Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, 1

No. 116.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Crowp*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pecastoral* Public *Speakers* find great prooral they subside and disappear.

Singers and Public Speakers and great prosotion from it.

Asthma is always relieved and often wholly

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. For a Cough and Cold, no better remedy can be had. Take small doses three times a day and put the feet in warm water at night, until the disease is broken up.

For Influenca, when it affects the throat or lungs, take the same course. For Influenza, when it affects the throat or lungs, take the same course.
For Whooping Cough, give small doses three or four times a day.
For Croup, give large and frequent doses until the disease is overcome.
No family should be without the Cherry Pectoral on hand to protect them, in case of attack, from the above complaints. Its timely use often spares the patient a great amount of suffering and risk, which he would incur by waiting until he could get other aid. Parents, keep it in your houses for the exigencies that arise. Lives dear to you may be saved by it.
So generally are its virtues known, that we need not publish certificates of them here, or do more than assure the public that the best qualities it ever possessed are strictly maintained.
Prepared by Dr. J. G, Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
