MANY CASES BEFORE POLICE MAGISTRATE

Oliver Farwell, aged seventeen years, of Augusta, Me., was before the police magistrate yesterday morning and charged with taking without the consent of his parents, Robert Golding McOutcheon, aged four years, the son of Mr. and Mrs. Robert McOutcheon.

The little tot, who was exceedingly bright, told the story of his escape with the alleged kidnapper to the

magistrate without a hitch. He said that the man who took him to a store, bought him some candy and ice cream and from there he took him to a show. Mrs. Violet McOutcheon, mother of the little tot, said she never saw this woman before until she took her child from her in the square Saturday night.

Oliver Farwell was then put on the stand and told the court practically what the little tot had said. She went on to say that she had known the father of the boy, as he had been at her mother's home in Augusta. She said she had got the consent of her parents to take Mrs. J. A. McOutcheon of Fredericton, grandmother of the child, and that she was to meet her in St. John. According to her statement and the answer which she gave Detective Biddecombe, she had corresponded with the father, but she did not come down here for the sole purpose of seeing him, as when asked that question, she answered emphatically "No." She said while waiting for Mrs. McOutcheon she went down to Queen street and met a man from a lad where "Bobby" McOutcheon lived, and she gave ten cents for the information. She said she had heard of the little boy through his grandmother and some of her friends. She told Detective Biddecombe that Robert McOutcheon was then in the General Public Hospital for treatment and she had been to see him with Mrs. J. A. McOutcheon.

Detectives Biddecombe and Donahue made the arrest and are now investigating the case further. The magistrate postponed the case until Mrs. J. A. McOutcheon could be of court to tell what she knows about the matter.

Mrs. Albert Frost, St. Patrick street, was fined and paid \$300 for selling a bottle of whiskey to Alex Leger on Saturday. Leger told of the purchase for \$5.00 of the whiskey and Officer Gibbs told of Mrs. Frost handing over to him a case of gin taken from a bedroom in her home.

Another woman, Florence Phillips, proprietress of a beer shop, 22 Brunswick street, was charged with supplying liquor to Charles Dempster. The latter testified that the woman on Saturday afternoon procured a bottle of gin for him, charging him \$6.00. She denied the charge, saying: "I never sold a bottle of liquor in my life." She could not remember having seen the prisoner on Saturday. The case was adjourned pending inquiries into her reputation.

No less than sixteen arrests were made on Saturday and Sunday by the police. Two were allowed out on deposit while fourteen were fined \$5.00 each. One man took weak in court.

The magistrate said that he wanted it distinctly understood that he did not want to be called out of his home to take deposits of \$5 for men who were arrested for being drunk. He also said the chief of police did not want to be bothered in the same way. The

magistrate continued by saying that after this no man would be let out on a deposit of less than \$5, as \$5 covered only the charge of drunkenness, while the man might be liable to other charges.

A case against Arthur Baerham, charged with stealing from the store of W. H. Thorne and Co., Ltd., was resumed, but on application of E. S. Ritchie, counsel for the defence, was postponed until today at ten o'clock.

Daniel Smith, K. C., and A. M. Skimmer appeared for the defence.

TRY MAGNESIA FOR
STOMACH TROUBLE.
It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gas, Stomach and Acid Indigestion.

Doublets if you are a sufferer from indigestion, you have already tried pepsin, blamuth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic, first try the effect of a little bisulphated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bisulphated magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach, which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little bisulphated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bisulphated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

Mr. F. W. Condon of St. Louis, Missouri, is the guest of Mrs. George McAlone and family at Red Head.

J. B. Ratford of St. John is in Bathurst relieving a customs official, Harry Sweeney, who is on his holiday.

Robinson Circus Pleased Thousands

Some Twelve Thousand People at Two Performances Yesterday — Clean, Interesting Show from Start to Finish — Orphans as The Standard's Guests Were Delighted.

Today the backyards will be turned into miniature circuses, and Fido will do duty as trick pony, trained elephant and bucking mule, for the great Robinson Circus has been here and delighted the hearts of some twelve thousand people who saw the performances yesterday.

When Barnum was out getting a reputation as a showman, he naturally sent his exhibit to St. John and never since then has the city seen a better aggregation of stellar talent than was produced for the delectation of an audience on the three rings yesterday.

Long before two o'clock, the appointed hour for the initial performance yesterday, vast crowds thronged along Main and Elm streets, all circusbound and all wearing the look of eager anticipation which was changed two hours later to one of happy realization, for the many and wonderful attractions advertised by the Robinson show were given as advertised, and given in full measure.

In a 160-minute performance, with three rings constantly engaged in acts which called for the greatest skill and flit with the grim resolve, there cannot be much room for particularization—all were good, and each was hailed as best by the own particular order of admirers.

In the equestrian acts Madame Bedini, the Japanese star adopted by John Robinson, proved easily one of the most finished horsewomen the Canadian public has seen.

Mounted on a valuable Morgan high-school horse she gave an excellent exposition of the modern haute école, in which the beautiful beast caked-walked, fox-trotted, walked on hind legs, lay "dead" and performed other feats which alone were almost worth the price of admission.

