After hearing the evidence of Returning Officer Stuart the election court adjourned until the last Tuesday in October.

ON TOP OF OAK MOUNTAIN.

Sun: Your correspondent has been roving around lately, visiting sections of York and Carleton counties. On Friday evening, for the first time he, with a friend, climbed Oak Mountain. What a magnificent view! Water to the left, Kirkland also to the left; Mt. Katahdin to the north, which on very clear days shows its snow-topped summit. One is astonished to notice that the woodman's axe has yet to fell vast forests. New Brunswick's supply of wood is sufficient for a dozen generations to come. Near the summit of Oak Mountain Wm. Speer has built summer house for his wife and daughter, who are searching for that sovereign elixir, health. Visitors come and go, and all express themselves satissied with the fine prospect, which more than compensates for the exer-tion put forth to climb the mountain-

By request the Rev. J. E. Flewelling intends (D. V.) holding an open air service near the summit by moonlight on Thursday evening, August 1, to which all who live near are invited. Cyclists could wheel to the foot of the nill. A hint to the wise is sufficient.

A GOOD B. C. GOLD L'INE. Stocks in some of the British Columbia gold mines have been quoted rather low of late, and the recent ransaction of the Imperial Development Company of Nelson is a cheer-ful exception to the rule. This company has sold to a strong English syndicate the property at Fish. Creek in the Lardeau district. The price paid is \$250,000. For the property sold, vith some other areas not yet disposed of, the Nelson company paid \$65,000. The gold in the district is free milling, and is therefore worked at much less expense than the smelting properties. William Beer, lately of Char-lottetown, is one of the directors of the selling company, and a portion of the stock was held in the lower provinces.

THE TURF.

ST STEPHEN, July 24.—The races at Calals today were witnessed by twelve hundred people. The judges were Dr. Christie, St John; H. F. Todd, St. Stephen, and Charles A. Eaton, Houlton. Collector Graham, St. John; H. F. Todd, St. Stephen, and Charles
A. Eaton, Houlton. Collector Graham, St.
Stephen, and C. W. Bell, St. John, held the
official watches. The first race called was
the 2.19 class, in which great interest centræed. Kingfisher had been a strong farcrite in the pool box, where his owner, Thos.
Phair, had backed him for many hundreds
of dollars. The horses were started in the
following positions: Nominee Prince, Ray
Wilkes, Rex Wilkes, Kingfisher, Van Denon, and Clayson. In the first heat Nominee
got around the turn in the lead, with Ray,
Clayson and Kingfisher close after him.
They struck out a little around the lower
turn, when Ray made a break and was not
again in the race. At the half Clayson was
shoving Nominee, but when three-quarters
was reached Nominee was four lengths ahead
and Kingfisher the same distance back of
Clayson. Then Rex Wilkes got after Clayson and passed to second place on the
stretch. Nominee finished ahead, with speed
to spare, followed by Rex, Clayson, Van Demon, Ray Wilkes and Kingfisher. Ray had
finished outside the flag, while the favorite
barely won a chance to start again. Time

In the 2.30 class the horses started in the following order: Fannie B., Leewood, Clifford Boy, Maud B., Tutrix, and O'Connell. After the upper turn was made Clifford was in the lead with Leewood close after him, and in these positions they made the heat, "old driftwood" finishing on the leader's wheel and Tutrix a close third. A very bad mix-bp occurred at the first turn in this heat. Maud B.'s sulky collided with those of O'Connell and Fannie B. Thos. Doyle, who was driving O'Connell, managed to climb on his back and stop him. Ed. Gillis was thrown out of his sulky and Fannie B. started at a run. She soon settled into a pretty pace, went around the lower turn and came up the stretch at a good pace. Below the wire, Dr. Macdonald of Militown climbed over the back of the sulky, got on the mare's back and brought her to a stop. The mare was thrown but young Macdonald landed on top. This young man is a handy adjunct to the St. Stephen and Calais tracks. Two years ago he stopped Winsome in the same manner at the St. Stephen track and last year stopped another in the same way at Calais. YACHTING. Constitution Wins Again.

Constitution Wins Again.

NEW LONDON, Conn., July 24.—In a fine southwest breeze over the 30 mile course from New Haven breakwater to Sarah's Ledge at the mouth of New London harbor, the Constitution once again showed what a superb racing craft she is in light weather and smooth water. She beat the Columbia today, boat for boost, 8 minutes and 23 seconds fully and squarely. There were no flukes, the wind holding throughout and steady with the exception of a shift of a couple of points after two-thirds of the distance had been covered.

Sailing dead before the wind is by no means exciting, all the sensational elements of a stardy thresh to windward being lacking. The breeze at no time was of sufficient strength to raise a single white cap on the waves, and the sea being smooth the yachts glided along with great speed.

Not a single mishap occurred to any yacht, but the Constitution and the Columbia very narrowly escaped a collision as they crossed the time of collision which might have wreekbut the Constitution and the Columbia very narrowly escaped a collision as they crossed the line, a collision which might have wrecked one or both of the yachts. As they were manoeuvring for the weather gauge just before the start, Barr got the windward position with the Constitution close under his lee. The steam yacht Narada, which was acting as the committee boat, was anchored at the weather end of the line. The Constitution luffed up sharp, leaving a narrow passage between herself and the Narada, a passage between herself and the Narada, a passage was a collision as they constitute the constitution in the constitut

age which nine captains out of ten would have thought unsafe to tackle, but Barr, nothing daunted, ran his bowsprit into it in what seemed the most reckless manner. The Constitution is a remarkably hard steerer, and although Captain Rhodes put his helm up it was some little time before she paid off. When she at last swung off the bowsprit of the Columbia was nearly grazing the side of the Narada. Captain Barr, to escape a collision with the Constitution, such as happened when the Valkyrie fouled the Defender, put his helm up and gybed the Columbia or else the end of her main boom would have struck the topmast rigging of the Constitution and the collapse of her mast might have followed. He barely cleared her, and then luffing up, overcame the boom again and closehauled once more on the starboard tack the Columbia shot ahead and to windward, blanketing the Constitution and huffing out under the stern of the Narada as she stood on her course 100 yards in the lead. It was a brilliant and dramatic display of yachtsmanship, but it came perflously near disaster. Those on the Narada say that the Columbia was only 35 feet away from the committee boat and ten feet from the Constitution.
