**NOTE AND COMMENT**

Presbyterian opponents of organic church union, as proposed under the act accepted at last general assembly are preparing to enter upon an aggressive campaign against the union. They purpose spending \$30,000 in disseminating information among the church membership.

Kingston Standard: There is, however, an historical and a pleasing association with poplars which is probably well known to many of our readers. For some time Empire Loyalists used to plant a poplar on each side of their gateways as an indication that other British Loyalists coming to Canada would find a welcome and help in the houses to which those gateways led.

Brantford Expositor: Few people who are competent judges of literature will see any sense in the proposal to bar extracts from "Evangeline" from Canada schools on the ground that they are historically inaccurate. There are some people posing as instructors of literature who apparently have not enough imagination to distinguish between a scientific analysis of salt water and Byron's poem on the "Ocean."

Guelph Herald: It is most desirable that the names of places should be displayed so that those passing through can know "where they are at." Nothing gives one a more "lost" feeling than to pass through hamlet after hamlet and not know the names of the places. Sometimes it is to the detriment of the particular hamlet, because it might have attractions which appeal to the motorist, and he would come back if he knew the name of the village that had attracted him.

Fort William Times-Journal: "The veriest fool can keep warm in a cold country, but the wisest man cannot keep cool in a hot country." This answer was given by a Cree Indian, who had left his home in northern Canada and had gone to Mexico, but had come back to Canada, when he was asked how he came to leave a nice southern climate to return to the rigors of a Canadian winter. There is much good common sense in the answer, and the more one thinks over it the more one can see that the Indian has a great deal of right on his side.

The Dominion Government is preparing to father a system of agricultural credits. Dr. Tory, president of the University of Alberta, has been encountered to conduct an enquiry into the question, and the announcement conveying this news says that an at least partial report may be expected during the next session of parliament. It is believed that the Government has been converted to the necessity of introducing a policy on this matter, and that what is expected of Dr. Tory is a recommendation as to the best way to go about it.

Motorists who fail to dim their lights on meeting another car at night are a source of much danger. So are those who neglect to signal when about to turn a corner or to slacken speed. The driver who invariably insists on his right of way is another potential author of accidents. The motorist who refuses to treat others with courtesy, at a cost of only a few seconds time, never stops to think that he may need the same courtesy himself some day. Courtesy of deeds as well as of words is the need of the hour.—Kingston Whig.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that besides being an effective vermifuge, they are tonical and healthgiving in their effects.

All subscribers paying their subscriptions, either past due or for next year, before the 31st of December, will get two chances on the Ford Sedan and cash prizes being given by the Watford Community Club. Those from a distance sending subscriptions by mail will be allotted signed tickets for each dollar sent, which will be placed in the ticket box on our counter.

Kingston Whig: Newspapers don't try to punish people through the columns of the paper half as often as the public thinks. There are newspapermen who have their enemies. In fact it is the rule that they do have enemies, for it's hard to keep from making them if you work around a newspaper, but there are only a few newspapers that use their organ to settle a private grudge. Often when things go wrong in a newspaper office it is laid to someone on the staff. It was done purposely. It was to help one and injure another. That's what is said, but it isn't often so. Newspapers don't often try to explain away mistakes of that kind. Another comes up right away, anyhow.

Blenheim Tribune: We heard the remarkable statement made the other day on the authority of a district Bell telephone superintendent that there are more telephones per head of population in the Blenheim district than in any other place in the world, and we believe it to be true. Almost this same record can be claimed for the number of automobiles, theatres and other places of amusement, and, be it added, farm mortgages. We all enjoy the liveliness some of these things produce. Let's give the matter thought and may our conclusions be that they do not come in the order named. We may have to admit we are living at a pretty fast clip, faster than some of us are going to be able to endure; but we do believe the unusually large number of farm mortgages in Kent county is caused primarily by land being higher priced than elsewhere, and requiring underdrainage and other improvements.

**MODERN ROADS AS ADVERTISING**

The cost of building and maintaining good roads seems so great that many taxpayers are inclined to lie down and say they simply can't be afforded. Yet before taking that attitude, it is well to reflect on the returns that a good road brings. The news that a certain town or district has good roads spreads for many miles around. Motorists drive that way when out for pleasure, or will go in that direction when seeking a trade center. They will go many miles out of their way if they can strike a good road into some business centre. The convenience and comfort of a good road is thus a magnet that draws trade and business, that spreads prosperity into the surrounding country. It makes a town seem a live one. The streets in its business centre are well filled with visitors while a town with poor outlying roads finds visitors going elsewhere. It costs something to solve the good roads problem, but it costs more not to.

