SOME ADDING MACHINE THIS!

William Patton, a farmer living near Dundalk, has a barnyard freak in his flock of ducklings which is causing much attention and amusement. It is a duckling with four legs. The bird is otherwise quite normal, and very much alive. The extra set of legs does not prevent the duckling from getting around the yard with the rest of the flock. When walking it puts down two and carries two.

Asthma Victims—The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.
