The next shift is for a combination railway and carriage bridge instead of two separate swing bridges for the G. T. R. stationary bridge is tolerated only till the barrier of the roadway bridge is

The secretary of the National
Council of the Y. M. C. A. addressed council re. a grant for oversea work, briefly and to the point. H was accompanied by Mr. Geo. Wil iamson of Brantford. This and allied appeals were referred to the committee of the whole.

The County Constabulary Some discussion on the lack of a county constabulary arose out of suggestions from the clerk for the apcointment of an inspector of licenses dation for the wards of the children's

It was suggested that a well organized county constabulary and a sympathetic community effort in placing wards in foster homes, would discipline those who evaded paying licenses and would relieve the present congestion at the shelter. There was apparently an atmosphere of Sundries
