THE CHAMPION

**CABINET CREAMER
AND
CHURN.**

First Prize for Creamers and Churns at Toronto Industrial
Exhibition, 1881; Agricultural and Arts Association of
Ontario, 1881.

THE CREAMER has the following advantages:—

- Raises all the Cream between Milkings,
- Saves Two-thirds of the Labor,
- Increases the Yield of Butter
- Improves the Quality,
- Quadruples the Value of Skim Milk,
- Will pay for itself Twice or More every Season.

The Champion Cabinet Creamer System is the only uniform dairy method in existence; all
this is wanted to guarantee its success is good cold water.

THE CHURN belongs to the class known as Oscillating Churns, but is so much simpler
in construction that it is offered at about HALF THE PRICE usually asked for Churns of this
kind.
