

# THE FORMULA OF "FRUIT-A-TIVES"

Is On the Outside of Every Box For All The World To See

Every user of "Fruit-a-tives" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated this clearly—that "Fruit-a-tives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics.

Everyone knows that fruit juice is healthful—but perhaps some do not understand why this is true. Fruit juice consists of about 91 per cent. water, 8 per cent. of sweet principle, and 1 per cent. of a bitter substance. It is the quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juice, thus increasing the medicinal or curative qualities.

The juices are first extracted from fresh, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet tones are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-a-tives".

"Fruit-a-tives" is the only medicine in the world that is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public.

"Fruit-a-tives" is Nature's stimulant for the liver, bowels, kidneys and skin. In cases of obstinate Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails.

"Fruit-a-tives" is sold everywhere at 50c a box, 5 for \$2.50, or trial box, 25c, or will be sent, postpaid, on receipt of price by Fruit-a-tives, Limited, Ottawa.

## Day's Doings. YORK COUNTY West Toronto North Toronto East Toronto

### AGINCOURT HEATHER CLUB HOLD FINE TOURNAMENT

Woodbridge and Stouffville, Too, Make Merry on National Holiday—Suburbs.

AGINCOURT, July 1.—(Special).—Nearly 1000 people attended the annual football tournament and field day of sports on the athletic grounds here this afternoon and saw, the best all round competition in years. All the races, and there were a number of them, brought out good fields, while the football tournament furnished unlimited excitement. The final victory of the Malvern senior and junior teams was a popular one.

The committee having the matter in hand was a good one, and served well to maintain the traditions of the township as the home of good clean sport and fair treatment to all. Few municipalities have done more individually and collectively to foster the many games than Scarborough.

The committees having charge of the games were: Football—W. W. Irvine, Geo. Scott and W. Doherty. Field—Robt. Green, H. Doherty, L. Kennedy, H. Elliott and G. Patterson. Racing—Rev. Mr. Anthony, Dr. D. F. Young, Dr. Coult, R. T. Laing and R. Adams. Shooting—W. H. Patterson and R. M. Patterson.

In the one mile race for a handsome gold medal the first prize was won by Charlie Brent of Scarborough, followed by W. Pritchett second, and C. Pherill third.

200 yard race—C. Russell 1, H. Wood 2, Agincourt 3. 100 yard race—H. Wood of Agincourt took first place after a hard dash with C. Baldwin.

Running hop, step and jump—Russell 1, Sanderson of Markham 2, Highland Creek 3. Running long jump—Russell 1, Pritchett 2.

200 yard race—C. Russell 1, H. Wood 2, Agincourt 3. 100 yard race—H. Wood of Agincourt took first place after a hard dash with C. Baldwin.

Running hop, step and jump—Russell 1, Sanderson of Markham 2, Highland Creek 3. Running long jump—Russell 1, Pritchett 2.

has been unanimously conceded that this, the third annual "Wychwood Fayre," has surpassed in every respect either of the two preceding festivals. To-night's attendance was fully 700 and it is understood that several new features, the Punch and Judy show, five-mile heat and others, will make the afternoon and evening of Saturday of greater interest than the events of today. The five-mile course will extend west along St. Clair to Dufferin, thence north to Eglinton, east to Bathurst and south to St. Clair.

The many interesting features of this afternoon were well attended, especially the boys and girls' races, shot-put and other sporting events, and over forty prizes were won.

That the fête proved such a successful occasion was due to the untiring labors of the refreshment, program and sports committees, and, too, the decorations of the various booths were delightfully artistic.

Among the many who so generously and ably assisted the rector and his wife were Mr. Jones, Mr. and Mrs. Shorey, Mr. and Mrs. Robertson, Mr. and Mrs. Strongthorn, Mr. and Mrs. Legg, Miss Miriam House, Miss Mary Legg, Mr. Bancroft, Mr. Hewitt, Mr. Crow, Mr. Wright, Stanley Peirce, Mrs. Chinn and Mr. Drinkwater.

To-morrow at 3 p.m. the corner-stone of the new Wychwood Presbyterian Church will be laid by Sir William Price, M.P., and the church will be opened in membership from 12 in 1904 to 531 to-day. The new building will accommodate 800, will be of dark red brick, trimmed with white stone, and will be formed as an addition to the ancient Tudor-Gothic architectural type.

EAST YORK PLOWMEN. A meeting of the executive of the East York Plowing Association will be held in the Temperance Hall, Agincourt, on Saturday, July 9, at 8 p.m.

WEST TORONTO. A Number of Sudden Deaths in the Western End of City.

WEST TORONTO, July 1.—(Special).—Mrs. Mary Taylor Gordon, wife of Edmund Booth Gordon of Cockburn-avenue, died yesterday in the Western Hospital, aged 32 years. Deceased leaves a family of three, the eldest only 4 years of age. The family have been at only a short time, coming from Scotland, where she was married.

George H. Hollingsworth, employed in the Gurney foundry and living at 389 Campbell-avenue, was badly injured by a travelling crane while working in the shops of the foundry yesterday. He was taken to his home, but his condition to-night is reported as critical.

The little son of Dr. Melhuish of 102 Annette-street, aged eight months, died yesterday from cholera infantum. The funeral takes place at 2:30 p.m. to Prospect Cemetery.

Today was one of the most oppressive of the season. The heat was excessive and the humidity was oppressive. The sun was shining brightly and the air was heavy and sticky.

WHISKEY TAX RETAINED REDMOND DISAPPOINTED

But Nationalists Will Hardly Make Any Fight Against New Budget Under Circumstances.

