THE MISSION OF BAHAIISM

New Eastern Movement Would Resuscitate All That is Best in All Religions.

(Written for the Quebec Chronicle by J. M. Harper, M. A., Ph. D., F. E. I. S., Author of "Sacrament Sunday, Moral Training and the Pedagogy of the Master," etc.)

Amid the inebriate noise of modernism, which so many men say, they have time to regret, there are every now and again the subdued millennial notes that make one's soul and heart glad and peace. And the mission, which has been inaugurated by Abdul Baha Abbas, to make an synthesis of these notes that may be used by the votaries of every religion in the world, is one which need arouse no antagonism from those who have selected, or have had selected for them, the religious organization under whose auspices they worship God.

Love and its many phases is the fundamental element in Christianity, and had it not been for the professionalism that has made more of this motto than the end in its ecclesiastical exploitations, there would have been no need perhaps for this new message from the East to the West.

There has been an uprising, possibly Bahaiism, just as there was an uprising against the Christ and His mission of sweetness and light and peace on earth. But that need not deter any one from giving the old doctrine of love to God and man, as reestablished in Bahaiism, its chance of securing a firmer hold on the human race, as a means of arriving at the highest civilization. There is nothing new in the message of Bahaiism. It has for its evangel a re-orientation of all that is best in any religion, with no grievance of its own against the waywardness of mankind in making for themselves a man-made gospel to help them in contending with ignorance and self-interest. Bahaiism is no new religion, nor profess to be such. It is a mere subjective pleading for a renaissance of the higher ethics that can do no harm to any present-day religious organization.

Man is as he was created. Christ came to re-orient the terms of that creation. And Bahaiism is a mere pleading to have Christ's teachings listened to, as a means of making the world better. And neither few nor Gentile, Catholic or non-Catholic, Mohammedan or Buddhist, free-thinker or narrow-thinker, optimist or pessimist, with all their doctrinal differences, need have any fear of this mission from the East being in any way inimical to their beliefs or non-beliefs.

There is no nook or corner in the world today from which there come not an appeal to have the world made better than it is. Nor is there a religious organization, free to doff its denominational variegates, that would not willingly join in such an appeal. The learned as well as the obscure divinity is forever dreaming dreams of a new "religion" that may make for man a universal and inclusive religious belief. Such a religion has ever been promised to us by more than one of our speculative philanthropists. Man is man, built of a piece in his instincts, they say, and he needs but one and the same religion as a guide in the making of the most of his life.

LACK OF EXERCISE

Brings on Troubles which are Best Corrected by Dr. Morse's Indian Root Pills

Man was intended to live an active, outdoor life, and his digestive system was modeled accordingly.

Indoor work, which hands or head, long hours sitting or standing still, especially in air that is none too good, slow down the healthy activities of stomach, liver, kidneys and the millions of tiny skin glands.

Constipation, headaches, indigestion, biliousness, rheumatism and similar troubles follow.

Then the worth of that good old reliable family medicine, Dr. Morse's Indian Root Pills, is appreciated.

Though it has been in use for over half a century, modern science has not been able to devise a safer or better cleanser for the whole system.

Dr. Morse's Indian Root Pills are largely vegetable in composition, free from any harmful drug, and mild yet most effective in their action. They are "Mother's standby" in hundreds of homes because they nip in the bud so many of the common ailments.

Made since 1873 by W. H. Comstock Co., Limited, Brockville, Ont., and sold everywhere at 25c. a box.

"SALADIN" TEA reaches you just as it left the Gardens of Ceylon, with its fragrance and flavor unimpaired.

In Sealed Lead Packets Only. Black, Green and Mixed.

HIGHWAYS BILL AMENDED BY THE SENATE

Must Spend Money According to Population—Will Lessen Government's Temptations—A Railway Bill

Ottawa, May 22.—The highways bill was amended by the senate today and stands for a third reading tomorrow morning. After the bill was amended tonight Hon. Mr. Loughheed, government leader, asserted he had no motion to make for a third reading. Sir George Ross, opposition leader, thereupon moved the third reading.

Hon. Mr. Loughheed raised the point of order that the government bill could not be taken charge of by anyone who did not represent the government.

Speaker Landry asked a series of questions concerning the bill and the matter was deferred until tomorrow morning.

Senator Mackenzie asked a series of questions concerning the bill and the matter was deferred until tomorrow morning.

NOVEL SCHEME TO EQUALIZE SEXES IN GREAT BRITAIN

M. P. Proposes to Tax Male Emigrants and Use Fund to Ship Women to the Colonies

(Times' Special Correspondence)

London, May 14.—Mr. Page Croft, M. P., who put a novel question on emigration in the house the other night, is not the first who is convinced that the settlement of the suffragist question in England will be greatly aided by reducing the number of women here, and thereby bringing about an equality in the number of the sexes.

His proposal is to place a £25 tax on Britishers who emigrate outside of the Empire, and apply this money to the payment of the passages of our surplus women to the dominions of the British crown.

The object of the scheme is to reduce the number of women here, and thereby bringing about an equality in the number of the sexes.

The object of the scheme is to reduce the number of women here, and thereby bringing about an equality in the number of the sexes.

GRAND FALLS PROJECT STILL IN THE HANDS OF THE ENGINEERS

Sir William Van Horne at St. Andrews Talks of His Various Enterprises

(St. Andrews Beacon)

Sir William Van Horne dropped in on St. Andrews on Friday last to look over his interests here. He spent the afternoon on Minister's island, inspecting the work that is going on there, and suggested further additions. Then, on Saturday morning he took a look over the Chamcook sardine enterprise, spending the entire morning there.

