shakings and explosive contortions are but the worried earth scratching its wrinkled hide to rid itself of the parasitte pests whose strivings and burrowings and noise have made it frantic. Who knows? Certainly not the scientiled. Only one village was destroyed, tists, who with all their research and in which about forty lives were lost. satisfactorily to explain these phenomena before which mankind bows in

It is known in a vague sort of a way that volcanoes and earthquakes are connected and are due to some far internal disturbance; but as to the direct cause of these disturbances geologists differ. Some attempt to explain them on the theory that under a comparatively thin crust the earth is a vast molten mass. This theory supposes that the earth, from its original incandescent condition, slowly cooled and formed a surface crust; that this crust, ently exempt from all such disasters. though ever thickening by additions to From the kind and generous skies its interior surface, is still compara- above, down through the teeming soil tively thin and beneath is still the uni- to the rich rocks that make its firm versal and incandescent fluid; that by foundation, there is nothing Canadian movements of the surface fissures are -except some of its population-which formed through which water finds its is not good. way into the superheated mass, generating steam, which causes explosions which are externally evident in volcanic eruptions and the tremblings known as earthquakes.

The chief objection to this theory has been that such explosive energy generated in a liquid mass would be transmitted equally to every part of the crust while, in general, volcanic dis- of Bessie, daughter of Stephen Fulton turbances have been local. This ob- of Parrsboro, to Charles E. H. Harris, jection, together with other difficulties, manager of the Union Bank of Halihave led to the formation of alternative theories. One explains the convulsions by chemical action, due to the generation of heat by oxidation of the unreavement in the bride's family. Both by chemical action, due to the generoxidized interior by encroaching water bride and groom were unattended. and air; another holds that the action | The bride was attired in white silk is mechanical, due to the more rapid contraction of the interior than the exterior of the earth, causing compressions. The presents were numerous and handsome. The happy couple left this morning on a wedding trip sion and depression of the outer shell; to St. John, Halifax and other places and there are others more or less ingenious, but none of them authorita-

The seismic disturbances of the past was totally destroyed by fire this morning, together with the stock. All that was saved was some furniture, which was stored in the building. The fire is supposed entirely well." haps will lead to the evolving of new to have started from a defective flue.

spread nature of these convulsions

The force of these internal explosion has been felt over an unprecedented amount of territory, almost around the world. A few weeks ago a noticeable earth tremor passed over all the renor passed o earth tremor passed over all the region about the Caribbean Sea, the scene of the terrible Martinique disaster of a few years ago. Then came the tremendous awakening of Vesuvius, with its devastation of a great extent of rich country and its destruction of hundreds of lives. Twice during the past month the Island of Formosa has been visited by earthquake shocks, which killed many and destroyed property amounting to millions. The last shock occurred last Saturday. Just two days before that Mount Ranier, in the State of Washington, away up in the northwestern corner of the United States, gave signs of life after long quiescence. According to press reports the emission of fire and cinders was such as to frighten away all miners the scene of the treatment of the neighborhood.

In power—no self-control. They are operated and actuated by a tiny shred of a nerve which is largely responsible or their condition. If the Kidney nerve is strong and healthy the kid. Kidneys are strong and healthy the kid. Kidney nerve is strong and when he sent the money and which killed many and destroyed propletter, post effice order or Ex- days before that Mount Ranier, in the and prospectors in the neighborhood.

And now has come this culminating disaster in San Francisco and vicinity, the awful extent of which is graphically described on other pages of this pa per, and the effect of which has been felt all over the United States.

Right around the world the convulsion has apparently swept, making itself terribly felt wherever the earth's crust was thin enough to allow the chained energy to burst forth. This transmission of what was probably the effect of some vast explosion somewhere in the earth's interior, is difficult to explain, save on the theory of internal fluidity.

and especially in the vicinity of San rister, of Sault Ste. Marie, Quebec. Francisco, even during the short time thickly settled. During the month the entire summer. So frequent and of Nature in her frenzies. "Lord of the ground. Several missions were ate of Acadia, was killed several years though no list was ever made. This were lost, though great alarm was felt. was held this afternoon at Rexton. Since then there has been no great Rev. A. D. Archibald conducted the And who knows if we are not such shock having its focus near the coast; services at the house and grave. as they? Perhaps these twitchings and but in 1872 the whole Sierra Nevada perienced a tremendous earthquake which shook down immense quantities of rock from the mountains and wrought vast damage, though fortun-

> cient to cause any general alarm. The volcanic record of this territory has undoubtedly retarded its settlement to a considerable degree, and the fear created by this fearful re-occurrence of the trouble will undoubtedly operate to the prejudice of San Francisco and its vicinity so that not even the vast direct loss from yesterday's earthquake and fire will measure the injury the place will suffer.

Thankful we should be-we Canadians-that our goodly land is appar-

HOPEWELL HILL

er Co., Buffalo

HOPEWELL HILL, Aug. 18.-The schooner Two Sisters left on Friday for with a cargo of hardwood. Capt. Hugh Alcorn has charge of the vessel. The schooner Beaver will go on the berth at Grindstone Island morrow to load building stone for St. John for Alex, Rogers. A large fourmaster and a ship are anchored out side the island today, the former being bound to Hillsboro for plaster. The Norwegian steamer which was chartered to load plaster at Amherst, went to Rewa, St John via New Haven. Hillsboro instead, where she took in cargo last week.