The other animal acts were not much inferior to this stellar act. There were many exhibitions of high school and bareback riding, "still life" poses and other feats which evoked loud applause.

Acrobats, gymnasts, aerial artists, slack and tight wire performers, Japanese jugglers and a host of other attractions kept the audience on the qui vive, but it was the consensus of opinion that the Neilson family, father, mother, four daughters and a precocious son, was the star act of the ground and left tumbling artists.

This is an act which formerly was a chief card of the Barnum-Bailey shows and this is said to be the last season of the family on the road, for as premier artists they have grown rich, and intend to retire from the life of canvas and circus.

Immediately after the main show the Wild West Hippodrome show was staged, with enough shooting, lynchings, roping and trick riding to please the most ardent reader of the Buffalo Bill stories. In fact, many of the cowboys and cowgirls in this show were members of the late Buffalo Bill Wild West Show and that they are genuine plainspeople is a self-evident fact.

The rough riding, broncho busting and whip work was so reasonable, a grizzled veteran, with a bowie-knife on his right cheek, handling a 66-foot cattle whip with the ease of a man with a pen-knife, cutting strips of pig-por head in a girl's hand, and winding the giant blacksnake around her waist, legs and neck without inflicting injury.

Mounted riding, jockey races, girl races and other equestrian sports rounded out the Wild West programme which was much enjoyed.

A feature which pleased old and young was the good work of the clown brigade, some new and really funny antics being performed which kept the crowd around all through the performances. Charlie Chaplin was there in the person of a 19-year old performer who reproduced many of the milder-dollar comedian's best antics.

The menagerie was a main feature of the show, the centre point of interest being the herd of ten elephants, ranging from 6 to 106 years old. A hippopotamus, polar bear, Indian deer, kangaroos, giraffes, cheetahs, tigers, Nubian lion lion cubs and other beasts of the forest and jungle made up a show which would be a credit to any big show zoo.

Side shows were well patronized, many entering in haste to report at leisure. Fourteen banners were hung around the circus and every tent was constantly filled.

Gloucester Has Bad Roads Also

Hon. Mr. Veniot's Highways Come in for Some Hard Knocks.

Apparently Hon. Mr. Veniot is not having any more success with his road-building policy in his own constituency of Gloucester than in some other parts of the province. The extraordinary interview respecting the roads of Gloucester quoted below appeared in the Northern Light of Badouet.

"When, that was some trip," said P. L. Bowden, a lumber buyer for a Boston wholesaler, speaking with a representative of the Northern Light of a trip which he made to Burnville, Saturday, June 28th.

"I have covered the United States and the whole of the eastern part of Canada at different times in my experience as a lumber buyer," said Mr. Bowden, but his trip to Burnville was certainly the worst I have ever seen.

"The last eight miles of the highway resembled 'No Man's Land' after Frits and the Allied forces had been particularly busy for a couple of weeks, more than anything else that I can imagine.

"No more trips to Burnville for me, by automobile, until I can see the insurance company which has the policy on my life and double the risk, and at that I guess I wouldn't get it if they knew the chances I take on a trip like the above.

"Please don't mistake me, I hit a lot of very bad roads in looking after lumber off the beaten path, some of the roads are very, very bad. But that last eight miles, I can see it yet.

"Mud, ruts, that were so deep I feared we would strip the oil pan from the bottom of the machine, ruts, quagmires, mud, more ruts, and then some more mud, oh, much more MUD.

"The roadway was bordered along the stretch of eight miles by two beautiful streams of water and as the car slipped and slipped over the road-bed, which was of consistency of axle grease spread over the highway, we were cheered by the thought that if we ever left the road and got into the water on either side we would be very lucky if we did not actually lose the car.

"I put in some considerable time in France during the big guns and let me tell you frankly that all of the hardship and danger is not on the other side of the Atlantic, and if you don't believe me take a trip to Burnville from Burnst by auto, and if it is as you are ready and willing to shuffle off this mortal coil."

city and the hope of continued success in the smallest wish his many admirers can vouchsafe. Always ready to help and please, and a man whose word is as good as a bond, he has left an army of friends in the wake of the Robinson 99-year-old circus.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles of the soft curved lines of health and there are thousands of thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to a stunted nervous system, which needs more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by the Ross Drug Co. in St. John.

By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

The increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health.

CAUTION:—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

Nature's
Healing
Herbs for
Headache

A BLOOD FOOD
PRACTICALLY
all headaches
come from two
causes—Bilious-
ness and Nervousness. Bilious head-
ache means upset stomach, and con-
stipation—with severe cramping pains
all over the head. Nervous headaches
mean that the nerves are exhausted
and need rest and food.

Dr. Wilson's
HERBINE BITTERS
have quick and lasting relief from these
headaches. The simple old-fashioned herbs
carefully selected, regulate the kidneys and
bowels, purify the blood, and build up the
whole system. A reliable spring tonic. Get
today and get rid of your headache.