LONDON, July 1.—Chancellor Lloyd-George, in submitting the budget to parliament, said that he felt justified in estimating the stated revenues on the assumption that the volume of trade this year and next would be greater than the country had ever experienced before. He proposed to retain the duty on spirits unchanged, and while admitting that there had been a loss of £1,000,000 in these duties, said that the consumption of spirits had been decreased by 10,000,000 gallons from the figures of the preceding year, and that the moral gain to the state far outweighed the loss in revenue.

Mr. Asquith, the premier, refused to make a statement in the house of commons regarding the prospects of the conference between the government and the opposition over the legislation involving the veto power of the house of lords.

The chancellor of the exchequer, in the current budget, the Unionists will oppose every stage of its progress. The Nationalists are disappointed at the retention of the whiskey tax, but it is not likely that they will seriously obstruct the budget while the government still is in the balance.

The remainder of the parliamentary session will probably be quite uneventful. It will be devoted to routine matters, all the serious and contentious stages of the budget and other important measures being postponed until the autumn session. In the improbable event that the conference of the representatives of the government and the opposition on the veto question will arrive at an agreement, the proposals will be submitted to parliament in November. Should the conference fail to agree, the struggle between the rival houses will be revived in the autumn to an intensified degree.

"I would rather wait a little," said the premier, but the fact that he announced that there would be an autumn session of parliament indicates that he is not especially hopeful over the issue of the negotiations. The government's present intention is that parliament shall adjourn at the end of July to reassemble in November. The plan for an autumn session meets the demands of the Nationalists and the extreme Radicals and Laborites, who have threatened a revolt unless they were content of an early opportunity to resume the fight against the Unionists in the event of a failure of the Unionists to agree to the terms originally laid down by Mr. Asquith.

Summer Amusements At the Alexandra.

Next week the Percy Haswell Players are present at the Royal Alexandra, the successful play by Clyde Fitch, "Her Own Way," which was, a few seasons ago, a startling vehicle for Miss Maxine Elliott. The play deals with New York society. The heroine is Georgiana Carley, who has a brother named Steven, who decides to become a speculator in stocks. Georgiana has a cousin, Sam Coast, who proposes marriage. She, however, is in love with Lieutenant Coleman. Coast determines to have her at any cost. He is also a successful stock operator, and when he learns that the brother is gambling, he decides to ruin him by giving him wrong "tips" on the market, hoping to win the hand of his cousin by coming to her assistance when they are financially ruined. Coleman is ordered to the Philippines, but neglects to tell Georgiana of his love for her. Coast meets him and leads him to believe that his cousin is engaged to him. Coleman is reported having been killed in an engagement, but he subsequently returns and everything is straightened out.

The play abounds in strong dramatic situations and heart interest, and through all is a vein of refined comedy. The introduction of several children will be one of the pleasing features. As the action of the play takes place in the mansions of those in New York society, there is ample scope for the wearing of handsome gowns.

At Hanlan's. Hanlan's Point is now the most delightful and charming spot for a day's outing and recreation. It is always cool there. The water of Lake Ontario is now at a comfortable temperature, and the sand bar is an ideal spot for bathing. The beautiful shelling beach makes it one of the safest places in the city for a picnic. To-day, both afternoon and evening, there will be band concerts by the Queen's Own, and in addition there will be a number of big thrilling circus acts given free. To-morrow (Sunday) afternoon and evening, the band of the Royal Grenadiers will give concerts.

Imports of Salted Fish into Greece. The following information is from the report by H. M. Consul at Patras (Mr. F. B. Wood) on the trade of the Morea in 1909:

Salted cod from Labrador is advancing in favor annually; under normal circumstances consumption increases by from 5 to 10 per cent. per annum. During certain seasons of the year, and on stated days and holidays, it is an indispensable dish in all households. The annual consumption of salted cod amounts to about 70,000 quintals; but the past season has been exceptionally unfavorable owing to the poor quality of fish generally and to the over-abundant supplies, which are estimated at about 10,000 quintals over the usual annual consumption. The reports received during the months of June and July regarding the failure of the Labrador fishery, induced the Greek dealers, who feared that they would be unable to obtain their usual supplies, to enter into large contracts for monthly delivery of French and other codfish. The Labrador fishery was owing to the exceptionally fine weather, protracted beyond the usual season; thus, in addition to the French and other codfish, the usual supplies came from Labrador.

It cannot be sufficiently impressed upon shippers of Labrador and other codfish to the Morea that only the very finest quality should be sent—medium sized, white, well cured and well dried fish. Consumers in Morea will pay for fish of the best quality, but second-rate fish, dark colored and damp, is often unsaleable there. Although the market is overstocked, fine quality cod fetches £16 to £17 per quintal, c.i.f., whereas fish slightly damp and off color fetches only from £6 to £7 c.i.f.—Board of Trade Journal.

Agricultural Machinery into France. The following information is from the report by H. M. Consul at Bordeaux (Mr. R. D. G. MacDonald) on the trade of that district in 1909, which will shortly be issued: The total weight of agricultural machinery imported in 1909 was 8558 tons, an increase as compared with 1908 of 1915 tons. Imports from the United Kingdom amounted to 384 tons, against 1041 tons in 1908. The year was an average one as regards the sale generally of agricultural implements, the increase in imports on the part of the United Kingdom being due to the fact that in 1908 being due to the fact that very large stocks remained over in that year from 1907, and had to be disposed of before fresh purchases could be made. The revision of the French import tariff also contributed to some extent, by inducing importers to increase their stocks from abroad in anticipation of higher duties.—Board of Trade Journal.

Especially for the Ladies. The King Edward are maintaining a special ladies' department. You should call in and see it.
