## WALL STREET EXPLOSION DUE TO A BOMB "Hands Off Beck," Is Warning Given by Hydro Radial Convention BETTER PROPOSALS BY BRITISH MINERS BY EXPLOSION OF A BOMB NEW YORK FINANCIAL CENTRE

### Advance Made Towards Peaceful Settlement of Dispute—Suggest Tribunals to Investigate Possible Reduction in the Price of Coal and the Present Wage System.

London, Sept. 16.—The conference of the coal miners' executive with Sir Robert Horne, secretary of the board of trade, adjourned late this afternoon without an agreement, having been reached in settlement of the controversy between the miners and the government. Sir Robert Horne declared, however, that new proposals made by the miners constituted an advance towards a peaceful solution of the trouble.

The miners proposed that the government forthwith grant the increase in wages demanded by them, but declared that an increase should not be put on the price of coal for consumption in households. They also asked that tribunals be appointed to inquire whether the financial situation of the coal industry would stand a reduction in the price of coal, an inquiry into the declining output of coal, and an investigation of the present wage system with a view to granting up-to-date standard wages.

Mr. Horne replied that the only method of deciding the selling price of coal was that already adopted, and on this point he declined to accede to the miners' proposals. He also said he could not recommend that the miners should have two shillings advance under the present circumstances, but added that if an increased output were assured, an advance in wages could be given.

Robert Smillie, the miners' leader, had previously said that unless an advance were granted, the executive would not advise the delegates at Tuesday's conference to postpone or call off the strike.

### LOWER PRICE FOR WHEAT ON LINE OF GREAT RAILWAYS

Winnipeg, Sept. 16.—(Special.)—What appears to be a determined effort either to depress wheat prices or discredit the National Railways has been made public in Alberta. Grain interests there are discriminating in price for wheat marketed on C.P.R. and National Railways. They have issued quotations which place the price on National Railways eighteen cents a bushel less than on the C.P.R. This was brought to the attention of the Winnipeg grain exchange, and the following statement was issued and sent to the Calgary grain exchange:

"At a meeting of the council of the Winnipeg grain exchange, held today, September 15, the question of the prices of grain bought at country points in Alberta, as issued from Calgary, was considered. The prices named for grain along the National Railways are much lower than the prices named for grain along the Canadian Pacific Railway."

Windsor, Ont., Sept. 16.—(Canadian Press.)—A decision to request an investigation of all federal penitentiaries and instruct provincial executives to request an investigation of the conduct of all prisons, jails and asylums, including the disposal of the product of prison labor, and that at least one representative of organized labor be included on the board making investigation, was arrived at by the delegates to the Trades and Labor Congress today. It was decided to give any representatives of the congress who might be appointed to such a commission authority to use his own judgment as to what class of labor should be engaged in by prisoners, even to the point of conflict with the program of the congress regarding the competition of the product of prison labor with free labor.
