

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

Disorders of the pulmonary organs are so prevalent and so fatal in our ever-changing climate, that a reliable antidote has been long and anxiously sought for by the whole community. The indispensable quality of such a remedy for popular use must be, certainly of healthy operation, absence of danger from accidental over-doses, and adaptation to every patient of any age or either sex. These conditions have been realized in this preparation, which, while it reaches the foundations of disease and acts with unfailing certainty, is still harmless to the most delicate invalid or tender infant. A trial of many years has proved to the world that it is efficacious in curing pulmonary complaints, beyond any remedy hitherto known to mankind. As time makes these facts wider and more known, this medicine has gradually become a people's necessity, from the log cabin of the American settler to the palaces of European kings. Throughout this entire country, in every state, city, and indeed almost every hamlet it contains, the *Cherry Pectoral* is known by its works. Each has living evidence of its unrivalled usefulness, in some recovering victim, or victims, from the threatening symptoms of consumption. Although this is not true to so great an extent abroad, still the article is well understood in many foreign countries, to be the best medicine extant for distempers of the respiratory organs, and in several of them it is extensively used by their most intelligent physicians. In Great Britain, France, and Germany, where the medical sciences have reached their highest perfection, *Cherry Pectoral* is introduced, and in constant use in the armies, hospitals, workhouses, public institutions, and in domestic practice, as the surest remedy their attending physicians can employ for the more dangerous affections of the lungs. Thousands of cases of pulmonary disease, which had baffled every expedient of human skill, have been permanently cured by the *Cherry Pectoral*, and these cures speak convincingly to all who know

SCROFULA, OR KING'S EVIL,

a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor, and in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corruption or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions and sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by the taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidney, brain, and indeed, of all the organs, arise from or are aggravated by the same cause.

ONE QUARTER OF ALL OUR PEOPLE are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To

cleanse it from the system we must renovate the blood by an alternative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S COMPOUND EXTRACT OF SARSAPARILLA,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as *Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Puslules, Itches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood.* The popular belief in "IMPURITY OF THE BLOOD" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this *Sarsaparilla* is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Dr. J. B. S. Channing, of New York city, writes: "I most cheerfully comply with the request of your agent in saying I have found your *Sarsaparilla* a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases of the Scrofulous diathesis.* I have cured many inveterate cases of *Leucorrhœa* by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for the female derangements."

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our *Sarsaparilla*, and also a dangerous attack of *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas Eruption* by it constantly.

AYER'S CATHARTIC PILLS

FOR THE CURE OF

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels, and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many Complaints which it would not be supposed they could reach: such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred Complaints arising from a low state of the body or obstruction of its functions.

These Pills have been prepared to supply a safer, and every way better purgative medicine than has hitherto been available to the American people. No cost or toil has been spared in bringing them to the state of perfection which now, after some years of patient, laborious investigation, is actually realized. Their every part and property has been carefully adjusted by experiment to produce the best effect which in the present state of the medical sciences, it is possible to produce on the animal economy of man. To secure the utmost benefit, without the disadvantages which follow the use of common cathartics, the curative virtues alone of medicines are employed in their composition, and so combined as to insure their equal uniform action on every portion of the alimentary canal. Sold by Morton & Cogswell, Halifax; W. H. Watson, Charlottetown, P. E. I.; E. P. Archbold, Sydney, C. B.; and at retail by druggists and merchants in every section of the country.
