

FEWER HORSES IS NOT INS. P. C. ANNUAL REPORT

President D. C. Clinch Makes
Comment in Relation
to Work

OFFICERS SAY MORE
FUNDS ARE NEEDED

Animal Rescue and Other
Features of Year—Police
Court Cases.

The comparatively small number of horses now in use in this vicinity is referred to in the annual report of D. Carleton Clinch, president of the Society for Prevention of Cruelty, submitted at the 44th annual meeting held this afternoon. "The majority of work horses in the city today," he continues, "are in good condition, are of superior quality and in most cases are kindly treated."

Mr. Clinch endorses the references made by the secretary, S. Merritt Wetmore, to the need of funds in order to extend the work through the country districts, almost all the income, he adds, being interest on donations from private individuals, given many years ago. He hoped that the public would be more generous to this work in the year future. The president, in closing, expresses thanks to Chief of Police Smith, Sergeants Rankine and Dykeman and others, also Dr. Donovan, for valuable assistance during the last year.

Secretary's Report.

S. M. Wetmore, secretary, sent his regret at not being able to attend the meeting, as he has been ill at home for several weeks.

One of the outstanding features of the year's work, he reported, was the organizing of two new branches, one at Dalhousie and the other at New Denmark, Salmonhurst, Victoria county, N. B. Hon. C. H. A. Lablanc is president of the former branch, and Carl H. Jensen of the latter.

He received inquiries from A. C. Jensen of Bluebell, Police Officer, Victoria county, asking what steps could be taken to have a branch organized there, and sent all information necessary, but had heard nothing regarding it since.

He also had inquiries from Rev. F. E. Boothroyd of Campbellton, N. B., W. C. Rayworth of Sackville, and Mrs. J. W. Cassidy of Burnt Church, Northumberland county, N. B., but was sorry that no further steps had been taken by these people to organize.

Animal Rescue League.

"The Animal Rescue League is a great joy to the public in general," he reports, "in the wonderful work it is doing. As I stated last year, to carry on their work successfully, the league needs a conveyance of some sort, in which sick or maimed domestic animals may be brought to the home for humane treatment. It is almost a daily occurrence at my office to have inquiries as to the disposal of some animal in distress. So I urge the public to assist the league in every way possible."

"Our society is much in need of financial assistance, and we are in hopes that in the near future, conditions will improve to such an extent that the dumb animals will benefit to a great degree."

"I think it would be well if our executive would take up the matter of 'Be Kind to Animal Work,' and make it a great success as carried out in other places."

The secretary expressed thanks to all who had helped in his work, and mentioned J. King Kelley, Dr. Donovan, the Chief of Police and his officers. "I feel that I must speak in particular of Sergeant Rankine, who has come to my aid so often and so willingly. My thanks are also due to our president, D. C. Clinch, whose valuable knowledge of dumb animals has been of such assistance to me; also to the county constables for their kind help."

A tabulated statement shows that 103 horses were removed from work for various reasons and 119 owners of horses were cautioned for different causes. Cases relative to cattle and other stock numbered 20; dogs ill-treated, 16; dogs and cats destroyed, 13; cats ill-treated, nine; fowls and birds, eight; children ill-treated, 12; children neglected, 12; women ill-treated, four; women neglected, five. In all the cases numbered 226. Eleven were taken to court and fines totalling \$110 were struck.

Animal Rescue.

Miss Lilian Hazen, reporting for the Animal Rescue League, said:

"Just now the society is active with much activity. We have many new members, many hopes and ambitions, many plans in embryo, and we feel assured that under the business-like leadership of our president, Mrs. Peck, we shall make progress. Although much has been accomplished in the past to establish and improve our premises and make them more comfortable, much yet remains to be done and we shall be glad to have the place it ought to be. But we can do it, and we shall do it, little by little. The hardest part is over."

"At present our efforts are mainly directed towards arranging plans for a charming lecture was lately given for us, and a party sale held, both with gratifying results; other efforts will very shortly follow. I beg to express the sincere sympathy of our members with Mr. Wetmore in his illness. We have been so long associated with him

in humane work, and hope soon to hear good reports."

Fredericton.

Moncton.

Geo. B. Willett reported for the Moncton branch. A great decline in the number of horses used for work had reduced the efforts of the branch. He asked about the will of the late Governor McLean and states that it

was understood he had left a legacy to the society. Cases dealt with in Moncton numbered 49.

Other Places.

C. H. LaBrosse, for Dalhousie, reported that the secretary, Miss Margaret Duncan, had removed to New York for the winter and a successor had not yet been appointed. Meanwhile the principles of the society were being advocated and organization of the branch would be completed soon.

George M. Ferguson sent a report for Bathurst and F. M. Thompson for Hillsboro and Nita Fairbanks told of the work in Harcourt. She said that during the fall a carload of cattle was shipped from here, and that they were without food or water for a longer period than is allowed by the S. P. C.

People who use "Red Rose" are usually those who like tea of extra good quality

law. She telephoned Moncton and had them taken out there and fed and watered, the same charged up to the owner of the cattle.

DIVORCE AFTER 60 YEARS.

