Canadian Men and Affairs Are Especially Dealt With in the October Issue.

The October number of the "International Digest" will be particularly interesting to Canadians in that it contains a number of well-written and illustrated articles on Canadian men and affairs from the pens of well-informed writers. HAS SPLINTER IN CHEEK

IF FOOD DISAGREES DRINK HOT WATER

When food lies lead in the stomach, and you have that uncomfortable, distended feeling, it is because of insufficient blood supply to the system. Combined with acid food fermentation in such cases try the plan now followed in many hospitals and by eminent physicians, of taking a teaspoonful of pure bicarbonate of soda in half a glass of water, as hot as you can comfortably drink it. The hot water draws the blood to the stomach and the bicarbonate neutralizes the acid and stops the food fermentation. Try this simple plan and you will be astonished at the immediate feeling of relief and comfort that follows the restoration of the normal process of digestion. People who find it inconvenient at times to secure hot water, or who are frequently obliged to take meals, poorly prepared, should always take two or three five-grain tablets of Bicarbonate of Soda after meals to prevent the fermentation and neutralize the acid in their stomach.

DONATIONS POURING INTO HEADQUARTERS

Over Hundred and Forty Thousand Dollars Already Subscribed for Red Cross.

CITIZENS ARE GENEROUS

Confidently Expected Three-Quarters of a Million Will Be Contributed to Fund.

Toronto citizens are not satisfied to give only a quarter of a million dollars for the benefit of the British Red Cross. This fact was apparent at noon yesterday when the official team collection amounted to \$148,844.66, or \$18,000 more than was subscribed during the same period last year. Johnston had referred to the inception of the religion and its rapid progress in the sixteenth century, he made a plea for the church in Canada, and he said that the church in this country is not only a religious body, but a social one. He declared that the doctrines had always upheld honesty and veracity, and that the church in this country is not only a religious body, but a social one.

ROUMANIANS KEEP REPULSING ENEMY

(Continued From Page 1).

tion would find no communications of importance for many miles, and it was the public eye to provoke powerful Russian tank attacks.

ROUMANIANS KEEP REPULSING ENEMY

On the rest of the northern and northeastern fronts the Romainians are holding firm. They have repulsed attacks of the enemy west of Tulghe, but the fighting there is continuing. They have also thrown back the onsets of the enemy in the Buzov valley and they are fighting a heavy engagement at Agas in the Trutius valley. Their greatest success on this front has been in the Uzul valley, where they have driven the Germans beyond the frontier. A massed battalion of the enemy was caught by Romainian artillery and wiped out. Lively fighting is also proceeding in the Clituz valley, and frontier positions changed hands several times in the struggle.

CLAIMS CHURCHES CLOSED TO THEM

Presbyterians, Opposed to Union, Express Their Views Plainly.

CONDITIONS AFTER WAR

People Now Looking for Substantial Instead of Watery Teachings.

The gravity of the crisis precipitated among Presbyterians thru the recent action of the general assembly was amply manifested by the sentiments and opinions expressed by speakers at the convocation commenced in St. Andrew's Church, West King street, yesterday for these subjects in sympathy with the movement against organic union with Methodists and Congregationalists.

Following his appointment as chairman of the convocation Rev. Dr. Andrew Robertson of St. James' Square Presbyterian Church made a plea for organic union. He wished that everything undertaken and accomplished while the session lasted should be fair and square and above board. He contrasted this with the evening meeting. He wished that every member of the congregation which voted from 40 to 45 members who voted against church union. The writer of the letter asserted that out of this number he had only been successful in locating five, the names of the others having been kept secret by the church. He said: "We cannot get in touch with our friends because of this."

PROTESTING PRESBYTERIANS

By DR. QUILL

This is no new business for that "parliamentary" session there is stirring in the deeper souls of men. But this must not be taken to prove too much. It is, on the contrary, a conviction of protesting Presbyterians was held to deal with the delays of majority rule in the church, what temple could hold the crowd? It is better therefore not to fan the flames of rivalry. Rather let there be a new movement to reconcile. Would that a new prophet might arise who is also a statesman! A leader who is strong for the truth and also strong enough to have patience.

It is D. D. McLeod who is in the John Knox pulpit. He was D.D. before he was made D.D. again. Dugan Darrach was named he did not earn, but it is easily upon him as the doctor of divinity he was worthily merited. No man has ever taken a full estimate of his worth, for he is easily one of the greatest men of Canada. He is a "man of the cloth" that a ministerial student might envy. His big, burly stature is just like his mind and heart. Few men can take a better grasp of a big subject than he, or be so big hearted. His father long ago was a minister at Cobourg, and was popular with the Methodist students of the anti-unionists, numbers his friends in the ministry of the Methodist Church by scores. In his own town of Barrie, the Methodists gave him a most complimentary address on the eve of his retirement. He has on friendly terms with at least one bishop in the Church of Rome, and several Roman Catholic clergymen. That is the unity he believes in and appeals for. He seems to be a better Christian as a Presbyterian than any other way. Therefore leave me and those like-minded to go as we are.

He did not preach on either the total depravity of the race or the foreordained election of the saints. He just went after those who must have new creeds, and new organic unions with the twofold sword of his irony and logic. He made the sober fathers applaud in kirk, and set all the young Davids after their slings. To those who agreed with him nothing was said. But there is another side, where questions should be at every inch. Thus all arguments gain about as much as Sisyphus rolling the stone which ever slipped from his grasp.

Dr. R. Campbell, Montreal, had also a prominent place, equal to the position he has taken since the movement began. No man in the church has surpassed him in the brilliant service of voice and pen. He is ever the gallant knight with the shining armor. Today there is as yet no opposition, and therefore Macdonald was not himself. It was only when he set up an imaginary union and knocked him out like a man of straw that he sparkled with fiery eloquence. To appreciate him fully one must be a Presbyterian. He has the doctrines and laws of the church, and if the Presbyterian Church be continued, there is a good cause, that ministers and elders will be required to shake the dust of their feet from the church as they enter the building in which they are to be seated.

Dr. Robertson, St. James, Square, was appointed chairman of the convocation. His opening address was very brief, but neat and judicious. We shall have much to say of him later, as this column has already been filled.
