This remedy is just what it purports to be, — a "remode for Dymopsia." Though containing no alcohol, yet it are retain its virtues in any climate. It is highly concentrate. — a teapoonful in half a tumbler of water constitutes of dose. Among all the remadics ever discovered for thromprevailing and obvinate complaints, there is none which ever verought sick great and permanent cures, or which can produce so many and unacceptionable aerisicalize from the recipients of its benefits. A single doge after mistigates the disease, and a permanent cure speedily follows.
