused by the continued use of coffee and rich, heavy foods. My ailments made my life so wretched that I was eager to try anything that held out a promise of help. And that is how I happened to buy a package of Grape-Nuts food last spring.

"That ended my experiments. For in Grape-Nuts I found exactly what I wanted and needed. From the day I began to use it I noticed an improvement and in a very few weeks I found my health was being restored.

"My digestive apparatus now works perfectly and chronic constipation has been entirely relieved. I have gained in weight materially, and life is a very pleasant thing to me so long as I use Grape-Nuts once or twice a day. I have found by experiment that if I leave it off for a few days my health suffers.

"A physician near my town has great success in treating stomach troubles, and the secret of it is that he puts his patient on Grape-Nuts food—it always brings back the power of digestion."

## EARLY RAINFALL PLEADS THE TIMES

Heavy Damage in California and Mexico, Including Towns Burned.

Los Angeles, Cal., June 22.—Reports of three severe earthquake shocks, which resulted in the death and injury of at least fifteen persons and considerable property loss by fire last night, in several cities of the Imperial valley, covering several hundred square miles, were received here today. Telephone and telegraph communication was interrupted and information from the stricken district is meagre.

Bad at Calexico.  
The greatest damage was at Calexico, on the Mexican border line, where the loss of life occurred. Many buildings in Calexico were shaken down. Two shocks were reported from Yuma, Ariz., at the same time, and San Diego and San Bernardino also were visited by two slight shocks.

Buildings in every city in the valley have been damaged. Calexico suffered severely from fire. Damage to the earthquake district is estimated at more than \$1,000,000.

AMERICANS ADVISED TO CARRY PASSPORTS  
Not Required in Canada, But Advisable Especially For Naturalized Enemies.

[Canadian Press.]  
Washington, June 22.—While American citizens generally are being advised to carry passports when they abroad, the state department reiterated today to many inquirers that the Canadian authorities do not require passports of Americans entering Canada.

"Nevertheless," the department advises, "it is deemed advisable for naturalized American citizens going into Canada, particularly those born in countries now at war with Great Britain, to provide themselves with passports in order to be in position to readily establish their identity and citizenship, thereby avoiding possible delay and inconvenience."

German and Austrian maid servants in the domestic service of American citizens, the department understands, may be granted special permission to accompany their employers into Canada. The employers are advised to apply through the chief commissioner of Dominion police, or the superintendent of immigration, or through the American consul-general at Ottawa, for permission to enter Canada.

The application should state the time and place of crossing the frontier, and the employer is required to express his willingness to vouch for the good behavior of the servants during their stay in Canada.

MANUFACTURERS CANCEL SHIPMENTS TO RUSSIA  
Americans Unable to Obtain Cash for Products, It Is Said.

[Canadian Press.]  
Seattle, Wash., June 22.—Cancellation of large shipments of war materials for Russia by American manufacturers, who are said to be unable to obtain cash payments for their products, became known today when the Great Northern Steamship Company announced that it would cancel a shipment of war materials to Vladivostok as a port on her next voyage.

Minnesota was scheduled to sail direct from Seattle to Vladivostok June 27 with practically a full cargo for the Russian Government. Seventy-five per cent of these shipments have been cancelled by manufacturers, and it is said the Minnesota probably will follow her usual route to Hong Kong.

SAFEGUARD NEUTRALITY IS NORWAY'S REQUEST  
Foreign Minister Hopes Germany Will Limit Submarine Activity.

[Canadian Press.]  
London, June 22.—The hope that Germany will take steps to safeguard neutral ships from submarine attacks was expressed by Norwegian Foreign Minister M. H. Breda, in the opening of the Storting, says a Reuter dispatch from Christiania. Discussing the torpedoing of the Norwegian steamship "Breda" and the sinking of the "Hilma," he declared: "Whatever differences of opinion may exist regarding rights under international law, it is my hope that the German Government, having learned through experience how easily mistakes are made, will give commanders of German warships such instructions as will make neutral shipping safe."

RUSSIAN COMMANDER LANDS IN NEW YORK  
New York, June 22.—Baron Vladimir De Stakelberg, a lieutenant-general of the Russian field artillery, who recently was wounded in battle, arrived here last night on the French line steamship "Naxos" from Bordeaux. Is Sure Canadians Will Reluctantly Skeleton Stripped By Enemy.

[Special Cable to The Advertiser.]  
London, June 22.—A Canadian record officer's story of the Patriotas appears in the newspapers here today. Commenting upon it, the Times says, referring to Major Gault having reached the command consequent upon all other senior officers being lost: "We are happy to think this fine Canadian patriot, whose military dash and equipment this splendid regiment, is still safe amongst us, recovering from his wounds. We are certain his countrymen in the Dominion will not dream of leaving his work and their maimed by German blows."

Reluctant Skeleton.  
"They will clothe again the glorious skeleton left of the regiment sent out to show what they would do for the cause of Britain, freedom and right. When they have again reached the ranks with the best and bravest they will send it again to sustain its high renown by deeds worthy of its illustrious veterans and its immortal dead."

Canadian Heroes.

## CATER TO FARMERS, ADVICE TO ADVERTISERS

Some Fail To Realize Possible Business, Says Iowa Publisher.

[Canadian Press.]  
Chicago, June 22.—Farmers of today are different from those of 20 years ago. E. T. Meredith, of Des Moines, Iowa, publisher of a farm journal, told delegates attending the convention of the Associated Advertising Clubs of the World today.

"Some of you advertisers act as if you didn't think the farmers were poor or shrewd," Mr. Meredith said. "Why, do you know that 50 per cent of all farmers wear garters. You haven't realized that the farmer can buy that for 10c, while he pays for a suit of clothes, and that he purchases motor cars ranging in price from \$500 to \$2,000."

"The advertising agencies should study the rural towns, should know the farmer of today."

## A MESSAGE TO THIN, WEAK, SCRAWNY FOLKS

An Easy Way to Gain 10 to 30 Pounds of Solid, Healthy, Permanent Flesh. Thin, nervous, undeveloped men and women everywhere are heard to say: "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials which it is being deprived of by the failure of the alimentary canal to take them from the food. The best way to overcome this painful waste of flesh-building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal, and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, even if you are not eating much. It is inexpensive, easy to take and highly efficient.

Caution—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more; for it is a wonderful flesh builder.
