## GREAT \*\* FOLEY MINE

## THE NEXT LARGE DIVIDEND PAYER.

First Mill Run yielded in Gold, \$1,250.00. Second Mill Run yielded in Gold, \$3,000.00.

Without clearing up the mortars and without concentrates. These runs, made with new machinery just started, confirm the reports of Frederic Gleason Corning, Esq. the eminent New York expert and J. H. Chewett, B.A., Sc., C. E., who reported last November that the Foley could pay \$250,000.00 per annum out of the "Bonanza" vein alone, which equals

## 33 PER CENT. PER ANNUM.

on the present price of the stock and there are 28 other veins in the property or 29 Mines in one.

Two of these veins have been sufficiently developed to prove that they are fully equal to the "Bonanza."

With nearly \$300,000 worth of ore **blocked out** by tunnels, shafts and winzes ready for stoping and milling, and with such great ore reserves, it is not necessary to predict that there will be a rapid advance in the price of the stock.

## FOLEY SHARES AT \$3.75

equal War Eagle shares at 37 ½ owing to difference in capitalization. Par value of Foley shares \$5.00, fully paid and non-assessable.

Plans, Maps, Photographs and Samples of Ore at our Office.
