THE CORONATION

Principals in the Ceremony Were

Rich in Material Things But Poer in Spiritual Things.

Presentations of Reports From Colleges-Men Are Scarce.

Proceedings of the Presbyterian Assembly at Ottawa.

Ottawa despatch -- "The old Scotland of our formathers is no more. A new Scotland has arisen-a Scotland shorn of so much of its spiritual power and Divine energy. And what has happened to the home of our forefathers is hapg to the home of their children. Strange, strong words, spoken to the ighest court of the Auld Kirk in anada, listened to by a great body of highest silent, sympathetic men. But Rev. Dr. Dickson, Galt, proceeded,

and now his tones rang: "Is there hope for Scotland? Just the same hope as there is for Canada. Let us get away from the gnawing canker of worldliness and materialism and tie up again to the Lord. You ministers on the Lord's Day, Lord. You ministers on the Lord's Day, you parents in the hofher do you always have the whitened fields before you? Do you always remember to ask God to tirust men out into the harvest?"

It was a profoundly impressive scene at the sitting of the General Assembly this afternoon. The statistical report of Rev. Dr. Somerville had demonstrated that never before in its long history had the Presbyterian Church nistory had the Presbyterian Charren reached the financial status attained during the past year. All along the line there had been material impetus. Sal-aries had increased by \$84,986, the value of Church property had bounded by over That the propaganda of the last few years was bearing fruit in an in-creased number of students entering for the ministry, was the statement of Principal A. Gandier, in presenting the report of Knox College, Toronto. There is a small surplus from last year. This, however, must be applied to the reduction of the large deficit which has been the result of shortages in former years, amounting to \$11,220. The en-dowment fund now amounts to \$318.-641.27, and the revenue produced by it for the past year has been \$13,869. The smallest number of graduates in theology ever recorded in Queen's Uni-versity was reported by Principal Gor-don. There had been five, but the grad-uating class dwindled down to three. \$68475 had been the ad. two million two millions, \$05,845 had been the ad-vance in gifts to missions, the total given for all purposes had increased nearly half a million, reaching a total of \$4, 506,834, an increase of over ten per cent, within the year. And yet the Clerk of the Assembly added frankly: "We have to report that the energy and strength of the Church has been expended in the line of increases given, rather than in the line of increase on the spiritual

Rev. Dr. Somerville, in connection with his report, pointed out that in the West, great difficulty was encountered in securing accurate figures. There were so many chauges, both in ministers, mis-sionaries and congregations that reports could not be obtained from a great num-ber of them. There should, however, be more attention to this. The General more attention to this. The General Assembly was entitled to know these statistics, and in cases where it was mak ing grants for missionaries it surely was entitled to know whether five or twentyunnecessary duplication of mis ary effort and the appearance of five families were being served. Any missionary who failed to make this re-port should be called upon to explain. It was very unfair to the church, for with these large numbers of members unrethe churches concerned. ported, it makes the membership of the entire church much smaller than it really

There was considerable discussion over immigration as it affected the stat istics and Rev. Dr. Love, of Quebec, maintained that there must be a very considerable shortage in the total num-

bers. He assists in receiving immigrants on their arrival in Quebec and he in stanced two ships he met last week. Or one there were 1.350 immigrants, of which about 1.075 were Presbyterians, On the other there were 1,400 or 1,500 of which 1.250 were Presbyterians. "This has been going on all spring," he said.

NEWS OF THE nora. Principal Scrimger, of the Montreal College, reported that out of 80 stu-dents enrolled, 20 were in theology.) The college had made a special ef-fort to get students for the ministry, and had been successful. The or-dinary revenue for the year has a little more than covered the expen-diture; but there is an accumulated deficit from the two preceding years diture; but there is an accumulated deficit from the two preceding years of \$3,825.93, and with the completion of the staff about \$3,000 of addi-tional revenue will be required an-nually for the future. The congre-gational contributions have this year abounted to \$3,536.94, an increase of \$401.43 over the previous year. It is hoped that the revenue from this source may be increased still further in future years. The sum of \$7.-Canadian Lumbermen Buy White Drayton Man Appointed High Constable in future years. The sum of \$7, 334.49 had been added to the Endow-ment Fund, and the efforts to in-crease this fund are still being con-tinued among the friends of the in-citivation.

That something like an adequate salary for ministers must be provid-ed if good men are to be secured was the outspoken statement of Principal A. Patrick, who presented the report of the Manitoba College, Winnipeg. There was a great need for men in the ministry, the highest of all vocations. But to get the best men the Church had to provide what it was not now doing, something like an adequate sti-pend for ministers. The intellectual standard of the ministry should be maintained and raised, but what was just as much needed was the spirit-ual inspiration and personal devotion. Rev. Dr. W. T. Henridge, Ottawa, in moving the adoption of the report, re-ferred to the fact that of the students in Manitoba College, very few came something like an adequate The electrical workers in Toronto breaten to strike.
