## The Daily Tribune.

ST. JOHN, N. B., JULY 9, 1872.

### New Route for the Canal.

The *Moncton Times* referring to what has recently appeared in *The Tribune* in reference to the feeling in Westmoreland in favor of further surveys for a Canal, says—

"We have worked pretty hard to secure another survey for this canal, and we feel quite confident that it will yet be made, especially if the St. John Press, hisberio apathetic or opposed, will come forward with all the force of its influence to result in securing the subject now or hereafter, now at any time, and we have completed the labor and reported.

As if agitation in favor of a desirable project was over of order; as if the best time for settling and securing the operation of intended candidates for Ottawa was not before a General Election! If the *Times* has received assurances that new surveys will be undertaken, it ought to state the authority and form of these assurances? Do they proceed from the Dominion Government? If not, from what other quarter can they come that will be binding on the Government, once the Elections are passed? The people of Moncton, Dorchester, Memramook, Rockland, and other portions of the County immediately interested should not delay a moment in moving vigorously, or the golden opportunity may be lost to them for ever.

The Elections will be over in six weeks hence. Within two or three months operations will be commenced on the Bay Verte. If the *Times*' advice be taken, nothing will be done until the time arrives when there will be no strong inducement for the politicians to anything.

Official, patrial fish and other obnoxious material are thrown promiscuously under the Fish Market building on Water street, and to the stench from the Duke street Sewer, the odor is positively frightful.

**Postal Facilities for Rockland.**  
The following appeared in the *Telegraph* of the 6th inst., the information having been received from the Inspector of Mails for Rockland are now, we learn, sent to us from Dorchester tri-weekly. The revenue reported to the Inspector is only about \$40, but he is in favor of providing additional postal facilities, etc.

We have received the following reply thereto from R. A. Chapman, Esq., who professes the most unbounded confidence in the postal communication to Rockland, but in yesterday's *Telegraph* 1 we state a statement that is apt to give the public a false impression of the amount of mail received at this place. I send and receive almost daily to and from Dorchester a mail for myself and men in my employ, the postage on which alone amounts to at least double the sum given in the *Telegraph* as total receipts from Rockland. Besides, I know that both the Caladonia and Union Quarry people send much of their mail material to Memramook or Dorchester, and this has been represented to the Hon. Mr. McMillan. I do think that we are entitled to some consideration and should not be obliged to our own mail service when the amount of revenue collected on goods consigned at the Quarries and my yard amounts to thousands of dollars yearly, and the matter of two or three hundred dollars would make all right. I understood Mr. McMillan some time since to say we should have a daily mail for summer and tri-weekly in winter, and I offered to do the work (or have it done) for two thirds what it will cost, for the purpose of getting it established, but have not heard from him since.

I am yours,  
R. H. CHAPMAN.

The policy of the Inspector seems to be to withhold from the Rockland people the mail facilities that would enable the receipt of Rockland, W. O., and then to point to the smallness of the receipts as justification for not increasing the number of mails. Could anything be more stupid, or—if not stupid, unfair? It is high time the shilly-shallying in connexion with this matter was ended. If the Post Office is established for public uses, let those who contribute largely to the revenue receive some benefit from it.

**Amusements.**  
General Tom Thumb and wife, Commodore Nutt and Minnie Ware have returned. They have been absent from America three years and have travelled all over the world, over 55,000 miles. They have netted a handsome fortune.

Steno & Murray's Circus Troupe resumed their wagon leaving Calais July 5th. Dominick Murray has brought out a new play in which he takes the leading part at Wood's Museum, New York. It is called "Escaped from Sing Sing." It is called Bidwell's Dramatic Company, with Dolie Bidwell as star, played at Portland, Me., July 4th.

## Raising Money for Religious Purposes.

AS GOOD AS A BEZAR!