A Beacon representative called upon him at his car in the afternoon, and found him in a most pleasant conversational mood. During the talk he incidentally dropped the remark that he had just completed his fifty fifth year as a railroad man. "If I could go all over the ground that I covered in those years again," remarked Sir William, "and could recall all the happenings, it would make Rockefeller look like a child."

The reporter suggested that he ought to write a book on his railroad experiences, but he dismissed the suggestion with the remark: "What would be the good of that?"

Sir William said that his family would be here next month, but he would have to go to Cuba first, and, perhaps, England. He says he is still in love with Cuba, its beautiful climate, and its general conditions. He finds it hard to tear himself away. He is always extending his enterprises there, making railway extensions, building sugar mills and the like.

His Grand Falls enterprises were still in the hands of engineers. "There is a good deal of money at stake there," remarked Sir William, "and we have to move along cautiously."

Sir William said he was glad to know that St. Andrews was prospering. He departed for Montreal on Saturday evening.

LOWER INSURANCE RATES TO MONTREAL

THIRTY MILLIONS FOR TORONTO STREET RAILWAY

"DEBORAH" UNDER BAN

COST THEM THEIR JOBS

PUGSLEY AND BORDEN

Hid Rheumatism WAS CONFINED TO HIS BED FOR FOUR MONTHS.

MORNING LOCALS

SCHOOL FOR ITALIANS

SAULE ST. MARIE, ONT., MAY 23.—The city council voted \$30,000 for a new school building in the Italian quarter.

This follows the request by many parents that the school be moved to the ground that they did not want their children to learn religion in school, over 200 Italian parents signed the petition.

Mr. W. B. Riley, Eudell, Sask., writes: "It is with the greatest pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Kidney Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who saw me then would not know me now, as I am strong and active since taking your valuable medicine."

Rheumatism is caused by the presence in the blood of uric acid, and the kidneys not working properly is the sole cause of this, and unless you remove the acid by flushing the kidneys, there is no possible chance of getting rid of rheumatism.

Doan's Kidney Pills help the kidneys to flush out the acid and poisonous impurities which have collected, and thus clean out the kidneys, and dispel the rheumatism from the system.

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In ordering direct, specify "Doan's."

THIRTY MILLIONS FOR TORONTO STREET RAILWAY

Toronto, May 22.—In less than two hours this afternoon Sir William Mackenzie and Mayor Hocken cleared the ground for a deal that will include the purchase by the city of the franchise and all the assets of the Toronto Railway Company, every inch of street railway line in greater Toronto, and the franchise and other assets of the Toronto Electric Light Company.

The cost to the city, it is believed, will be within \$30,000,000. Experts retained by the city will commence this work to determine the value of the properties and report to the city regarding the condition of the same.

Officers and executive of the ladies' association will take charge of the reception which will be held in the Natural History room in the evening. The members of the council of the society and the president of the ladies' association will form the reception committee.

The transportation committee was appointed to look after the movements of the visitors. R. B. Emerson and William McIntosh were chosen as soon as the number of members will be increased on the committee.

The train bearing the scientists will arrive here on the evening of July 29. The members of the society will meet them at the station and will make an excursion to Rockwood Park where they will examine the rocks and the fossil beds there. On the afternoon the entire party will be taken around the city, and shown the various points of interest. They will visit the Falls, and crossing the suspension bridge will visit Seaside Park where the remarkable fossil beds will be inspected. In the evening a reception will be given and the members of the Natural History Society will have the opportunity of meeting the distinguished visitors.

Special exhibits are being arranged at the museum of the society for the benefit of the scientists.

THE LATE MRS. WEST

The Halifax Recorder says:—A despatch was received here Tuesday announcing the death at Robbsey, N. B. of Mary Gordon, wife of Frank S. West, formerly of this city. The deceased was a daughter of the late Rev. John Abbott, of St. Luke's Cathedral, this city. Besides her husband she leaves one son and four sons. The deceased had many friends in Halifax, who will sympathize with the family in their bereavement.

Higher Than Eiffel Tower

Should Buenos Ayres carry out a project now under contemplation the city will erect the highest tower in the world, overtopping that of Eiffel by 189 feet. It is planned to put the steel structure up to a height of 1,173 feet, and a statue at the top will be surmounted with an electric light of one million candle power. The tower, as plans have been drawn, will have facilities for social gatherings, cafes, restaurants, library, billiard rooms, gymnasium, as well as a wireless telegraphic station and a meteorological observatory.

Three dozen eggs were laid by a crate of chickens in Transit for two days to James Conned, in Flushing, N. Y.

WOMAN SUFFRAGE

One interesting feature of the suffrage parade was "typical schoolgirl" lent by Buffalo Bill.

The first ladies came out to vote. The remainder of manner tempers the men in these to some extent. A few little ribbons were all that was necessary to fix the women's vote. But they found out that some of the women were just as level-headed and true to their principles as any man. My mother was one of them. That's why she's always been in woman suffrage."

THAT \$150,000 FOR ACADIA (Acadia Bulletin)

In June 1910 J. D. Rockefeller of New York made an offer to Acadia which was as follows: If Acadia would secure pledges for \$150,000 before June 1, 1911, Mr. Rockefeller would give \$50,000 proportionate instalments as this money was paid in by the others, the whole amount, however, to be paid by June 1, 1912. The generous friends of Acadia responded nobly and the pledges were secured. Mr. Rockefeller has sent his proportion as the amounts were announced. He has also sent his money only the month of May left to secure the balance and this can only be accomplished by all those who have pledged, sending their amounts in at once.

Austere From Siberian Hills

Philadelphia, May 22.—The hair of infected Siberian cattle used in a
