### Our Diocesan Gazette.

#### NEXT YEAR.

No doubt our readers will be glad to know, that, with a view to still further improving our GAZETTE, the Bishop is corresponding with the Editors of one or two Illustrated Church Magazines in England, in order to see, whether it will not be possible next year to localise some one of their Publications. By this we mean, that each month, besides the usual amount of reading matter about our own Diocese, there would be twenty to thirty more pages, which would contain Serial Stories with Illustrations, Sketches of Bishops and Churches, good Articles and much other interesting and useful information, including one or two columns especially adapted to the young. Thus the GAZETTE would not only be more than double its present size, but also far more generally interesting.

At the same time we are determined to keep the Annual Subscription *the same* as before, viz., the small sum of twenty-five cents, although we may be obliged to ask for a few special Donations in order to keep our undertaking from running into debt.

All we ask of our present subscribers is that they should not only renew their own subscriptions next year, but

also should endeavor to interest others who are not already subscribers, and thus extend the usefulness of our Diocesan Church Monthly as a power for good in our Diocese.
