

AGRICULTURE
Potato Scab, Its Cause, and the Remedy—Should Not Be Confused With the Potato Canker—Conditions of Soil.

Potato scab should not be confused with the potato canker or wart disease, sometimes called the black scab. This latter disease is established in Newfoundland but is not found in Canada so far as we are aware.

The roughened, scabby, pitted surface of potato tubers affected with scab is too well known to require description. It is probable that no other potato disease has wider distribution. In addition to being mentioned throughout this country, it occurs in various parts of Europe, South Africa and New Zealand. In all probability it occurs wherever potatoes are grown.

Many practical growers throughout the country are of the opinion that lime, which is the cause of the disease, causes the disease. The nature of the fertilizer used, the alkalinity or acidity of the soil may also influence the amount of scab, but such agencies are incapable of producing life.

When the soil once becomes infected there are two possible sources of infection to future crops, viz., the seed and the soil itself. It follows that some soils may give scabby potatoes even when clean seed is used.

Scab thrives best on an alkaline soil. Dr. Wheeler, who has made an extensive study of the disease, summarizes its conditions as follows: The materials which favor the scab and which are at times applied to land are: Stable manure, wood ashes, lime, magnesia and soda ash.

As has been pointed out potato scab does best on an alkaline soil. Unfortunately

JOHNSON'S ANODYNE LINIMENT

Used 102 years for internal and external ills. It alleviates coughs, colds, sore throat, colic, cuts, burns and bruises.

NO UNSIGHTLY OVERHEAD WIRES
Street Cars Propelled by Third Rail System—A Paradise for Lovers of Good Music—Napoleon's Famous Retreat from Moscow to Be Reproduced by "Movies" to the minutest detail.

(By D. Russell Jack)

Vienna, Dec. 16.—One of the most interesting features of moving picture films in Paris has just about completed a series of views showing the advance of the French army under Napoleon to Moscow, and its retreat after the burning of that historic city.

To make the work as complete as possible, the makers have had recourse to the use of a special camera, which is capable of making a film of a scene in a few minutes. The camera is mounted on a tripod and is operated by a hand crank. The film is exposed by a hand crank and is developed in a special solution.

THE LOSING SADDLY

Mrs. Jackson Explains That We Are Not Known In Old Country

SHOULD BE BETTER ADVERTISED

People Kept Well Informed About Manitoba, Saskatchewan, Alberta and British Columbia, But Have No Good Way of Learning of New Brunswick—Why She Is Here.

Wednesday, Jan. 8.

Mrs. George Hamer Jackson, of Reynolds' Newspaper, London, was in the city yesterday and was registered at the Victoria Hotel. To a Telegraph reporter she said that this was her second visit to Canada, and was in connection with a colonization scheme that was being floated by Reynolds' Newspaper, which might eventually result in the movement towards Canada of a good many hundred old country people.

The scheme was, of course, confined to the readers of Reynolds, she said, and was being worked in collaboration with the government of British Columbia, which was arranging for a grant of ground there. On this trip she had brought with her nine immigrants and these would be placed on an experimental farm in that province which would be run on a co-operative basis. Should this prove successful, the work will be continued, and from present prospects it looked as if it would develop substantial dimensions, as the government had received the plans with every show of favor.

As has been pointed out potato scab does best on an alkaline soil. Unfortunately

INTERNATIONAL STOCK FOOD

THE GREATEST MILK PRODUCER IN THE WORLD

We are going to prove this to you by showing from letters received from men who have tested the milk from this food and know what it will do.

Case No. 3375. More Milk. T. O. Stewart, the famous breeder of Jersey cows, writes: "I feed International Stock Food to my cows all winter, and the milk is of a better quality than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3376. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3377. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3378. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3379. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3380. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3381. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3382. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3383. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3384. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3385. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3386. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3387. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3388. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3389. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3390. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3391. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3392. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3393. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3394. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3395. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3396. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3397. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3398. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

Case No. 3399. More Milk. W. S. Murphy, owner of the "City Milk" of Hamilton, Ontario, writes: "We used International Stock Food for some time and we found it to be a great help to the cows in winter, and the cows are looking better than ever before. It is also a great help to the cows in winter, and the cows are looking better than ever before."

Case No. 3400. More Milk. J. K. Koch writes: "A three-year-old cow was giving a gallon of milk morning and evening when put on dry food and one tablespoonful of International Stock Food daily. She is now giving two gallons of milk each milking and the milk is of a better quality than ever before."

