The allied advance was made in considerable jumps in that area, the Germans continuing their rearguard fighting and depending much on their nachine guns.

Further to the west the Americans gained the ascendancy over the Germans and drove thru beyond the Town

Cavalry was used at one point in the operations north of the Chateau

To the northward, the most intense resistance was offered along the ex-tended German right flank, but the reports are that the allies have made gains and that the Germans have been unable to halt the movement to-wards their lines of supplies.

Lord Robert Cecil Describes Redeeming of Mesopotamia From Ruin.

London, July 24.-In the house of commons last night Lord Robert Cecil, assistant secretary of state for for-eign affairs, replying to a question, said the operations on the Euphrates in March, and the subsequent operations in the neighborhood of Kirkuk in April, had resulted in inflicting on the Turks casualties amounting to about 10,000 men, of whom 7,500 are prisoners of war. Thirty guns, and much other war material were cap-

"Very satisfactory progress is being made in redeeming Mesopotamia from the state of ruin into which it had fallen under the Turks," Lord Robert continued. "Thirteen government primary schools, four munici-pal state-aided schools, a teachers' training school and a survey school have been opened, and classes in agricitre also have been started. Large tracts of hitherto ntilled land now London, July 24.-King George has are being cultivated thru the efforts of the population and the political ad-

ministration. "The opening up of the country by roads and rail and the improved water transport and the establishment of security on the highways have resulted in an increase in trade and a lowering of prices. The contrast between the improved conditions in Mesopotamia and those of the neighboring country occupied by the Turks, where disorder and famine are chronic, has not failed to impress the population.

"The relations between our troops and the people are excellent."

Turning to the operations of the King of the Hedjaz, who is allied with the British, Lord Robert said: "The casualties inflicted on the Turks by the Arabs along the line between Berat and Maan amount to about two thousand, in addition to which two locomotives have been destroyed and 122 culverts and bridger demolished. London, July 24.—Confirming the fact that the fall of the Seydler ministry was partly attributable to economic distress in Austria, it transpires that at a sitting of the reichsrat the ministry was sharply criticized with regard to the food situation. For example, Deputy Pik said that western Bohemia had been flouriess and breadless for months. Pilsen was foodless for a fortnight, and the consequences there had been most lamentable.

Munitions Workers

When the noise of the shop gets on your nerves-

When you feel that you must ease up or stop altogether-

When you just don't want to work overtime, or work on holidays-

Remember:

Your labour is the bulwark upon which your own flesh and blood in the trenches relies for munitions.

If you, munitions workers, fail them, they are lost.

Compared with the roar of the guns the noise in your shop is a whisper.

Compared with your weariness of body, theirs is the weariness of ceaseless suffering. But always, they pull themselves together and resolve to stick it out and see it through.

Are they not worthy of your utmost efforts?
