NEW PIANOLA MUSIC.

The Mason & Risch Piano Company wish to advise their many patrons that they are just in receipt of a large shipment of Pianola music, which they have added to their Circulating Pianola Music Abbrary. This music is mos. comprehensive in its character, including not only many standard-works but a carefully selected variety of the latest popular airs, operatic numbers, etc. They will be glad to receive calls from their customers, when may plece desired may be heard and selections made. The Pianola is just as cheerfully shown to the merely curious music lover as the intending purchaser.

Intended Ald. Urquhart moved that they be heard soon after the Council commenced business.

Sorness on the National Sanitarium Association was the nature of the discussion which followed. The enovement had been delayed and blocked by trickery, according to the contention made by Dr. Barrick, who claimed that after a discussion lasting for three years it was now time for the people to say something, and they the should have a chance to vote upon the bylaw. Dr. Barrick said that the Anti-Consumption League was organized to carry so a campaign of education to the end that eventually all municipalities might have a sanitarium similar to that being advocated for Toronto. A county should look after its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as well as its poor who are ill with contagious disease, as

Pilot Was Careless.

Montreal, Nov. 25.—A charge of negligence has been preferred by the Deputy Minister of Marine against Pilot Bouillet, who was in charge of the cruiser independent of the coverflow of the santiariums.

Cured or Decently Burled.

Rev. J. P. Lewis said the work should be done by somebody at once, and he quoted several cases in his parish which proved to him that the disease was being propagated every day. Contagion had recently caused him to bury two young people who had contracted the disease, not thru their own families, but undenlably thru contagion. He thought there should be a law to compel forcibly, if necessary, the removal to some institution of every consumptive, and they should stay in such an institution until they were cured or decently buried.

Bylaw Can't Be Submitted.

Mr. Caswell's opinion in regard to the bylaw was that it was wholly impossible to

Looks Like a Vote Bait.

At the beginning of the night session the recommendation of the Legislation and Reception Committee that Aid. Woods' "20-tion to permit the use of Exhibition Park for other than exhibition purposes be granted was not received with any manifestation of delight by the Council. It was pointed out that various societies had never been refused the use of the grand stand and horse ring, and after a short argument the recommendation was sent back to the committee. Help for Consumptives.

There was a large deputation of medical men, clergymen, laymen and ladies anxious for a hearing in support of the submission of the bylaw for \$50,000 toward a consumptive hospital. For their convenience Ald. Urquhart moved that they be heard soon after the Council commenced pushings.

It was moved by Ald. Starr, seconded by Ald. Sheppard, that whereas it has been alleged that the Bell Telephone Co. is charging \$50 for telephones in the city of Toronto, and whereas the Corporation Counsel is reported to have said that this is a breach of the Telephone Act; therefore this Council doth hereby request the Beard of Control to take legal advice on the point at the earliest date, and, if possible, move to restrain such proceedings or proceedings or take such steps as counsel may advise ferthwith.

Without any discussion the motion carried.
