**Making Culvert Satisfaction Complete**

Gauge for gauge Pedlar Culverts are the strongest money can buy. By actual test they have withstood strain 29 times greater than would render useless iron piping of similar gauge. Yet their makers do not stop there. To value such as this they add a guarantee of thirty years of perfect satisfaction.

**Pedlar's "Perfect"**

**Culverts**

are the utmost in culvert value. Made of heavy gauge, anti-corrosive they cannot crack, rust, rot or corrode. Their deep corrugations give them wonderful strength, ductability and malleability. Come in sizes from 8 inches to 84 inches in diameter, and in lengths up to 40 feet.

Dont' let alluring prices tempt you to choose a weak and worthless culvert. Insist on knowing the exact gauge of the culvert you are quoted and compare with Pedlar Culverts.

Send for the Complete Culvert Reference Book M. W. containing valuable data and drainage tables. It's free.