Raising money for Church purposes in China is sometimes attended with no ordinary self-sacrifice. A Buddhist priest who was anxious to raise money for building a Church at Suohai recently went to Shanghai for assistance. The project of erecting the temple had been started ten years previously, but only \$4,000 of the requisite \$15,000 had been raised in the ordinary manner, and it was felt necessary to resort to more energetic measures. Priests were accordingly sent throughout the Province to beg assistance. The priest who was detailed for Shanghai labored for weeks without success. With a devotion more than worthy of the cause he determined to create a sensation, and thus excite interest in his mission. He announced that he would allow himself to be locked up in a wooden box for seven days, during which period he would remain in an upright position without food or sleep. He was accordingly placed in a cage, and the cage was raised five feet high—just sufficiently large to admit him standing upright. The bottom of the cage was strewed with nails so that his feet should have space only to rest on the nails, and a couple of inches of the cage were left for his arms. The naive public were invited to prove the genuineness of the sacrifice by bringing in an ox, a pig, a sheep, or any other animal, and about thirty people brought such offerings. The cage was placed in a temple situated on a great thoroughfare, and the priest was surrounded by a crowd of people passing in and out as spectators. Religious exercises being conducted incessantly by the priest, the strongest sympathy was evoked by his painful incarceration, with remarkable fortitude, the many raised their heads and drank a cup of water, and emerged at the expiration of the seventh day looking like a man who has been in the stocks. His pulse was found to be sixty-four, and was steady, while his skin, though hot, was moist. After his release, his legs were broken up and sold piecemeal to the Chinese, every nail bringing more than its weight in silver. The result of calling forth liberal contributions was obtained, amounting from \$500 to \$1,000, and being freely paid to the Chinese.

**The Water Street Fish Market** has been removed. The market over the mouth of a great sewer is something new in Sanitary matter. The locality is one of the most abominable in the City.

**Ocean Racings.**  
[From the Pall Mall Gazette.]  
The White Star Company has triumphantly established the assertion disputed by their rivals of the Inman line—namely, that their steamship the "Adriatic" has sailed round the world in 100 days. It is a fact, and, as Captain Cattle remarks, the log book of the most renowned of human writings. We presume that, independently of honor, the competing proprietors consider that substantial profit is well involved in the reputation of running the globe in 100 days. **The Political Situation in the States.**  
[From the New York Herald.]  
What, then, is the prospect of this new and extraordinary Presidential contest? The Republicans pretend to despise this new departure of the democrats and their professed standard bearer. The democrats profess the most unbounded confidence in the success of their candidate. They are confident of getting the balance of power from the republican camp, North and South, and that a popular tide is rising which will sweep away the present administration in a glorious victory. ## A Damsel of Music.

The high expectations entertained of Miss Clergy's "Historical Accomplishments" were more than justified by her splendid rendition of the part of "Pauline" in the "Lady of Lyons" last evening. It would be difficult to indicate any respect in which this lady fell short of the conception of the character. The various stages through which Pauline's love for the Prince grew into love for the man, Melotte; the wooing scenes, are also discovered that her lover was not of noble birth; the quiet, the lofty scorn, which she evinced when this revelation broke upon her and she found only the peasant's humble cottage remaining of all her airy castles—anger, haughtiness, repentance, final duty, long cherishing and were all represented with such consummate art, such fidelity to nature as has seldom been witnessed on any stage. Miss Clergy's personal appearance is greatly in her favor, and we have little doubt that her visit to St. John will be a succession of triumphs. Mr. Aldrich's "Paul Melotte" was greatly admired, and at times he fairly divided the applause with the "star." This gentleman seems to be constantly strengthening his position in the good graces of the patrons of the Academy. The part of Madame Deschappelles was taken by Louisa Morse fairly; Mr. McManus' Mons. Bessant was very good; and Mr. Fuller's "Colonel Dams" and Mr. Owen as the landlord were passable. The other characters were badly enough taken. The "house" is said to have been the best of the season.

This evening, Miss Le Clerq appears as "Lady Gay Spenser" in "London. John Bull" and "The House of Commons." It is admirably suited to her style of acting. We hope to see even the fine audience of last night exceed this evening, as it is well thought out and should have the reputation of appearing first class, and the talent admirably suited to her style of acting. **The Fish Market.** Instead of being the cleanest and most attractive of the City Markets, is just the very opposite. It is time we had some improvement.

