GEORGE Mc-The news of the death of Rev. George

A very pretty but quiet wedding took place yesterday, at the residence of Mr. and Mrs. H. C. W. Powell, when their youngest daughter, Laura May, was united in marriage by Rev. N. LeMoine, to Thomas H. Evans, of Middlesboro, Yorkshire, England. The youthful bride, looking all that was dainty and sweet in a gown of white silk, and wearing the vell worn by her mother on the occasion of her marriage twenty-four years ago, entered the drawing room on the arm of her father to the strains of Lohengrin's wedding march, played by Miss Beatrice Tozer. The bride was attended by Miss Jean D. Grant, whose gown was a charming oreation of marquisette over blue satin. Mr. James Woodill, of the Bank of Montreal, supported the groom. The rooms were tastefully and lavishly decorated with palms and potted plants. McMilan, for 16 years the faithful Pres-sylerian minister at Kentville, will be byteras minister as calvine, when heard with general regret. He was much loved by his people in that town and by his congregations in Malpeque, P. E. I., and in Harbor Grace, where he labored for shorter periods. Mr. McMillan was born in Scotch Hill di years sgo, and it was there, in the home of his brother, Dr. McMillan, that he died yesterds, his other brothers, Dr. John, of Halifax, and E. A., of Pictou, also being present when he passed away. He had been unable to preach, because of growing illness, since the beginning of April, and his sickness had been more acute during the past three weeks. Death was caused by cerebral anemia. Rev. He was much ully and lavishiy used and potted plants.

A number of beautiful gifts testified to the young couple's popularity. Much to the regret of all, the groom leaves for Hudson Bay in a few days to take up a responsible position, while the bride renains with her parents until his return.

Take Some Holidays. You Need Them.

Everybody needs holidays. It makes no difference how big and strong they may be.

What would you think of a manager of a factory who allowed the equipment to go week after week, month after month, and year after year without a rest, without being oiled and cleaned up? You would think he was no man for the position.

Then again, have you ever noticed how careful an engineer is of his locomotive? Every 50 miles or so he looks it over carefully and pours oil where necessary.

And yet human beings-if you will -- the most delicate machinery in the world act as though they should not rest, should not get oiled up and overhauled as it were. They need a rest, they need holidays, if they are to do their best work and a lot of it.

So we urge you to take some holidays. Buy a supply of light weight, cool, comfortable and at the same time inexpensive outing garments, such as Outing Pants, Straw Hats, Vests, Washable Neckwear, Hose and Two-piece Suits, and get away for a few weeks' holidays. You'll feel a lot

better when you return. We can fit you up with bag and baggage at reasonable prices.
