AN OBJECT LESSON. A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of healthy, vigorous old men at the tables—men whose ages run from 60 to 80 years—many of them held and all perhaps grey, but none of them feeble or senile?

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an object lesson which means something. If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a sufficient quantity of any wholesome food will be promptly digested, if the stomach does not do so, and certain foods cause distress, one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty, because they supply what every weak stomach lacks, pepsin, hydrochloric acid, diastase and nux.

Stuart's Dyspepsia Tablets do not act upon the bowels; and, in fact, are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus giving a much needed rest and giving an appetite for the next meal.

SHE PATIENTLY BORE DISGRACE

A Sad Letter From a Lady Whose Husband Was Dissipated. How She Cured Him With a Secret Remedy.

VICE PROTECTED BY A SYSTEM. Rev. J. R. Silox Compares Western City With Sodom and Gomorrah.

Winnipeg, Man., Jan. 14.—Rev. J. R. Silox of the Central Congregational Church in a recent sermon only, a protected vice.

"Some of the authorities of this city seem to think they cannot govern the city without some alliance with crime. Laws that the intelligence and conscience of the people of this Dominion have enacted against crime are openly and systematically violated by the vilest criminals on the face of the earth, and our authorities permit it, and what is even worse, if worse could be, we permit them to permit it. If we did our duty we would morally dynamite not only the houses of crime, but those who by their moral impotence, permit and sanction their existence in our midst."

"The vice that the word of God denounces with more moral reprobation than any other, is in this city, a protected vice. We have city officials who practically see that a certain district of the city, and to the vilest traffickers in vice out of hell, you may come here and carry on your damned work night and day, Sunday and Monday, and be exempt from legal interference."

"If the devil were master of this city this particular arrangement would not be so far from his natural liking any more than it is at present. Morally considered it is the most objectionable and the most heinous of a lunatic asylum. The men who have done and are doing this, would make first-class officials for Sodom and Gomorrah."

FAVOR POSTAL C. O. D. SERVICE. It Would Be an Advantage to the People, Merchants Say.

A number of prominent merchants spoken to by The World yesterday in regard to the suggestion contained in a letter in yesterday's issue for a postal C. O. D. service, expressed themselves as highly enamored of the idea.

Among those interviewed was W. Dinsmore, president of the Merchants' Association, who stated unhesitatingly that such a service was just what was wanted in this country, and that it would be a considerable boon to the nearest railway station or express office.

"It would be a great advantage to our people," remarked Mr. Dinsmore, "and in no small degree it would be an advantage to the merchant in any centre of commerce. It is just what is wanted in this country, and it is a service which is not being provided in any other country."

There are a number of postal offices distributed all over the country, where parcels could be sent to, which, as a rule, is some miles away, and distances are especially great in the Northwest Territories, and such a service would be an especial boon to the people of that place, also the people of Ontario would require it had enough. These distances, I know for a fact, often upset sales in this city.

People frequently say to me that they get their letters all right in the country, but they would not buy anything there because the distance from their home to the express office was too great. There is no reason whatever why a postal C. O. D. service should not be established. True, strong opposition would come from the different express companies, but it is in the interest of the people as a whole that the government should act, and not in the interest of any particular company or companies, in a matter of this kind.

School Improvements. The fencing, grading and planing, which has long been required at the Winchester, Whitrow and Essex street schools is likely to become an accomplished fact before long.

Technical School Improvements. The Technical School Committee of the City of Toronto, in a report made yesterday afternoon, and considered several of the replies received to circulars sent out, asking for suggestions as to how the school could be better. After reading the replies, the committee is of the opinion that the school should be reorganized for a week, to complete the plan of the school.

Rev. R. J. Trevelyan's Lecture. The members and friends of Simpson-street Methodist Church were given a rare treat on Tuesday evening, when Rev. R. J. Trevelyan lectured on "Say So, or Mind Your Own Business." The church was crowded to the doors, and everybody was pleased so much that it was suggested that the lecture be repeated in the near future. J. N. McKeendry made an excellent chairman.

Young Prisoner Discharged. Malcolm Armstrong, aged 16 years, charged by Alma Plummer of Woodbridge, 18 years of age, with a serious offense, was found not guilty in the Criminal Assizes on Wednesday. The prisoner was discharged.

James Purley was placed on trial on a similar charge, against Apphia Davidson, an elderly woman. A trial will be continued this morning.

CHANGE OF LIFE

Some Sensible Advice to Women by Mrs. E. Sailer.

President German Relief Association, Los Angeles, Cal.

Spring to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

Those dreadful hot flashes, sending the blood surging to the heart until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop for good, are only a few of the symptoms of a dangerous nervous trouble. The nerves are crying out for assistance. The eye should be heeded in time. Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life, and all women who use it pass through this trying period with comfort and safety.

MRS. E. SAILER.

"DEAR MRS. PINKHAM:—When I passed through what is known as 'change of life' I had two years' suffering—sudden heat, and as quick chills would pass over me; my appetite was variable and I never could tell for a day at a time how I would feel the next day. Five bottles of Lydia E. Pinkham's Vegetable Compound changed all that, my days became days of health, and I have enjoyed every day since—now six years."

"We have used considerable of your Vegetable Compound in our charitable work, as we find that to restore a poor mother to health so she can support herself and those dependent upon her, if such there be, is truer charity than to give other aid. You have my hearty endorsement, for you have proven yourself a true friend to suffering women."

"—Mrs. E. Sailer, 7363 Hill St., Los Angeles, Cal."

"When one stops to think about the good Mrs. Sailer derived from Mrs. Pinkham's advice and medicine, it seems almost beyond belief yet it is all true as stated in her letter published above at her own request."

No other medicine in the world has received such widespread and unqualified endorsement. Refuse all substitutes.

As a matter of positive fact Mrs. Pinkham has on file thousands of letters from women who have been safely carried through this dangerous period "Change of Life." Mrs. Sailer's cure is not an unusual one for Mrs. Pinkham's medicine to accomplish.

No other person can give such helping advice to women who are sick as can Mrs. Pinkham, for none have had such a great experience—her address is Lynn, Mass., and her advice free—if you are sick write her—you are foolish if you don't."

REWARD.—We have deposited with the National City Bank of Lynn, Mass., \$5000, which will be paid to any person who can find the above testimonial letter either in German, or in English, or in French, or in Spanish, or in Italian, or in Portuguese, or in Russian, or in Chinese, or in Japanese, or in any other language, to Lydia E. Pinkham's Medicine Co., Lynn, Mass.

GIFT TO J. H. PLUMMER. Commerce Staff Honors Their Retiring Assistant General Manager.

The staff of the Canadian Bank of Commerce manifested their high esteem for the retiring assistant general manager, J. H. Plummer, yesterday afternoon, by presenting him with a magnificent tea service, together with a number of handsome solid silver candlesticks.

The pleasant event took place in McCowen's hall, the presence of between 200 and 300 members of the staff, who had arrived in the city for the occasion from the various branches throughout the Province.

B. E. Walker presented the gift on behalf of the staff, in an appropriate address, and Mr. Plummer replied in feeling terms, assuring the donors of his warm feelings towards them, and of his hope and trust that the bank would continue to flourish in the future as it had in the past.

A letter was received from the president of the bank, Hon. George A. Cox, expressing his regrets at being unable to be present, on account of a previous business engagement.

Robert Kilgour has heard on behalf of the board, and pleasing addresses were also made by Dr. Hoskin, Alexander Laird, the new assistant general manager, John C. Kemp, local manager, F. H. H. Charles, Peterborough.