**WORK-WORN WOMEN**

**Care of Home and Children Often Causes a Breakdown.**

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her. No wonder the woman at home is often indisposed through weakness, headaches and nervousness. Too many women accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the women's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman needs rich blood and plenty of it. There is one way to get this good blood so necessary to health, and that is through the use of Dr. Williams' Pink Pills. These enrich the blood, and through their use many weak, ailing wives and mothers have been benefited. If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**ITEMS FROM FAR AND NEAR**

Some Wise, Some Otherwise  
Some Newsy, All Readable.

Canada has 12,247 post offices. There are 3,748 rural mail delivery routes, serving nearly 120,000 rural mail boxes.

Drinking moonshine which found its way to a creek is blamed for the death of a number of geese at Germansburg, Pa.

What with Chicago trying to steal all Canada's water, and Detroit getting all the whisky is can, it appears as if this country is going to be 'dry' good and proper one of these days.

If grape juice is added to the preferential tariff list the vineyards of Niagara will become as famous in the Motherland as they are at home. There are millions of people in the United Kingdom who have never heard of Canada as a land of vineyards.

Kent county will get the government subsidy this year for work on the highway north of Bothwell connecting with the Lambton-Kent town line. Last year the department refused the aid, claiming the roadway was not the standard width. This year the road has been widened.

Requesting salary increases from \$3,000 to \$4,000 a year a deputation of 22 county, district and separate school inspectors, headed by A. E. Jordan, York township, were very favorably received by Premier Ferguson. Although the Premier did not promise to give all that the inspectors were asking, he intimated that he sympathized with their situation and would make some concession.

In establishing a philatelic agency for the sale of unused postage stamps direct to collectors, the Canadian government becomes the second important government to officially recognize philately. Similar action was taken by the United States government 15 months ago. The stamps will be sold at their face value by the Canadian agency, and, as many of them will never be used by the collectors for postal purposes the sales will represent much clear profit to the department.

Parcel post to Great Britain may, on and from November 15th, 1923, be accepted for insurance under the same terms and conditions as apply to parcels posted for delivery in Canada, with the exception that the three cent and six cent fees do not apply for Great Britain, so the scale of insurance fees for Great Britain will be as follows: 12 cents for insurance not exceeding \$50; 30 cents for insurance exceeding \$50 but not exceeding \$100.

Alleging that they represented farmers who had been made the victims of frauds totalling hundreds of thousands of dollars, a deputation from Huron county waited upon Premier Ferguson and urged that the Ontario Government should launch criminal prosecution against interests which have during the past several years marketed the county's output of flax. According to the deputation, Huron County flax has been purchased, exported and marketed without any return being made to its growers. It was further claimed that court judgments secured against the parties responsible had not made it possible to secure money owing.

It is reported that the influence of the big coal dealers in the cities prevailed in keeping Alberta coal out of Ontario. Many of these dealers are financially interested in the Pennsylvania mines, and, if coal from another place found a market in Ontario, it would seriously interfere with their interests. One thing is certain, however, and that is, that people cannot go on forever paying \$18 per ton for hard coal. The small town dealer is at the mercy of the "big fellows" and generally has to pay a high price for supplies, especially so during the past few years when coal has had to be purchased through brokers, who are stool pigeons for the mine owners. The latter, like all private monopolies will eventually drive the people to nationalize the mines and run them for the public benefit.—Orangeville Sun.

**FAMILY BANKING**

IN keeping with its practice of extending to its customers every proper banking accommodation, the Bank of Montreal directs attention to the fact that many husbands and wives maintain Joint Accounts with this institution—a convenient arrangement whereby either may deposit or withdraw as the occasion demands.

Chequing Accounts for the purpose of dealing with household accounts may also be opened.

It is the aim of the Bank to be helpful in matters financial.

Watford Branch:  
E. E. LEWTHWAITE, Manager.

Established over 100 years

**Cause of Asthma.** No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to irradiate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

**Children Cry for**

**Fletcher's CASTORIA**

**MOTHER!** Fletcher's Castoria is a harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, prepared to relieve Infants in arms and Children all ages of

Constipation. Wind Colic  
Flatulency To Sweeten Stomach  
Diarrhea Regulate Bowels

Aids in the assimilation of Food, promoting Cheerfulness, Rest, and Natural Sleep without Opiates

To avoid imitations, always look for the signature of *Chas. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.