Miss Annie R. Peck spent Easter N F with her sisters, Mrs. W. K. Gross,

Moncton. A meeting of the proprietors of the Hill dyke, Boyd and great marshes, sections of the Hopewell marsh, aggregating some 1,500 acres, was held in the S. of T. Hall Monday afternoon for the purpose of considering the advisability of flowing the marshes in order to get the benefit of a mud fertilizer, which, it is generally considered, the marsh ding the seminary, is the and aboldeaux are now in a bad conundation. However, no action Gaspereaux Baptist church, left this dykes opened, at least before fall, it taken in the direction of having the being decided to make temporary re pairs to ensure this year's crop of hay. Agitation of the question of flowing the Hopewell marsh began a number of years ago, there being at that time nsiderable opposition to the schem This, however, has largely disappeared. The marsh along the Shepody now averages very little if any more than half a ton to the acre, in some sections scarcely paying for the getting.

Wm. McLaughlin, the well known mberer, recently cut a six log spruce tree which tallied 1,400 superficial feet all but three feet. The tree was within mile of Riverside village.

Mrs. Chesley Smith returned today from Moncton, where she spent Easter. Solomon Prosser and Fred and Mill ard Downing of Caledonia left recently for the Canadian Northwest. Other residents of the county are talking of go ing out at an early date.

USED MEN AT THE OFFICE WOMEN IN THE HOME CHILDREN AT SCHOOL AND Every day in the week and TIRED every week in the year men, women and children feel all

used up and tired out. The strain of business, the cares of home and social life and the task of study cause terrible suffer-

ing from heart and nerve troubles. The efforts put forth to keep up to the modern "high pressure" mode of life in this age soon wears out the strongest system, shatters the nerves and weakens the heart. Thousands find life a burden and others in early grave. The strain on the system

causes nervousness, palpitation of the heart, nervous prostration, sleeplessness, faint and dizzy spells, skip beats, weak and irregular pulse, smothering and sinking spells, etc. The blood becomes weak and watery and eventually causes decline.

Milburn's Heart and Nerve Pills

are indicated for all diseases arising from a weak and debilitated condition of the heart or of the nerve centres. Mrs. Thos. Hall, Keldon, Ont., writes: "For the past two or three years I have been troubled with nervousness and heart fail with nervousness and heart failure, and the doctors failed to give me any relief. I the doctors failed to give me any relief. I decided at last to give Milburn's Heart and Nerve Pills a trial, and I would not now be without them if they cost twice as much. I have recommended them to my neighbors and friends.

Milburn's Heart and Nerve Pills 50 cts. per box or 3 for \$1.25, all dealers, or The T. Milburn Co., Limited, Toronto, Ona.

SACKVILLE.

SOCIETY WEDDING AT ST. STEPHEN

ST. STEPHEN, N. B., April 18.-Trinorated for the occasion, was the scene of a very pretty wedding this after-noon, when Miss J. Bremner Parker Ross, one of the most charming young ladies in social circles here, and daughter of Dr. and Mrs. R. D. Ross, was united in marriage to William Henry Townsend Spinney of Yarmouth, N. S. Th ceremony was performed by the

rector, the Rev. J. J. Winfield. The bride, who was hand The bride, who was handsomely gowned in white silk, trimmed with lace and carried a bouquet of bride's roses, entered the church on the arm of her father; followed by the maids of honor, Miss Gladys Blair and Mise Mildred Todd, and the flower girls, Miss Helen McNichol and the Misses Catherine and Aileen Byrne. The groom was suported by his bro-

ther, Eric Spinney. The ushers were C. C. Whitlock of Calais, Harold Purves of St. John, N. Marks Mills and Frank Duston of St. Stephen. After the ceremony a reception was held at the home of the bride. Assisting the bridal party in receiving were Miss Frink of St. John, Miss Alice Byrne of Sussex, the Misses Miriam Mowatt, Alice Grimmer and May Morris of St. Andrews, Misses Boardie Todd, Elsie Lawson, Winifrid Smith and Annie Ryder of St. Stephen. The wedding presents were numerous and very handsome. The groom's gift to the bride was a beautiful pearl neck

he presented pearl stickpins; the maids of honor and flower girls received The happy couple left tonight on an extended trip to Montreal and Ottawa before going to their future home in

lace and to the best man and ushers

FATAL AS CONSUMPTION

Doctors Say Erysipelas is

One of Mankind's Deadliest Foes. Acute, somewhat contagious and often fatal Erysipelas, is much to be

dreaded. It is supposed to be due to the presence of a particular germ in the system. Chills, fever and intense local redness of the skin are the principal symptoms. There follows an erup-

tion, dark spreading patches, itching and burning skin. No remedy can prevent this disease like Dr. Hamilton's Pills, which cleanse the system of the germ and enrich the blood, stimulate the bowels to regular, effective action.

Take Dr. Hamilton's Pills and your system will be regenerated, revitalized and made proof against disease. Good for men, excellent for women, and most effective for children. All ages and both sexes find Dr. Hamilton's Pills a marvellous medicine. Although active they do not gripe or cause inconvenience, still they cleanse and purify the system, thereby main taining a high standard of health.
