Among the subjects to be discussed are several proposed alterations in the rules of the Western Kennel League. It is understood that T. P. McConnell, formerly secretary of the association, has a valuable suggestion to offer regarding the conditions governing the awarding of championships to prize-winning dogs. He claims that the present rules, which provide that a canine cannot attain that honor without capturing five winners against a certain number of competitors, is unfair. To improve this method he proposes to introduce a system of points

in which every dog must obtain a certain number before being entitled to a championship. A point will be awarded for each dog defeated, and the number of points necessary will be regulated according to the popularity of the class in consideration. The chair will be taken at 8 o'clock, and a full attendance is desired.

Employees of the B. C. Electric Railway Company have rented rooms above E. J. Salmon's cigar store, corner of Government and Yates streets, and intend fitting them up as waiting apartments. The new rooms will be provided with popular literature, writing material and other conveniences. It is also announced that portable seats have been applied for by the company for the use of the motorists in the cars. These are something after the style of bicycle seats, and are only intended to relieve the men from the tediousness of standing all day. They are expected to arrive in a few weeks, and needless to say, will be much appreciated.

A few days ago the Times referred to the damage being done to strawberry plantations in the province by a weevil. It had been reported to R. M. Palmer as working particularly on the lower Mainland. Mr. Dale, of Hammond, in referring to the destruction of the weevil, says: "There are sixty acres of strawberries at Port Hammond, which will yield a large crop this season. It is a fact, however, that the weevil has done more than two-thirds of what was expected on account of the prevalence of a new grub or caterpillar, which attacks the roots of all plants which have been in the ground for two or three years. This is the same worm that is giving the farmers of Washington state so much trouble, and this is the first time it has appeared in anything like damaging numbers in British Columbia. Other crops are very healthy and the yield will be exceedingly large."

A "SWELL" QUESTION.
To the Editor—The British Columbia Life-Saving Association's funds are now to be "swelled up" by the handsome donation of one hundred pounds sterling by an Old Country gentleman, one of the most distinguished members of the association, whose name is "permitted" to be added to the list of vice patrons of the association. The secretary says he will hold the name at present so as to avoid the name of Progress, and asks who comes next? Will Progress add a like donation (1) or do retrospective notes continue.

JUDGES AND THE PEOPLE.
To the Editor—Following upon my letter in answer to that of "Barriette" in the Colonist, it is pleasant reading to have the following reference made to one of the learned judges of our Supreme court (the Honorable Mr. Justice Martin) by the grand jury at the Nelson assizes:

"To His Lordship, Mr. Justice Martin: "Sir—We desire to reciprocate your kind words at the opening of this assize and to assure you that we fully appreciate the compliment paid both to ourselves and the city in which most of us reside, and feel proud of the well known and distinguished name of the Honorable Mr. Justice Martin, who is one of those who think lightly of the position and the duties of grand jurymen. We believe the value and importance of the grand jury in connection with the administration of justice, and the protection of the interests of the community, and have endeavored to discharge our duties with regard to this responsibility."

The dissemination of such attacks upon the bench cannot be approved, and it is to be regretted that the grand jury of Nelson, who are so well known and distinguished, have been so grossly misrepresented. One of the largest and most important real estate deals was completed last week. The property that has changed hands is the Coldstream ranch, North Thompson, owned by A. Noble, and consisting of 500 acres of arable land, and a number of cattle, horses, pigs, etc., the whole being sold as a going concern. The purchaser is T. D. Mitchell, of Vancouver. With the property there goes also a lease of 3,000 acres of grazing land. A new modern house with all conveniences and outhouses is on the property. The health is the cause of Mr. Noble giving up farming.

A. Irwin, Indian agent, has returned from an extended official visit to the Indian reserves of Okanagan and South Yale. A. W. Vowell, superintendent of the Okanagan Indian agency, accompanied him as far as Pentticon. From that point Mr. Irwin proceeded to Hedley, where steps are now being taken for the immediate erection of the smelter. Marked progress is being made in the Okanagan country. Around Kelowna and Summerland progress is very noticeable and a number of new settlers have lately gone into the latter district. Peachland and Summerland are to be connected by wagon road. The steamer is kept busy handling freight.

INCOMPREHENSIBLE DISCRIMINATION.
To the Editor—In 1878 Admiral Cochrane when cruising on the coast of Northern British Columbia said in his reports that Port Simpson was a splendid harbor, the best and safest in the Northwest. He also visited Queen Charlotte Islands and gave glowing accounts of their hidden and valuable wealth. The soil will be productive up to the mountain tops, when the timber is cut off. The government some years ago put a reserve on the whole of Graham Island, less a few thousand acres that had been crown granted by prospect or mining claim. The last seventeen years. Most of those have died, some sold out and went hunting for more easily got fortunes in the "Northwest." The price the government charges for coal land is high enough, ten dollars per acre. Surely there must be some object in view when this locality (Victoria Island) is locked up and the Southeast Kootenay blocks are thrown open.
