LIBERALS NO LONGER UNITED IN BLOCKADE

Sir Richard McBride Sends Congratulatory Telegram to Premier--When Churchill Memorandum Arrived.

Special to The Standard.

Ottawa, March 13.—"My colleagues join with me in expressing our admiration at the splendid fight you are making on the Naval question, and your determination that Canada shall at once give assistance for the defence of the Empire until a permament policy is decided on. You have the support of the people of British Columbia, and the great majority of Canadians must feel that you are acting in the heat interests of the country."

ing in the heat interests of the country."

The above telegram has been received by Premier Borden from the Prime Minister of British Columbia, Sir Richard McBride.

Mr. Borden has replied as follows: Sir Richard McBride, Victoria, B. C.:

"My colleagues and I appreciate warmly the endorsation of our attitude. Notwithstanding the unworthy obstruction with which we are confronted, it is our firm determination to press to a conclusion our proposals for effective aid in the common defence of the Empire."

Sir Richard McBride's message is only one of the scores which are coming in daily in a company of the poming in daily in a company of the poming in daily in the Old Country and from Canadiana resident in the United States.

One of these messages voices the sentiment of the people of the prairies. It comes from the district of Saskatchewan represented by Messrs. Knowles, Moosejaw; McCraney, Saskaton; and Champagne, Battleford, all Liberals, and is a strong endorsation of the stand taken by the government. The district thus represented comprises 3,800,000 acres.

"A Canadian, a life-long Liberal, a daily reader of the Globe, let me make bold enough to write you a word concerning the naval bill, so conspicuously before parliament and the Dominion. I urge you most affirmatively not to swerve for a moment from the reasonable and genuinely imperial standpoint you have taken. The future untrammelled progress of Canada requires your present utmost tenacity. My interest in writing is absolutely non-partisan and Canadian."

It is now made up principally of Liberals from Quebec and the Maritime Provinces with E. M. MacDonald and Hon. William Pugsley in charge. PROPOSAL FOR

Hon. Mr. Flemming Gives Notice of Resolution Favoring Establishing Plant and Yards Here.

Special to The Standard.

Fredericton, March 13.—In the nouse today Premier Flemming gave notice of the following resolution for

whereas it is understood that a proposition is under consideration for the establishment of a shipbullding plant and yards at the harbor of St. John, in this province, on a large scale, which will involve the expenditure of a large sum of money in the work of construction thereof.

And whereas the operation of such proposed works, when constructed, will add very materially to the trade of the said port of St. John, and to lits importance as an industrial centre, and will also prove of undoubted advantage and benefit to the province at large, in that it will afford a large amount of employment to our laborers and artisans, and a greatly enlarged market for the products of our mines, forests and farms.

Be it therefore resolved, that in the opinion of this shouse, the construction and establishment of the said shipyards and shipbuilding plant, as above referred to, and as proposed, is most desirable in the public interest, and this house recommends and will heartily support, such reasonable encouragement of the said propositions, as to His Hon. the Lieut. Governom to council, may seem proper, and calculated to insure the construction and operation of the said works.

The students fared badly, many of them were beaten, scores were ejected and others sat throughout the remainder of the meeting in silence.
