RAISE HALF MILLION FOR LAYMEN'S MISSIONS

Churches Determined to Evangelize the World During Present Generation.

At the mass meeting of the Laymen's Missionary Movement yesterday, it was decided to try to raise \$500,000 during the coming year for the movement.

The afternoon gathering, which was held in the Metropolitan Methodist Church, was addressed by J. R. Mott, of New York, while J. A. Patterson, K. C., presided. Mr. Mott said that it was the determination of the churches to evangelize the world during the present generation, but they should be careful that a movement like this should not unconsciously drift, unduly emphasizing the human and not giving the supernatural its proper place.

N. F. Davidson read the amount given by the different churches for the movement during the year as follows: Methodist \$101,374; Presbyterian \$102,000; Anglican \$61,876; Baptist \$55,005; Congregational \$14,943; Salvation Army, and other societies \$28,860.

It was suggested that next year the churches should give as follows: Methodist \$120,000; Presbyterian \$120,000; Anglican \$82,000; Baptist \$60,000; Congregational \$66,000; Salvation Army and other denominations \$42,000.

In the evening banquet was held at Massey Hall at which Mr. Mott was the chief speaker. He said that Toronto was in the eyes of all the missionary world as pledged to help along the movement. In England and Scotland the young men and women had joined the movement in great numbers, but the merchants and wealthy elements had not up to the present taken any interest in the work. In his estimation the largeness of the proposition alone would make it attractive enough to call for the largest and best men in the world.

A resolution was presented by S. J. Moore, seconded by Thos. Findlay, expressing gratitude to the Almighty for the marvelous results that had followed the gathering of two years ago in St. James School House. It also commented upon the large increase in offerings from \$175,000 last year to \$263,700 this year. It was resolved that the givings should not fall below \$300,000.

There is something different and superior about Zam-Buk. Time and again workers in all branches of trade have proved its vast superiority over the advertised ointments and salves of the day. No doubt the fact that Zam-Buk is made entirely from herbal essences and extracts, while ordinary ointments contain more or less animal fats and oils, goes a long way to explain Zam-Buk's superiority. However this may be, the fact remains that in four continents to which it has been introduced within ten years it has become the leading household balm.

For burns, cuts, scalds, bruises, eczema, piles, ulcers, ring-worm, itch, scurvy, bad leg, festering sores, chapped places, cold sores, frost-bites and all skin injuries and diseases, Zam-Buk is beyond doubt a most marvelous cure.

Druggists and stores sell at 50 cents a box and the Zam-Buk Co., Toronto, will mail a box, post free, upon receipt of price, to any of our readers who may have difficulty in obtaining a supply of the genuine Zam-Buk from their local stores.

WALKER—On Nov. 15, Ann Elizabeth Walker, beloved wife of George R. Walker of Weston, fell asleep in Jesus. Funeral Wednesday at 2 p.m. to Riverside Cemetery, Weston.

MITCHELL IN MIDDLESEX

Parkhill Man Will Be Liberal Candidate in By-Election.

ALISA CRAIG, Nov. 16.—(Special.)—John Mitchell, Parkhill, was this afternoon nominated by the Liberals of North Middlesex to contest the riding at the by-election to be held Dec. 6 for the seat in the legislature, lately rendered vacant by the resignation of Duncan C. Ross, M.P.-elect.

Word had been received that J. A. Macdonald, editor of The Globe, positively declined to allow his name to go before the meeting. Mr. Mitchell had to be coaxed a long while before he would consent to do so by saying, "If you really want me, then I'll accept." No pledges were asked. Duncan C. Ross urged the members to support Mitchell at once and on the spot.

Other speakers were J. H. Pettipiece, ex-M. L. A., and Alex. Smith, M.P.

The following officers were elected by the riding association: President, Marshall Miller, MacGillivray; first vice-president, James Healey, Strathroy; second vice-president, Angus McLeish; secretary-treasurer, Dr. J. Gunn, Alisa Craig.

Injuries Fatal.

Arthur Barnard, aged 60, who was joined from his wagon under the wheels at Downsview on Thursday last, when his horse ran away, died at Grace Hospital this morning.

WATER GAUGE BURST.

C. P. R. Fireman Badly Scalded.

C. P. R. Fireman George H. Duffus, who lives in Robertson-street, Port William, while on his engine near Westford happened a nasty accident. The water gauge of the locomotive burst and scalded the whole of the left side of his face and head terribly.

"It so happened," said Duffus to our representative, "that I had a box of Zam-Buk in my pocket, which I used for a sore on my lip, and when I had recovered from the first shock of the accident, I produced the balm and had it applied freely to the scalded parts. At the time I applied it was suffering from acute agony, but within a wonderfully short time Zam-Buk gave me ease. I was able to continue my journey, and upon reaching home I obtained more Zam-Buk and continued the treatment. It acted wonderfully well, and in a few days had the wound nicely healing. I don't know anything so fine as a healer of burns, scalds, cuts and similar injuries which workers are so liable to; and in my opinion a box of Zam-Buk should be kept handy in every worker's home."

There is something different and superior about Zam-Buk. Time and again workers in all branches of trade have proved its vast superiority over the advertised ointments and salves of the day. No doubt the fact that Zam-Buk is made entirely from herbal essences and extracts, while ordinary ointments contain more or less animal fats and oils, goes a long way to explain Zam-Buk's superiority. However this may be, the fact remains that in four continents to which it has been introduced within ten years it has become the leading household balm.

For burns, cuts, scalds, bruises, eczema, piles, ulcers, ring-worm, itch, scurvy, bad leg, festering sores, chapped places, cold sores, frost-bites and all skin injuries and diseases, Zam-Buk is beyond doubt a most marvelous cure.

