

## ENLISTMENT—REACHING THE UN-REACHED

During the last 10 years there has been an increase of 1,000 Sunday Schools, 10,000 teachers and 100,000 pupils. In the same time Junior, 'Teen-age and Young People's Organizations for mid-week training increased by nearly 800, and in membership by over 23,000. This is good.

### BUT

There are 50,000 to 100,000 under 20 years of age not enrolled in any Sunday School.

#### 1. In Organized Churches

In the regularly organized churches probably only 25 per cent. are regularly at the Church Service for Worship, only 50 per cent. at Sunday School for Religious Instruction, and only a very small percentage at midweek meetings for training.

#### 2. In Unorganized Territory

In our vast Home Mission territory there are 1,000 preaching places without a Sunday School and 2,000 without any plan for midweek training.

In 90 Public School districts in British Columbia only 15 Sunday Schools were found. In 300 School districts in Saskatchewan no Protestant services.

#### 3. In Non-Anglo Saxon Districts

In Saskatchewan 45½% are Non-British—how serious the situation is and how necessary that we should make larger provision for giving the Gospel Message to the children of the strangers.

#### 4. In the Foreign Field

This field is almost unlimited in its scope and needs. We must make larger provision.

### URGENT NEEDS

A great campaign for **Enlisting the Last Boy and Girl and Young Man and Young Woman in the Schools of the Church.**

**Hundreds of new Schools organized** in the next five years and teachers secured for this work.

“Seek diligently **until** he find it.”