PRESENTATION AT G.T. SALMON RIVER

On Dec. 29 at the close of the Sunday school exercises, the superintendent, Mrs. Lennox, was presented with a lovely picture by the children of the school, and an address by G. E. Charlton, was as follows:

To Mrs. John Lennox, Superintendent of the Sunday School, G.T. Salmon River, Dear Sister—After a successful year of our Sunday school we meet together on this day to present to you a picture which is a symbol of the year that has passed.

And for we can only be reminded of the apostles words: "Whatever things are true, whatever things are honest, whatever things are just, whatever things are lovely, whatever things are of good report; if there be any virtue and if there be any praise, let us think on these things."

Signed on behalf of the school: Robt. Crossman, Mrs. Robt. Crossman, Robt. Gillies, Martin Crossman, Lila G. Wilson, Justin McCarthy, teachers.

Mrs. Lennon, in a few words, expressed her thanks for the kindness received. She did not expect any reward, but labored because it was duty. She experienced much pleasure in the work, and expressed a desire that someone might fill the vacancy and work for the Master in that way.

Mr. Lennon, in a few words, expressed his thanks for the kindness received. He did not expect any reward, but labored because it was duty. He experienced much pleasure in the work, and expressed a desire that someone might fill the vacancy and work for the Master in that way.

PRESIDENT SAM COMPERS ATTACKS ORGANIZED CAPITAL

Victoria, Dec. 16.—The past few years many of the old buildings, palaces, many of them, in what was formerly the walled portion of Vienna, have been pulled down to widen the streets and make room for more lofty and modern buildings. The old buildings, however, they say, were not pulled down to make room for a new style of architecture, but to make room for a new style of architecture.

Mr. Lennon, in a few words, expressed his thanks for the kindness received. He did not expect any reward, but labored because it was duty. He experienced much pleasure in the work, and expressed a desire that someone might fill the vacancy and work for the Master in that way.

WRECKAGE AT DIGBY INDICATES MISHAP AT GANNET ROCK LIGHT

Digby, N. S., Jan. 8.—A lot of wreckage is coming ashore at Petit Passage. It consists of boards and shingles, all painted white.

Among other things is a board containing the name "Gannet Rock." That is the name of a light house. Friends of Clarence Jameson, M. P., present in the Royal Hotel last night and mentioned to him a goal watch.

If a stove is not equipped with a broiler tray, a pan piping hot. Put the steak into this without greasing, and turn as soon as it is seared at the bottom. Keep turning till the meat is done.

Apples, pared, core and set into a dish with sugar and water, to bake until tender, but not broken, and delicious served with custard poured over them.

A glass of hot milk is a cure for temporary insomnia.

Mr. Lennon, in a few words, expressed his thanks for the kindness received. He did not expect any reward, but labored because it was duty. He experienced much pleasure in the work, and expressed a desire that someone might fill the vacancy and work for the Master in that way.

NEPTUNE SWEEP THE JACK POT

Comber Broke Up Game for High Stakes on French Liner and Snatched Victory From Man Who Held Four Sixes.

New York, Jan. 6.—Heretofore the palm for poker playing has been held in the wild and woolly West, the Waldorf-Astoria and the steamboats on the Mississippi. But a new record has been established for the national sport on the French liner "Comber," which came into port from Havre this morning, battered by storm and bespattered with spume.

La Savoie knows no regular retiring hour, and it is as bright in the smoking room at 4 o'clock in the morning as at 4 in the afternoon. All day Friday and all that night the vessel toiled and tossed in the teeth of the howling hurricane.

The game of poker was in progress and played in progress through the worst of the storm. Frenchmen and Americans were in the game, the gay Parisians having become adept in straight, draws, full hands and flushes. One pot was opened for the limit by one of the Frenchmen. When it came to John Francis King of Chicago, who was the heaviest loser in the game, he "bluffed" the bet, everybody stayed in, and when it came to the Frenchman again he saw everybody and went John Francis King the limit better. Mr. King raised the bet again, the Frenchman "boosted." Only three men were left in the pot, King and two Frenchmen, when the call came for cards.

One Frenchman drew two cards, the other three, Mr. King drew one. The smoking room of the La Savoie is on the port side, in the forward part of the ship. King drew the cards, and the green and yellow cards made the table look like a green pasture in autumn. The silence of death hovered about the room. Chips were made without voice. King drew the cards, and the green and yellow cards made the table look like a green pasture in autumn.

King drew the cards, and the green and yellow cards made the table look like a green pasture in autumn. The silence of death hovered about the room. Chips were made without voice. King drew the cards, and the green and yellow cards made the table look like a green pasture in autumn.
