PREFACE.

EMBODIED in the following pages are plain facts from farmers in the Canadian North-West, on many points of interest to intending settlers. It should be stated that circular letters asking for information were sent out in the month of September, 1884, to all farmers in the country whose addresses could be procured. The replies received were so numerous as to make it quite impossible to embody them all in one pamphlet. Those given in the following pages relate chiefly to the main questions present, in the first instance, to the mind of an intending settler.

The full address of each settler is given in the first instance only. It is, of course, competent for any reader, by writing to the address given in each case, to verify the accuracy of the answers now published.
