## LEMIEUX AND MONK MARK STORMY SCENE IN HOUSE

**Bitter Recrimination Across Floor of the Commons Follows Attacks by Former Minister on Civil Service Dismissals—Commons Stirred to Tumult by Fiery Language.**

OTTAWA, Jan. 26.—(Special.)—Confusion reigned supreme at several stages of this evening's session of parliament, when the house was in committee of supply on the public works estimates for Nova Scotia.

Hon. F. D. Monk and Hon. R. Lemieux shouted defiance at each other across the chamber. The minister of public works shook his fist at the ex-minister, who denounced the minister of public works as a "Marat," who demanded hundreds of heads to purify the country.

At another point of the debate when Mr. Monk denied that an appointee named Chauvin was his relative, Mr. Lemieux retorted: "O, he would deny anything. He would deny his own flesh and blood."

Members were shouting wildly and the chairman had twice to interfere. In the fiercest passage at arms between the ex-postmaster-general and the present minister of public works, the latter shaking his fist at Lemieux, shouted: "I owe that to a different sort of man from you," and when Lemieux appealed to the chair, he retorted, "It's the only sort of language that suits you."

Talked Dismissals Again. Hardly had the house got into supply at the evening session, when the opposition was in full cry again on the subject of dismissals. The only argument of the government, said J. P. Sinclair (Guysboro) seemed to be: "You were rotten in 1896 and we are going to be rotten now."

The first storm raged about the dismissal of a janitor in the postoffice at Canis, N. S., named Sutherland, on five days' notice. Mr. Sinclair read a letter from the man who sought the job and got it, named Piche, charging Sutherland with active partisanship. He also read a letter from the defeated candidate in the constituency, who, he averred, had not only recommended Piche and had not laid a charge against Sutherland.

Hon. F. D. Monk said the man had been dismissed on the request of the M. P.'s of Nova Scotia. G. H. Bradbury (Selkirk) reread the letter from the defeated candidate, Mr. Rawlings, showing that the latter endorsed the charge made by Piche. Quibbling, Says Bradbury. Mr. Sinclair: "He made no charge against Sutherland." Mr. Bradbury: "That's splitting hairs."

## LD RUSH ON IN MANITOBA

Prospectors Are Pouring In From the United States, and Excitement Runs Fever High.

MINOTONAS, Man., Jan. 26.—(Can. Press.)—One hundred more gold prospectors arrived last night from scattered points in the United States and Canada. Winnipeg wires that 300 more are leaving to-day. Not much prospecting is doing, only a wild desire to stake, regardless of location. The private car of R. Mackenzie is here with his mining expert from California and several others. They left at day-break for the scene of action with the necessary equipment. Several are looking for residential and business sites and the stamped is on in earnest, with all public buildings full and men lying all night on floors like sardines. Excitement and crowds are increasing every hour.

Already the Americans, enterprising as usual, have joined the rush. Among the American vanguard is Robert A. Long, for thirty years a business man of Dayton, N.D. He left his family to join the rush. There are many more coming, he said.

Whether Minotonas is a gold field or not, the rush is real and earnest. Joseph Robinson, who roomed at 76 Gould-st., and was employed on a freight hoist on the Albert-st. side of the T. Eaton store, was found crushed to death under his elevator at 6 o'clock last night by John Duncan, 32 Shuter; John Alexander, 105 Borden-st., who are also employed in the building. Robinson was charged with cleaning the rubbish out of his shaft after he had stopped running the elevator for the night. He had evidently been engaged in this when the hoist came down upon him, as a small pile of rubbish was beside him, together with the broom which he had been using.

It had been Robinson's practice to run the hoist up so that he could get under it to clean up and so that the elevator should not descend upon him, a piece of scantling was provided to prevent the elevator from coming down. This was found outside the shaft, so that Robinson had evidently thought that he could get his cleaning done before the hoist came down.

When found, he was crouched up under the elevator with his head between his knees, showing that the elevator had come quietly upon him and crushed him beneath it. Dr. Booth was called, but could find no broken bones or other apparent injuries. Coroner J. E. Elliott will open an inquest at the morgue at 3:30 this afternoon.

Robinson was an Englishman, 40 years of age. He was a single man and is not known to have had any friends or relatives in this country.

**LICENSE REDUCTION STANDS.** KINGSTON, Jan. 26.—(Special.)—The record into the ballots cast at the vote on the liquor license reduction before Judge Price resulted in a majority for the temperance people of 50, while the official returns gave a majority of 100, but the real gain by the account was already stated that in his pool he had made a return of 50 for the by-law and 10 against, while it should have been the reverse. It is understood that the liquor men will enter a protest on the ground of irregularities.

## POLITICAL SKI-ING

WILF (who is still suffering from effects of a bad fall): O, Borden's not over that river yet.

## HEARTY CHEERS GIVEN DUKE ON DEPARTURE

Governor-General Commented on Warm Hospitality—Hopes to Make Another Visit.

