elegates Urge Their Views on the Members of the Executive -Need for a Ry.

The delegation sent down by the citiens of Kaslo to interview the govern ent respecting railway matters had a inference this morning with the memers of the executive. The delegation as composed of Mayor George T. Kane, O. Buchanan, A. Carney, Hamilton yers, D. P. Kane, John Keene, W. O. lymo and William Baillie. The govnment was represented by Premier Da e, Hon. Mr. Vernon and Hon. Colonel

G. O. Buchanan was the spokesman or the delegates. He produced a large ap showing the various mining locations the enterprises that had been estab shed with a view of making a large ty, at Kaslo. It was pointed out that e resident population of Kaslo was allway company on whom the people ad depended to assist them in developg their mines had been unable to finance eir scheme on account of the govern ent aid given to the Nakusp & Slocan ilway. Financiers would not help a ilway coming in opposition with a road hich had been furthered and would obably be maintained by the governent. The delegation asked as a matof justice that the people of Kaslo Kootenay lake be placed on the ne footing as the people on the other de of the same district, as far as gov ment aid to railways was concerned. W. O. Clymo, a practical mining man, no has established a sampler at Kaslo contemplates the erection of a smeltaddressed the ministers and explained der what conditions it would be possie to establish a smelting industry on otenay lake. If a railway were built carry ores to the lake the smelting uld be done there instead of sending e ore to Swansea or the United States. hen the Crow's Nest pass line was ompleted there would be no trouble in staining coal at a moderate rate, and itil then charcoal could be used to adintage. So the argument that the Naasp railway was being built to carry ore through and out of the province not carry any weight against the arnent in favor of smelting it in the vince, on Kootenay lake. The deletes urged the government to give the cessary aid to have the Kaslo & Slorailway constructed to carry the es to the lake. If this was not done interests of hundreds of people who ad settled on the lake, with the underanding that there would be fair play nd that they would receive as much

ilway constructed on the line of the ovince, would be destroyed. Mayor Kane said the Nakusp & Slocan ilway would not afford transportation many of the most important mining imps of the Kaslo-Slocan district. ese camps could only be reached by a ilway constructedo n the line of the aslo railway.

Each member of the delegation is concted with some particular business in aslo, besides being interested in the nes. They spoke of the question from ious standpoints.

Accordingly Miss Poltard and her attorneys filed through the little door between the judge and the jury. Several men made

a rush from their seats after them. Judge Bradley's cheeks flushed and he rapped the desk fiercely. "The court has not adjourned," he shouted above the hustling noises. Take your seats." Then, pointing to one conspicuous offender, who was half way across the room with his hat on. "Take off your hat there and go back where you came from. Take your seats." As the men relapsed into their seats the judge declared in his sternest

tones: "This morbid cusiosity which has been manifested since the beginning of this trial is perfectly disgusting. The corridors of the court have been crowded; the egress has been crowded, and I understand the sidewalks in front of the office of counsel have been crowded showing an eagerness to see the parties to this suit. They seem to forget that someone beside the parties to the suit are on trial here. The spectators have been on trial for their deceney, and they have been the subject of indecent conduct.
