Chicage Gossip.

Marshall, Spader & Co. wired J. G. teaty, King Edward Hotel, at the close of

the market:

Wheat prices dipped early on quite a formidable array of bearish news. The short interest in the pit was eliminated to some extent during yesterday's advance.

some extent during yesterday's advance. The decline, however, proved temporary. Those who had sold on the bearish showing attempted to cover, and the market speedily displayed stringency both for May and July. Only a moderate advance over the previous day's closing prices, however, was necessary to bring increased offerings and cause some reaction from the top. Thereafter the trade was tame, values held around yesterday's close and local interests did all the business. Modern Miller report generally bearish, but confirmed reports of loss of large wheat area in Northwestern Kansas, as well as minor losses elsewhere.

SIR JAMES WATSON'S OPINION.

He says that the commonest of all disorders, and one from which few escape, is catarrh. Sir James firmly be-lieves in local treatment, which is best supplied by "Catarrhozone." No case of Catarrh can exist where Catarrhozone is used: it is a miracle worker, relieves almost instantly and cures after other remedies fail. Other treatments can't reach the diseased parts like Catarrhozone because it goes to the source of the trouble along with the air you breathe. Catarrhozone is free from cocaine, it leaves no bad after-effects, it is simply nature's own cure. Accept no substitute for Catarrhozone, which alone can cure Catarrh.

Up to-date licenses have been taken out for eighty-one canines, making a total of \$90 collected. By a fair estimate it is believed that the above number of dogs represent only about one half of the dogs in town.
