

# DOMINION BRIDGE COMPANY, LTD.

(Successors to Toronto Bridge Co.)

MANUFACTURERS OF

## IRON · AND · STEEL · BRIDGES

For Railways and Highways. Iron Roofs, Turntables, Iron Piers and Trestles, Bridge Rods, Right and Left Hand Sleeve Nuts, and all kinds of Structural Iron Work.

The cost of Metal Bridges, for a term of years is less than the cost of building, repairing and replacing wooden bridges, and believing the only reason so many bridges are still built of wood to be that those who are charged with the duty of contracting for them are not aware how little difference there really is in the first cost of a good Iron or Steel Bridge and a well-built wooden one, *of equal strength*, we are at all times pleased for an opportunity to quote prices to officers of Counties, Cities and Townships, so that they may intelligently compare the cost of metal and wooden bridges.

To enable us to name prices closely we need information on the following points:

Number of spans and length of each span.

Width of Roadway and number and width of Footways or Sidewalks.

Kind of Lumber to be used for floor joists and plank and its value.

Name of nearest R. R. Station, and distance of bridge site from Station.

Depth of water at ordinary level and height of floor above water.

Also strength or capacity of bridge required, if any particular strength has been determined on; or a general statement as to the nature of travel over the bridge; whether on a country road, a well-ballasted turnpike, or located in a village or city, and subject to heavy loads.

WORKS: LACHINE, P.Q. OFFICE: Room No. 4, Windsor Hotel, MONTREAL, P.Q.