**That Injurious to the American Flag.**  
A CARD FROM THE MASTER OF THE AMERICAN SCHOONER "JAMES BLISS".  
The following letter from the master of the schooner "James Bliss" is published in the *Editor of the Morning Chronicle*. The remarks regarding an insult said to have been made against the United States flag by the schooner "Stella Marie," who sailed from the port of St. John, N. B., on the 27th inst., are as follows: "I acknowledge that, laboring under the impression that the treaty was void, and all restrictions removed, I was found fishing in Canadian waters. In just to Commander Laclaire, the most honorable and distinguished officer in the United States Navy, I have treated me kindly and like a gentleman, and I have no objection to my name being put in the log book of the schooner. I am, Sir, your obedient servant, JAMES BLISS, Master of schooner 'James Bliss'."

**A Terrible Accident.**  
THREE LITTLE GIRLS BURNED TO DEATH.  
LOVELLVILLE, Ky., July 5.  
Last evening at 7 o'clock, a young man named Norris, while lighting a hall preparatory to a theatrical performance, let a can of oil lamp in the middle of a group of children. The lamp broke, spreading burning oil in every direction and setting the clothing of the children on fire. The fire did not exceed twenty dollars for each child, and the money to go to the funeral of the child, and the other money to her Majesty to form part of the fund for the benefit of that child, and for the benefit of the children of the Indian, and the community at large within my superintendency, to aid and assist in carrying the said law into effect.

**LOCALS.**  
**Personal.**

**The "Sud".**  
It has had a house built on it—a continuation of the deck that traverses the fore part of her. She has now, like all our other steamers, a trawnee deck, and presents a more modernized appearance than formerly. A large number will likely go by her to see the race. She will make the run in a little more than three hours.

A gentleman—a resident of Richibucto— informs us of some good fishing done at Black River, 16 or 18 miles north of Richibucto, by Judge —, some of the fish weighing four to five lbs.

It is reported some heavy betting has been going on. We have been informed of one gentleman who has \$2500 on Fulton. H. M. B. "Bromont" sailed on a fishery protection cruise this morning—to the Digby races!

**The Opera House.**  
An excellent audience greeted Miss Alice Staples last evening. She is a finished artist, and possesses a beautiful soprano, clear, sweet, and well rounded. She sang operatic selections and ballads, and received a large and enthusiastic audience. No doubt a crowded audience will witness this evening. She has only been engaged for two nights at a great expense.

**Mr. McCreedy's Card.**  
Mr. McCreedy's Card to the Electors of King's County is brief and to the point. It is in the following words: "I, James McCreedy, do hereby request the aid of the Electors of King's County, in the election of a member to the House of Assembly, to be held on the 17th inst. I have the honor to be, Sir, your obedient servant, JAMES MCCREEDY, Candidate for the County of King."

**Selling Intoxicating Liquors to Indians.**  
The following is the full text of the "reconstruction" of the Indian Agent against selling liquors to Indians. It is to be hoped that attention will be paid to the law hereof:—  
The attention of the public is called to Section 11, Chapter 42, of the Statutes of Canada, 1868, which is as follows:

"No person shall sell, barter, exchange or give to any Indian man, woman or child, in any manner or way, or procure the same to be done, for any purpose whatsoever;—and if any person so barter, exchange or give to any Indian man, woman or child as aforesaid, or causes the same to be done, he shall be deemed to be guilty of an offence, and shall be liable to a fine not exceeding twenty dollars for each offence, or to imprisonment for one month, or to both such fine and imprisonment, at the discretion of the court or Magistrate, and the other money to her Majesty to form part of the fund for the benefit of that child, and for the benefit of the children of the Indian, and the community at large within my superintendency, to aid and assist in carrying the said law into effect."

And whereas the said law has been violated in many instances, I do hereby respectfully request all Magistrates and persons in authority, and any other person who has the welfare of the Indian, and the community at large within my superintendency, to aid and assist in carrying the said law into effect.