MANSFIELD, Eng., March 17.—A couple more than 60 years old and married for 60 years have, applied for a divorce here. The mayor tried unsuccessfully to get them to celebrate their diamond wedding anniversary, instead of seeking separation, but the aged man said a reconciliation was impossible "as long as the ash and oak stand."

Warren Rejected For Second Time

WASHINGTON, March 16.—The Senate today rejected for a second time, the nomination of Charles B. Warren, to be Attorney-General.

The vote was 46 to 39, and compared with the vote, 40 to 40, on which the nomination was first rejected last Tuesday. President Coolidge has announced he will offer Mr. Warren a recess appointment, but the nominee had not indicated whether he will accept.

HOUSE IS ASKED TO REMOVE ALL DISCRIMINATION

(Continued from page 9.)

In ocean rates and it is as much in their interests as the exporters and importers that such action should be taken."

A strongly worded memorandum from the Dominion Millers' Association was also submitted to the committee.

"Our grievance," it says, "was this, namely, that the Canadian millers were placed at a disadvantage with the American millers to the extent of at least three cents per 100 pounds on all flour shipments exported out of this country to the United Kingdom ports, that is, to the tune of six cents per barrel or five cents a sack of 280 pounds. The rate to British or Irish ports on all flour made in Canada was 22 cents per 100 pounds, irrespective of whether our products were shipped via American or Canadian ports, whereas the rate to

"Kellogg's ALL-BRAN has entirely relieved me of constipation," writes grateful father

The ravages of constipation can be promptly stopped. Here is signed evidence.

Mr. Hunt's case is typical of thousands of others who have found habit-forming pills and drugs of no avail in seeking permanent relief from constipation. Read this interesting letter:

Kellogg's ALL-BRAN has entirely relieved me of constipation. Before I started using ALL-BRAN I was a regular star in taking pills—always getting something to bring relief. Now I never touch them. I fully recommend it to anyone to relieve constipation as you advertise on the package. My daughter also eats ALL-BRAN and I can see her health improve. (Signed) E. V. Hunt. (Address on request).

British and Irish ports on American flour was 19 cents per 100 pounds."

B. Y. P. U. PROGRAMME.

The Young People of the Tabernacle Baptist church held their regular meeting last night under the leadership of Miss Lillian Young's group. There was a good attendance and a programme

was carried out, the subject of the evening being the B. Y. P. U. programme. Rev. R. O. Morse, editor of the Maritime Inquirer, was present and gave a short talk in the interest of the paper, explaining its history and denominational value and the place it should occupy in Baptist homes.

Where Quality is Essential!

ONE of the most important things in a pumping station is the valve. By valves the water we drink is directed into the pipes at the will of the engineer. Dependable, trouble-proof valves are vital to good water service.

Jenkins Valves—recognized as the standard of quality the world over by the name "JENKINS" within the Diamond Trade Mark—give complete control of whatever passes through them, whether it be water, steam, gas or chemicals.

They are made in types and sizes for practically all purposes. And every Jenkins Valve has the extra weight and uniform strength that guarantee satisfactory service year after year.

Made by skilled hands to serve faithfully in pumping station, boiler room, cold storage plant, mine, factory, office building or private home. Gladly specified by architects and engineers. Obtainable everywhere.

JENKINS BROS. LIMITED
103 St. Remi St., Montreal, Can.

We welcome inquiries from home owners, builders, manufacturers and all others interested. Catalogue No. 3D describing complete line will be sent free on request.

Gloriously Clear Teeth

Why you may already have them—and yet not realize it

Make this unique test. Find out what beauty is beneath the dingy film that clouds your teeth

DO you seriously want dazzlingly clear teeth?—teeth that add immeasurably to your personality and attractiveness?

You can have them, if you wish. That's been proved times without number. But not by continuing with old methods of cleansing and of brushing.

Modern science has discovered a new way. A radically different principle from old ways; and based on latest scientific findings. This offers you a test, free. Simply mail the coupon.

How to gain them—quickly

There's a film on your teeth. Run your tongue across your teeth and you can feel it. Beneath it are the pretty teeth you envy in others. Ordinary methods won't successfully remove it.

That is why this test is offered. For when you remove that film, you'll be surprised at what you find. You may actually have beautiful teeth already—and yet not realize it. Find out!

What that film is

Most tooth troubles now are traced to film. It clings to teeth, gets

into crevices and stays. Germs by the millions breed in it. And they, with tartar are the chief cause of pyorrhea and decay.

That film, too, absorbs stains . . . stains from food, from smoking, from various causes. And that is why your teeth look "off color."

New methods now remove it

Old-time dentifrices could not successfully fight that film. So most people had dingy teeth. And tooth troubles increased alarmingly.

Now new methods have been found. And embodied in a new type tooth paste called Pepsodent.

It acts to curdle the film, then harden to remove it. No soap, no chalk, no harsh grit dangerous to enamel.

It proves the folly of ugly teeth. It gives better protection against pyorrhea, of tooth troubles both in adults and in children.

Ten days' use will prove its benefits. And that 10 days is offered to you as a test. Why not make it then—have prettier teeth, whiter, teeth? Send the coupon now.
