

A M. Briesson has discovered that the vapour-bath is a certain cure for hydrophobia disease. M. Briesson has cured himself, and succeeded in the cases of 80 others; having failed in one instance only, where the patient died in the bath.

A Swede has just published a treatise which he has printed on paper manufactured from beet-root.

The London soap manufacturers have resolved that a reduction of £2 per ton should take place in the price of that article.

RECIPE TO KEEP APPLES.—It seems not to be generally known, that apples may be kept the whole year round, by being immersed in corn, which receives no injury from their contact. If the American apples were packed among grain, they would arrive here in much finer condition. In Portugal it is customary to have a small ledge in every apartment (immediately under the cornice) barely wide enough to hold an apple; in this way the ceilings are fringed with fruit which are not easily got at without a ladder, and one glance of the eye serves to show if any depredations have been committed.
