

## TURKISH REFUGEES' STORIES

There is a Shortage of Food, and Government Resources Are at a Low Ebb.

A despatch from Rome says: A correspondent of the Idea Nazionale, telegraphing from Dedeagach, gives a terrible picture of prevailing conditions in Turkey, which he evidently obtained from refugees from Constantinople arriving on the Bulgarian frontier.

The troops, he declares, are short of both food and ammunition, the army is ravaged with typhus and there is an appalling increase in the number of sick. The shortage of coal, too, is pronounced, and the scarcity of fuel is responsible for the immobilizing of the Turkish fleet, which no longer able to take the offensive, is now anchored in the Sea of Marmara.

Talaat Bey, he continues, produces each day for the edification of the population glowing accounts of victories on land and sea obtained over France, England and Russia, but the number of sick and wounded arriving in the capital tells other tales. The houses of Christians, especially Greeks in the Phanar quarter, have been sacked by mobs, often with the connivance of the police. Christians attempting to flee from the capital are set upon, robbed and maltreated by the Turkish officials and soldiers. The authorities wink at these outrages and encourage their perpetration in order to keep alive the flame of hatred of the Moslems against the Christian allies.

## NEAR THE HEAD OF LAKE GARDA

Italians Occupy Mori on the Western Side of the Trentino.

A despatch from Rome says: Italian troops have occupied Mori on the railroad from Rovereto to Arco and Riva, important towns at the head of Lake Garda. As there is only one railroad in this section the fall of Arco and Riva before the Italians invading the Trentino from the western side is believed to be only a question of a few days. Mori is about five miles south of Rovereto, the objective of a strong Italian movement, but the road to that place is fortified to such an extent that it will be a hard task for the Italians to force the Austrian defenses.

Fierce fighting in the Monte Nero zone, north of Tolmina, on the Isonzo front, is reported in an official report from Gen. Cadorna, the chief of staff, issued by the War Department. The Alpine troops are giving a good account of themselves in this region, using mountain paths unknown to the enemy, and falling unawares on the strongly fortified Austrian

trenches. Almost all of this region is now in the hands of the Italians. A daring raid by an Italian airship on a railroad station eight miles into the interior from Trieste is reported in an official announcement, which says: "An Italian dirigible passing over the enemy's entrenched camps threw high explosive bombs on Divazza railway centre. Notwithstanding the enemy's intense fire the dirigible returned undamaged."

Divazza is on the railway from Laibach, the Austrian headquarters, to Trieste. It is 70 miles from the coast of the Adriatic. A despatch from Verona, the Italian headquarters for the Trentino operations, says that among the prisoners recently taken in the Lago di Misurina district was a Bavarian, which is taken to indicate that German troops are aiding the Austrian forces.

ENQUIRIES ABOUT PENSIONS. Should be Addressed to President of the Board at Ottawa.

A despatch from Ottawa says: A statement from the Militia Department is to the effect that enquiries in regard to pensions should be addressed to the president of the Pensions Board in Ottawa, as that officer is in a position to give prompt information in regard to such matters.

## FRENCH GAINS AT SIX POINTS

Army of 200,000 Germans Hurdled Attacks Against the Allied Lines.

A despatch from Paris says: The heaviest fighting of many weeks is reported by the French War Office. In the north, between Souchez and Neuville, the fighting has been furious. On this front the Germans arrayed an army of 200,000 men, with heavy reserves in the rear, drove forward against the French in a desperate effort to regain the ground lost during the last few days. Repeated attacks were hurled back by the French forces, which, striking quickly while the Germans were in confusion, pressed forward making important gains on three sides of Souchez, and advancing in three directions from Neuville. The French batteries during a fierce battle of 24 hours fired nearly 300,000 shells, while the Germans used probably no fewer.

The death toll in the face of such artillery work has necessarily been very large. The French War Office admits that the French losses have been serious. It asserts, however, that the German casualties have been even greater. In spite of this fact the spirit and morale of the French troops is said to be excellent.

More than 1,000 German prisoners have been made during the struggle—500 on the Souchez-Neuville front and 500 in the Vosges.

In the Vosges, Altenhof, a suburb of Metz, has fallen into French hands. Metz, a little to the north of Metz, has fallen into French hands after a furious assault. It would appear that Souchez, north of Arras, and Metz, in the Vosges, are doomed to fall into French hands. The new positions won about Souchez will give the French batteries clean sweep toward the German positions in the town, and the same is true respecting Metz.

## BOARDS TO REPORT ON PENSION CLAIMS

Medical Men Will Be Appointed in Every Military Division of Canada.

A despatch from Ottawa says: Boards of medical men are to be appointed in every military division of Canada in connection with the granting of pensions to wounded soldiers or the families of those killed on active service. Already between 300 and 350 pensions have been granted, most of them being for the families of dead soldiers. It is already apparent that the sum of \$2,000,000 set aside for pensions this year will be quite insufficient for the purpose. If more is needed before another session of Parliament it may be obtained by Governor-General's warrant.

The establishment of medical boards in the different divisions will materially assist in the work of paying pensions, which is expected to reach large proportions. Reports will be sent from these medical boards to the pensions board in Ottawa, which will then pass on each case.

When a man is temporarily incapacitated the practice so far has been to pay him his regular active service pay until he recovers. Where it is evident, however, that the injury will outlast the war, the man is put on the pension list at once.

The problem of caring for convalescents is expected to prove one of the heaviest burdens of the war, and action will shortly be taken to deal specially with it.

## FIGHTING STRENGTH OF ENEMY

Nearly Four Million German and Austrian Soldiers Permanently Out of the Field.

A despatch from London says: Hilaire Belloc, the military expert, estimates that the German and Austrian losses up to the present total nearer four million men than three million men. He bases this calculation on a careful analysis of the figures of the British casualties given by Premier Asquith in the Commons. Those figures, he points out, show one-fifth of a total of 258,000 are dead. The total British casualties, therefore, work out five to one for each life lost. The total enemy losses he estimates at six to one per man killed. Basing this multiple of calculation their losses have been greater than those of the allies. Mr. Belloc believes this multiple is low, for the German lists of killed are belated

and the Austrians lost enormously more in proportion in prisoners than the British. To the Prussian lists of killed must be added rather less than one-fifth for non-Prussian lists of the German Empire and further 80 per cent. for Austria and Hungary. Multiplying these by six, Mr. Belloc arrives at 3,250,000 enemy casualties before the great Galician effort. This, according to his estimate, cannot count for less than half a million; this makes a grand total of three and three-quarter millions permanently out of the field. "The enemy's potential manhood for actual fighting within the first year," Mr. Belloc concludes, "has probably been diminished by nearly one-half from all causes."
