press affirmed that the expedition was primarily destined for Dongola. It was not usual, he said, to publish a plan of campaign, and it might not be wise in this case. The future actions of the Government, he said, must be regulated by consideration not merely of military importance but of political and financial moment as well. The Government was convinced that the steps which it had decided upon would act as a diversion for the relief of Kassala, and also save Egypt from a menace which, if left alone, would grow to formidable dimensions. Mr. Labouchere Objects. Mr. Labouchere moved to adjourn in order to consider the serious condi-tion which had been revealed by the statement 4n regard to Egypt and the

The New Milltia Rifle.

They Know New to Kill Time Nearly as Well as Some Canadian Legislators. Washington, March 16.—There were three speeches made in the Senate to-day on as many different subjects. The first was by Mr. Lodge (Rep., Mass.) and was in favor of such a change in the immigration laws as will keep out illiterate and ignorant immigrants. The second was by Mr. Pugh (Dem., A.) and was in favor of the coinage of silver at the mints of the United States, with the same rights as goid. The third was by Mr. Mor-gan (Dem., Ala.) in support of the conference report on the Cuban bel-ligerency resolutions. He referred to the alleged despatch from the Spanish Prime Minister, Canovas, which Sena-tor Hale had read last week with such respectful, religious presentation, and said that it now came out that Mr. Canovas had sent no such despatch and was not responsible for it. The Senator from Maine had been over-reached. He had mistaken the Span-iard, who had neither mercy nor con-sideration. Mr. Morgan, without fin-ishing his speech, yielded for a motion to adjourn. Mr. Dickey informed Mr. Casey that the Government had chosen the im-proved rifle for the use of volunteers on the report of experts, and, after mature consideration, the Lee-Enfield magazine rifle had been selected, which was practically the same as the Leewas practically the same as the Lee-Metford. It was of an improved groove, which greatly prolonged the life of the rifle. It was of the newest pattern known, and the one to be given to the

Japan a Dangerous Rival.

Japan a Dangerous Eival. There are few persons in Canada who realize the dangers that threaten us through competition with Japan. The Japs are extremely observant, and imitative, and skilled labor is in abun-dence at 10 cents a day. A specimen of their handlcraft can be seen in those rich broche silk scarfs that Quinn is now selling in all the popular shapes at 50 cents. We expect another ship-ment of silks from the agents in Brit-ish Columbia to-day.

Besigued From the Army. New York, March 16.-E. R. Muntz, who was in charge of the Salvation Army's War Cry, resigned from the Army Saturday, and has joined Ballington Booth's God's Ameri-can Volunteers. He will have charge of the new movement's newspaper organ, which will appear next week. Mr Martin moved for a copy of the list of the electors for the constituen-cles of Yale and Cariboo. He pointed out that the population of certain places in these constituencies had increased very rapidly owing to the mining boom, and that, as the last re-vision of the voters' list had taken place before the influx of population, there would be many voters unable to vote at the next election. He con-sidered Parliament should authorize the revision of the lists for these con-stituencies. Pember's hair dressing establishment, 127 and 129 Yonge.

French Wines in Canada.

French Wines in Canada. One of the first local results of the French treaty has been the large sale of clarets. The undermentioned capa-clous vaults have had a great drain on account of the popular prices quoted by them: Prices per case, \$3, \$3.50, \$4.50, \$5, \$6, \$6.75, \$10; also full assort-ment of old vintage wines, at Mara's, 79 and \$1 Yonge-street, Phone 1708. Mr. Mara said the revising barrister Mr. Mara said the revising barrister had done his work very well, and that if the Government brought in a bill to allow the voters of two constituen-cles to vote at any poll in the districts, satisfaction would be done. The greater part of the increased popula-tion was American. Most Canadians in the district were already on the lists, so if the scheme was carried out the purpose would be attained. Mr. Daly said the matter was under the consideration of the Department

Mr. Daly said the matter was under the consideration of the Department of Justice, and the motion carried. Mr. Martin had another British Col-umbia motion for papers, which led Mr. Prior to ask why he was taking such a great interest in British Col-umbia, on the eve of a general elec-tion, especially when the interests of Steamship Arrivals.

It was then unanimously decided on the motion of Mr. J. A. Yorston that an expression of confidence in the Liberal leader and his colleagues be sent to Mr. Laurier at Ottawa.

Fire in a Duchess-Street Stable Last Night -Stableman Injured. The stables at rear of the Kormann Brewery, Duchess street, caught fire shortly before 11 o'clock last night, and were badly damaged. Two horses were burned to death and the loss will be \$600. A stableman, while endeavor-ing to rescue the horses, had his face burned, but he is not thought to be seriously injured. The cause of the blaze is not known. A small blaze at 118 Bay street, occu-pied by the Specialty Manufacturing Company, gave the firemen a run at 6 o'clock last night. A gasoline stove caused it.
