The Port Arthur, Duluth & Western Railway

PORT ARTHUR

D. F. BURK,

Vice-President.

ROSS THOMPSON,

Manager.

This railway was built to open up the iron and silver mines of this part of Western Ontario. It has a branch of six miles into the Mesaba Iron Range of Minnesota. Considerable quantities of Canadian and American pine are tributary to it. It runs close to the famous Kakabeka Falls. There are excellent shooting and fishing along its line.
