Alberta. There are J00 acres in this farm.

The funeral of Mrs. Sarah Levina Collins was held yesterday afternoon from the residence of B. C. Holder, 170 Winslow street, West St. John, to Fernhill.

The funeral service of Mrs. Doreas E. Dykeman was held last evening at the home of her daughter. Bre. E. C. Cowas, L12 Main street, conducted by Mr. N. W. Brown, Messrs. Burley's class and the railway company received to fund one brother, Percy, with the aviation force at Ottawa.

NEW M. P. ST. JOHN MAN

The successful candidate in the recent Yale by-election is a native of St. John, his father having been Thomas M. McKelvie, He received his education in the St. John Gra aman Flowest, this morning to Upper Jemsey where internent will be made in the family lot.

Miss. Hattle S. Comben, who has been apending the past summer in England, is now the guest of her sister at 97 Orange street.

Also the farm of Alfred Munro, situated at Policy of the Care of the care with the series of the care with the series of the care would cost the same shipping point would c ompany approximately \$622,991 more or wages in 1921 than this year. Mr. Pullen did not see any likeli-ood of wages being decreased during the coming year.

Goes on Another Week
Ottawa, Dec. 4—All hope of concluding the inquiry this week was
abandoned at the close of the sitting
today of the board.
Although the present series of sittings was called for Tuesday ostenstilly for the purpose of hearing argument by counsel, the taking of additional evidence and the filing of revised statement has been steadily proceeded with four four days. At five
o'clock this afternoon the evidence
was still unfinished.
In view of the situation and the

ing at which matters relating to coal will be considered. Chief Commissioner Carvell suggested that the hearing of evidence be finished tomorrow and an adjournment taking until the following Thursday or Friday. To this proposal counsel agreed.

proposal counsel agreed.

Col. Gordon's Evidence
Colonel H. D. Lockhart Gordon, D.
S.O., the financial expert in the case
for Toronto City, witness at the after
noon sitting, produced figures and
computations purporting to show the
position of the Dominion Express
Company, both present and prospective, to be more favorable than is set
forth in the statements submitted by
the company in the case. He claimed,
for instance, that for the year commencing on May 1 last, when a new
wage scale went into effect, the company operating under present rates statements covering this particular twelve months, but claims that rate increases of at least thirty-three per

*Colonel Gordon's calculations in-cluded profits made on the overseas business, and the chief commissioner raised a point as to whether thes profits could be fairly taken into a

IN THE EDITOR'S MAIL

Perth, N. B., Dec. 2nd. 1920.

Perth, N. B., Dec. 2nd. 1820.
To the Editor of the St. John Standard, St. John, N. B., Dear Sir,—I beg to submit to you the following article:—
Although in many parts or Canada, at the present time, there is a great shortage of employment, and abundance of laber, we find at least one locality in which these conditions are exactly reversed. In the county of Victoria, and especially at Andover and Perth, the need for workmen is keenly felt. There are wonderful openings here, especially for carpenters, masons and plumbers. The only available carpenters and masons are booked up for work mouths in advance and the shortage of men doing this sort of work is daily becoming more acutely felt by those living in this vicinity. The urgent need of some plumbers is equally felt as there is only one plumbing establishment in Victoria County, south of the town of Grand Falis. Common laborers for ordinary rough work are even more scarce than skilled workmen and it is practically impossible to find men for such work to be done here. With the damming of the Tobiqhe River at its mouth, which is touching both Andover and Perth, and the erection of pulp mills there which are expected to employ about three thousand men, the opportunity for good men to locate in these towns are exceptionally good: We are expecting to see wonderful development in Andover and Perth within the next few years and would consider this an excellent territory to get established immediately in any line of business. We would especially mention that there is a wonderful opening for a good jeweler and watch repairer here.

Yours truly,

GEO. B. WOOTTEN.

SUGAR OFFERINGS GOOD New York Dec. 3—Offerings of raw sugar increased early today and sales of 15.000 bags of Cubas were reported at 4.3-4 cents cost and freight equal to \$5.76 for centrifugal. The demand for refined continued slight and fine granulated was unchanged at \$8.75 to \$9.

"But I am not nervous."

"Perhaps you never thought of the vital organs of your body as requiring any motive power—any propelling energy—but they do, and this force comes through the hervous system.

"Because you are not conscious of every heart beat and of every breath you breathe is no indication that this action is not the result of nervous energy.

body. It is the failure of this sympathetic nervous system, as it is called, which most frequently causes trouble.

"Because nervous energy is lacking there is weak functioning of the vital organs. The digestive fluid does not flow properly in the stomach, and you have nervous indigestion—the action of the liver and bowels is slow and weak, and you suffer from constipation. And so it may be with other organs. While they are not really diseased, their action is weak for lack of nervous energy. What you need is a good restorative."

"What do you think of using Dr. Chase's Nerve Food?"

"There's nothing better. You know we doctors prefer to prescribe our own favorite treatments, but I have seen such splendid results from the use of Dr. Chase's Nerve Food by my patients that I no longer hesitate to recommend it."

The active and concentrated ingredients of Dr. Chase's Nerve Food are approved by the best medical authorities as a means of building up the exhausted nervous system. The experiences of many thousands of people go to back up the professional opinion, and hence the enormous success of this great restorative. 50c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

"Have You Tested My Blood, Doctor?"

"And what is the result?"

"Not very satisfactory."

"What seems to be the trouble?"

"Well, your blood is thin. It is lacking in what we call the red corpuscles. It does not contain enough of the nutritive qualities to properly supply nourishment to the nervous system."

"No, you are not, in one sense. Your hands do not tremble. You are not easily startled or excited. But nevertheless your nerves are not in good condition. There is not enough nervous energy in your system to work the machinery of the body.

"You really have two brains—one with which you think and act voluntarily, another one which, without any conscious effort on your part, controls the action of the various organs and members of the
