## THREE IMPORTANT HEBREWS GANNOT ANNUAL SESSION OF TWO MAGISTRATES TEST MEASURES ARE PASSED

Amendments to Railway Act, Lack of Water in Cyrenaica Nearly Every Lodge in British Including Level Crossings Clause, Carried—Post Office Bill Discussed

order to win Ottawa for the Liberal party.

Mr. Crothers got after the civil service, which he considered underworked and overmanned. He challenged Mr. Fisher to name any other industry where the employees were worked at half speed for five hours a day and so generously paid. A public school teacher in Ontario was paid from \$500 to \$600 a year, while a man in Ottawa got \$1200 a year for type-writing or filing documents. Such a condition reflected discredit on the civil service. Mr. Fisher's only reply to this was that the new civil service commission would improve matters.

Mr. Fisher's bill providing for a commission to study the conservation of natural resources was passed after the Opposition had protested that it merely appeared, under the present conditions, to be another excuse for spending money.

Ordered From House Man Never Re-turns and Now Asks Courts to Free Him

sent time nothing whatever as to the cause of death or identification of the body has been found.

George Matthews, who lived near the place, was clearing land when he made the discovery, and he reported the matter to the police at once. City and provincial officers are investigating, and an inquest was held today before Coroner Pittendrigh.

The woman was neatly dressed, wearing a blue knited jersey, a cloth skirt, a hlack silk petticoat, and Nod 4 shoes almost new. A three ounce medicine bottle, liquor bottle and fruit jar were found near the body, but there was no indication as te what they had contained. It was evident that the body had lain in that position for two or three months. The indications are that the woman died after a struggle of some kind.

TRIES TO SUICIDE

DUKE OF ABRUZZI

Thought Place Was 100,000

August Ender, editor of the Daily Mirror, of Escanaba, Mich., is visiting Victoria at present for the first time, and has fallen a prey to the charms of Vancouver Island. "It is a beautiful city," said Mr. Ender to the Evening Post today. "When I was coming in on the steamer I thought from the first view I had of it that it was a city of at least 100,000 and I was surprised to learn that it is smaller than that."

Mr. Ender comes from a hustling the tribune and with the Socialists shouting and singing, he tried to harangue the deputies. Outside in the corridors several persons who raised the cry "Long Live the King," were almost mobbed.

Premier Clemenceau and the ministive it was apparent that they were amused, but later they grew indignant at the scandal exhibition in the midst of a serious debate and summoned the verge geant-at-arms who ejected M. Baudry. D'Azzon mounted the tribune to make a personal explanation, but the Socialists shouting and singing, he tried to harangue the deputies. Outside in the corridors several persons who raised the cry "Long Live the King," were almost mobbed.

Premier Clemenceau and the ministic it was apparent that they were amused, but later they grew fully not a serious debate and summoned the serious debate and summoned the serious debate and summoned the verge of serious debate.

Mr. Ender comes from a hustling city of 15,000 on the northern peninsula of Michigan, on the shores of the lake of that name. It is dependent largely upon mining. A great quantity of iron ore is taken out in the district tributary to Escanaba and there is also a large quantity of timber in the neighborhood.

### Aeroplane Tests

## ZAM-BUK

Cure effected in both cases.

Mr. F. Rasmussen, of 211, Marquette Street, Montreal, who is a Justice of

the Peace, and a man not inclined to give praise except where it is well due says:- "For many years I was troubled with a serious eruption of the skin. This Nearly Every Lodge in British

# A LITTLE REFLEXION

The fact has long been apparent that one of the most important and profitable industries capable of development in British Columbia is that of the manufacture of Wood Pulp and Paper. The decline of the American and European forests is gradually forcing this great industry to Canada and there is no question but that inside of ten years British Columbia, the leading producer of Wood Pulp and Paper in the world. Nowhere outside of Western Canada is there sufficient standing timber upon which to maintain the great paper industry in the future. Fifteen years ago the combined Pulp and Paper mills of Canada produced only 300 tons per day. Today the daily production is 4,000 tons, and it is not absurd to believe that what has been done in Eastern Canada during British Columbia \$57.00 per ton-cost of manufacture, the last fifteen years will be more than duplicated in Western Canada during the next fifteen years. The question of securing sufficient Wood Pulp upon which to operate the paper mills of the world is a question that is now perplexing the minds of both American and European manufacturers. The once great forests of the United States are gradually being depleted and at present it is almost impossible for the American mills to secure sufficient material for the operation of their plant. In 1908 almost one million cords of wood was imported by the American mills from Canada in addition to \$7,603,740 worth of Wood Pulp. One ton of news paper requires approximately one cord and a half of four-foot wood. Wood is now worth from \$10.00 to \$15.00 per cord in the United States. Great Britain in 1908 imported \$35,186,219 worth of Pulp and Paper; Germany, \$7,653,100; France, \$10.344,000; Spain, \$1,365,507; Mexico, Argentina, \$1,043,862; Brazil, \$1,064,727; British India, \$919,325; Chill, \$498,849; Strait Settle nents, \$1,014,165; China, \$2,630,681; Japan, \$2,519,507; Australia, \$2,129,449; British South Africa, New Zealand, Cape of Good Hope, Canary Islands, Philippines and Egypt, \$2,280,527.

The Wood Pulp, in order to produce the majority of this vast consumption, has to be secured from Canada, Norway, Sweden, United States, Denmark and Germany. The fact has long been recognized that British Columbia with its tremendous forests is alone in a position to relieve the great strain on the Wood Pulp and Paper market in the with her great forests and extensive waterways will be future. On account of the universal scarcity and increasing price of news paper almost every large daily newspaper in the United States, Canada and Europe during the past year has either been obliged to increase its selling price or reduce the size of its paper. At present the six daily papers of Victoria and Vancouver consume about 200 carloads per year of news print, and the price averages laid down in approximately \$30.00 per ton. The situation has, however, become much more serious in Japan, China, Australia and New Zealand, where they are mostly dependent on outside sources for their product. Australia alone in 1908 imported over 100,000 tons of News and Wrapping Paper. Had there been sufficient mills to produce it in British Columbia every dollar of this vast trade would have come to this province instead of going to Norway, Sweden, Germany, Eastern

Canada and the Eastern United States. We are preparing to rush work on our big plant at Quatsino Sound, northern part of Vancouver Island, which, when fully completed, will have a capacity of 600 tons of News and Wrapping Paper per week. We have acquired almost 100 square miles of Pulp Limits and there is not the remotest doubt but that the Preference Stock which we are now offering will pay from 25 to 50 per cent annual dividends and will prove the best Industrial Stock ever offered for subscription in Western Canada. Those wishing reservation on the first 300,000 issue must make application