Druggists and stores sell at 50 cents a box and the Zam-Buk Co., Toronto, will mail a box, post free, upon receipt of price, to any of our readers who may have difficulty in obtaining a supply of the genuine Zam-Buk from their local stores.

DIVERSE OPINIONS ON THE NAVAL POLICY

Continued From Page 1.

question should be submitted to them by a referendum. Reflection and discussion are necessary to a true vision, and this subject has been given no discussion and but little reflection. In so far as Mr. Maclean's argument is concerned, the time has come when we must have in me a strong supporter."

George Robertson, ex-M.P., and president of the Imperial Dry Dock Company, said: "Canada has certainly come to the parting of the ways, and she must enter with a whole heart into this important matter. The time has come when we must have in me a strong supporter."

Mr. J. Kelly: "Mr. Maclean is reported as saying that the people of Canada should support a Canadian navy and a cash contribution to the British navy. I agree with him only in what he says about the cash contribution. Great Britain knows more about navies than we do; she can build cheaper, and when it comes down to the fine point, she should not leave Canada at sea in this way than Canada has herself. By all means let there be a cash contribution, adequate and just, but let us not bother with a navy of our own."

Favors the Navy.

NIAGARA FALLS, Ont., Nov. 16.—(Special.)—Discussing the addresses on Canada's imperial duties, the chairman of the public school board, George Phipps, said to-day: "There must be no parting of the ways. I consider Mr. Maclean voiced the aspirations of every true Canadian. Let us construct a foundation of a healthy Canadian navy, control it outside the reach of politicians, a nucleus that our boys of Canadian schools can look forward to with pride, and which will be a Canadian spirit more deeply in their breasts, and it will be an incentive to prevent them going to foreign lands to win glory. An up-to-date navy, no matter if only a nucleus, would make our Dominion a power to be figured on among the nations of the world. We have ships of commerce, the greatest waterways and transcontinental railways of the world, let us have battle ships to defend them in time of need, and let Canada arise out of her swaddling clothes and become an integral part of the British empire, with a Canadian navy, constructed in Canada and manned with Canadian seamen."

Mr. Norman Walker said: "Mr. Maclean's speech is thoroughly Canadian, and shows his gathering power as an interpreter of public opinion. Canada must build and control ships immediately and substantially. We have the metals, the timbers, the commerce to win glory, we must get the experience and skill, not only to build boats for the navy, but also for the merchant marine."

William L. Doran, member of the Queen Victoria Niagara-Falls Park Commission, and president of four of the largest manufacturing companies here, said: "We should begin to build a navy, commensurate with our capital requirements and duty, under the control at all times of our government at Ottawa, and, when required, for the defence of the empire."

Young Canada's Sentiments.

W. S. Byers, president of the Young Conservatives, Niagara Falls: "I con-

sidered Canada should at once build a navy, in so far as her financial condition will allow, the same to be under the control of the federal government and to aid in imperial defence, as well as for the protection of our country."

Mr. Maclean voiced the sentiment of an immediate cash contribution, in addition to the building of Canadian war vessels, the remark: "Well, don't see anything wrong with that anyway."

Favors Money Contribution.

Police Magistrate Rupert E. Kingsford: "There should be an immediate and substantial money contribution to the building of a Canadian navy, but it should not be put off so long. The time for action is now. The people of the country are ready and anxious to do their part. It only requires a few such speeches to bring them to their feet to demand action."

Mr. Maclean Right.

T. C. Robinson, K.C.: "W. F. Maclean is right. Canada has no right to accept protection without joining in support of the empire. A gift here and now is the best earnest of good faith that can be shown."

Reasonable Attitude.

Controller Harrison: "I think Mr. Maclean's attitude very reasonable and his statements should receive consideration. To my mind, however, we should be guided by the British admiralty. It does not understand that they are urging immediate action and think that it would be all right to go ahead with the navy. If the admiralty indicates that there was any urgency, I would support a direct contribution."

At Least One Dreadnought. Controller Hocking: "I think Mr. Maclean's proposal is absolutely in line with the English-speaking sentiment of this country. The proportion of English-speaking people who would object to a direct contribution is comparatively small. The vast majority would like to see a contribution sufficient to build at least one Dreadnought and then to discuss the navy question afterward."

The Right View.

Ald. McMillin: "Mr. Maclean's view is the right one. Let us contribute first and talk of the navy afterwards."

Should Take Her Share.

A. J. H. Eckardt, president of the National Casket Co.: "I believe that Canada should take her share in the defence of the empire, and that at once. A money grant made immediately is just what is needed to cover the case."

The Redick Medical Bill.

MONTREAL, Nov. 16.—(Special.)—The Redick medical bill has been revised and steps will be taken as a result of a conference held here to-day by Mr. Maclean at Ottawa as to Canada's duty to the empire. The only difference of opinion is as to the method. Some favored a direct monetary contribution and others the establishment of a Canadian navy. Others favored both. Here are some opinions:

Maj. W. O. Tidwell, commanding officer of the Fourth Field Battery, "We have got to help, but I do not care to express my views as to the method."

Tasker Steele, "I am in accord with the sentiment that Canada is a part and parcel of the empire, and is bound to stand by the mother country. As to what form our aid should take, I have not made up my mind."

Lieut.-Col. W. H. Bruce, commanding officer of the 1st Highlanders Regiment, "I think Canada should do her part. I am not prepared to give an opinion yet as to whether it should be a direct monetary contribution or whether it should establish a navy to co-operate with the imperial forces."

Favor the Navy.

C. R. McCullough, founder of the Canadian Club: "As far as I am concerned