NEW YORK, Jan. 26.—(Can. Press.)—As he boarded his private car at the Grand Central station to-night for return to Ottawa, after five days' entertainment in the United States, the Duke of Connaught, governor-general of Canada, and uncle of King George V., turned to Ambassador Reid, who has been his host here, and said: "We were very much impressed by the hospitality of your people. We were treated royally by the press and the public. The duchess and myself are very grateful to the people of New York, and we shall look forward with great pleasure to another visit. Our visit this time seems to have been too short."

The duke's party, including the duchess and the Princess Patricia, Lieut. Col. Lowther, Captain Rivers-Bulkeley, Miss Pelly, lady-in-waiting, and eight servants, with thirty trunks and sixty hand-bags, arrived at the train gate fifteen minutes before schedule time and before the police detailed to guard their departure had arrived. A large crowd had gathered near their train, but it was altogether respectful and the station guards had little difficulty in controlling it. Repeated cheers were given to the royal visitors and the duke each time raised his hat in acknowledgement. Just as the train whistled for departure, the duchess and her daughter, the Princess Patricia, embraced Mrs. Reid and all the members of the party waved their hands as the train drew out at 7:40 p.m.

**LIFE SQUEEZED OUT BY DESCENDING HOIST** Employe of Eaton's Found Beneath Elevator With Bones Unbroken, Was Sweeping Shaft Floor.

Joseph Robinson, who roomed at 76 Gould-st., and was employed on a freight hoist on the Albert-st. side of the T. Eaton store, was found crushed to death under his elevator at 6 o'clock last night by John Duncan, 32 Shuter; John Alexander, 105 Borden-st., who are also employed in the building. Robinson was charged with cleaning the rubbish out of his shaft after he had stopped running the elevator for the night. He had evidently been engaged in this when the hoist came down upon him, as a small pile of rubbish was beside him, together with the broom which he had been using.

**SUNDAY WORLD.** Besides the usual pictures of Toronto's winter sports and pastimes, which appear in this restricted section, there are more views of the lake in the grip of winter, which include a scene at the eastern end of a photo taken late in the afternoon, showing the beautiful effect of the fading sun on the snow and ice; and a flock of wild ducks at the Humbert side. Another addition to the series of special features, in the form of flashlight photos of Toronto's important social functions, is shown this week. This is the Jews' Ball at the King Edward Hotel.

**BIG FUR SALE.** The sale now on at Dineen's, 140 Yonge-street, offers some tempting bargains in every line of fur garments. Specials in Canadian mink, Persian Lamb and Hudson, electric and Alaska seal and in sables of different kinds at greatly reduced prices. The object of the sale is to reduce the stock now on hand before stock-taking which is scheduled for February the first. Anyone desiring high-class furs at a low price could not do better than visit Dineen's before Tuesday night. Store open until 10 o'clock Saturday night.

**"The Servant in the House" Coming to the Princess.** This play, which has been presented here before with Mr. Power as "Bob" the drain-man, is a play of the period for all periods. It is an all rational, modern and unaffected reminder that the teachings of the Christian religion as expounded by its founder rest on the simple logic of common sense.

## CAN ALLIANCE STOP WITH SUNDAY SLIDING

To be Consistent They and Council Henchmen Must Abolish Other Sabbath Pastimes is Feeling of Citizens—Secretary Rochester Shows Signs of Weakening.

By order of a spontaneous outburst of indignation on the part of thousands of citizens, a most vigorous and widespread protest is being and will continue to be, exhibited against the by-law now before the civic council to prohibit Sunday recreation in the form of tobogganing. It is expected that the meeting called for Wednesday night will meet with such approval that thousands of people will be unable to gain entrance and that the members of the council will begin to realize in its full force, that the opinion of the masses is worthy of more consideration in one hour than the Lord's Day Alliance should be given in twelve months. If it is such a terrible soul-cursing crime to slide down an incline during the handful of Sundays, which afford this pleasure, what will become of the ungodly who dare to steal a waft of the gentle zephyr breezes fluttering over the waters to the south of the city? Surely something will be the reward, but fortunately it will most likely be health.

**Rev. W. M. Rochester** vowed over the telephone last night that his Sunday observance alliance would not interfere with the water lovers. All that is troubling the alliance crowd is to save the people from a little recreation during four or five winter Sundays, despite the fact that they have the majority of members in council and therefore if left to city fathers should be able to carry any fantastic notion. Mr. Rochester last night showed signs of having been besieged on every hand. He was tired, worn out and ready for an outing in the fresh air. A few runs down a nice slippery grade with a merry bunch of laughing good-fellows would have made him feel like a new man. Where was he on Sunday?

**Nationalization of Telephones and Telegraphs** OTTAWA, Jan. 26.—(Special.)—There is no doubt but that in due course the government will take up the important question of the nationalization of the telephone and telegraph systems of Canada. As a report is being expected from those enquiring into the telegraph rates of the country, there is no reason to assume that anything will be done until the report is made. This session will then not see any legislation introduced.

Hon. Mr. Pelletier referred to the matter at Eganville on Thursday night, and his reference had been hailed as definite. To The World this afternoon he stated: "What I did say was that the nationalization of the telephone and telegraph was a plank in Mr. Borden's Halifax platform, and that in due course it would be taken up by the government."

