# CAST IRON PIPE AT HIGHEST MARK

Issue Goes Up To 1223/4 at the Expense of Overcrowded

Expense of Overcrowded
Short Interest.

Associated Press Despatch.
New York, Nov. 3.—Prices on the New York stock exchange today steadied after the first batch of profit-taking sales had been absorbed, the general market pointing upward around noon.
Speculative activity, however, was confined to a relatively few issues. United States Cast Iron Pipe was run up to 1234 at the expense of an over-crowded short interest, and American Can moved up to 1374. United States Steel and Baldwin failed to make much progress on the rally, but selling of these shares was weil absorbed.
Food shares showed uniform strength. International Harvester, with a gain of 355 points, and Commercial Solvents B, with a gain of 2, were among the outstanding strong spots. Sears-Roebuck, Utah Copper and Colorado Fuel were heavy.
Call money renewed at 2½ per cent.