## HOLLINGER HAS TEN MILLIONS

Ore Reserves Run Very High in Values—Work Progressing at Rapid Rate—Large Profits Looming Up.

MONTREAL, Jan. 26.—The directors of the Hollinger Gold Mines to-day made public the report of General Manager Robbins. The report contains results of sampling on various veins, both upon the surface and underground. The estimates of tonnage and gold contents are based upon conservative allowances for the persistence of values beyond the present workings.

Estimated tonnage and values:

Vein	Depth of Vein of Allowed	Estimated Tonnage	Gross Gold Content	
1	200 ft.	300 ft.	210,000	\$7,560,000
2	200 ft.	300 ft.	130,000	1,200,000
3	100 ft.	200 ft.	20,000	150,000
4	100 ft.	200 ft.	35,000	450,000
5	100 ft.	200 ft.	10,000	140,000
6	100 ft.	200 ft.	7,000	720,000
Total		482,000	\$10,220,000	

**Profits of \$7,500,000.** Profits during the next four or five years should amount to \$7,500,000, and should continue after that period. Every 100 feet of additional depth upon the No. 1 vein below 300 feet will add \$2,100,000 to the profits, and the continuance of other veins below the arbitrary depths allowed will also add considerably to profits. Approximately 2000 samples were taken, involving the chipping of 600 feet of sample trenches. A minimum stopping width of 3 feet has been allowed and a minimum of \$4 per ton has been included as payable.

**Assays Run High.** The assays show: No. 1 vein—Surface exposure, 950 ft., average width 9 1/2 ft., average assay value, \$23.96 per ton gold. 100 foot level, 1000 feet of drifting in payable ore, average width 8 ft., average gold value, \$11.54 per ton. 200 ft. level, 350 feet of drifting, average width 9 1/2 feet, average gold value, \$43.29 per ton. No. 2 vein—Exposed upon surface 300 feet, average width 7 ft., average gold value \$7.00 per ton. Cross-cut at three points upon 100 ft. level, proving additional length of 450 feet. Cross-cut at one point upon 200 feet level, 25 feet of drifting upon 100 foot level. Cross-cuts show the following:

## STEP TOWARD IMPERIALISM

Closer Trade Relations With Australia and West Indies in Sight—Ames Urges Action.

OTTAWA, Jan. 26.—(Special.)—Two important announcements were made by Hon. George E. Foster at this afternoon's session of the house of commons. A proposition had been made in writing to the minister of trade and customs of Australia, he stated, which he hoped would result in a conference on the improvement of trade relations between the countries, between members of the two governments, or at least between special commissioners.

He also stated that a cable had been received saying that it had been decided that commissioners from the West Indies and British Guiana would come to Ottawa on March 27 to discuss improved trade relations and communications. H. B. Ames (Montreal-St. Antoine) gave an admirable exposition of the case for "imperial reciprocity" with Australia, founded on the fact that the seasons were mutually exclusive and the respective products of the two countries were mutually exclusive. Political conditions in Australia now made the time a good one to seek a preferential arrangement.

**Canal Not Mentioned.** Postmaster-General Pelletier denied, in answer to a question by E. B. Dewe, Continued on Page 7, Column 2.

## DAUGHTER, NOT MOTHER, WAS WIFE OF BREWER

Sensational Affidavit Offered in Winnipeg Case, Which Caused Sectarian Bitterness.

WINNIPEG, Jan. 26.—(Can. Press.)—"It was a dirty case and a dirty story has been made of it, inasmuch as thru it a dastardly attempt has been made to injure St. Boniface Hospital and to slander the Sisters of Charity and the Catholic Church and authorities." In the above strong language F. W. Russell, a prominent German Catholic, characterizes in a letter addressed to the board of control the now famous Ne Temere Brewer case, in which it is alleged a Catholic wife was prevented from seeing her husband in the St. Boniface Hospital when at the point of death because the parties had not been married by a Roman Catholic priest and were therefore held by the church to be living in adultery.

**Daughter is Lawful Wife.** Mr. Russell supports his contention with an affidavit of Lucy Brewer, who claims she is the lawful wife of Brewers connection with the case is that recently daughter of the woman who claimed to be Brewer's wife and was refused access. The board of control's connection with the case is that recently daughter of the woman who claimed to be Brewer's wife and was refused access. The board of control's connection with the case is that recently daughter of the woman who claimed to be Brewer's wife and was refused access.

**Mother Imprisoned.** Lucy Fortier avers she was married to Brewer in October, 1904, while her mother was undergoing a six months term in Brandon jail, her mother being Mrs. Philip Fortier, daughter of the late Philip Fortier, who was arrested after the term expired her mother returned to Brewer, who put away the statement, his lawful wife, Mr. Russell says it was in knowledge of these facts that admittance was refused to Mrs. Philip Fortier, who had never been married to Brewer and in fact had been living with her daughter's husband. He implies some action may yet be taken against sundry parties.

**HAND-IN-HAND.** Japs: I wish some one'd pass a by-law to stop us going down the slide, John. Japs: It is my opinion that Billy Mackean has been pouring Don water on it.
