

TIDINGS FROM NATURE is a capital little magazine for young amateur scientists and extremely cheap. The April no. is the 8th number. Monthly, only 40 cents a year. Published in Rutland, Vermont.

SYSTEMATIC MINERAL RECORD by Edward M. Shepard, A. M., Professor of Biology and Geology, Drury College, Springfield, M. J.

A useful little book of 100 pages, furnishing a valuable assistance to the student of mineralogy. In the study of any department of science it is of the utmost importance that the student should record in a form convenient for ready reference the results of his observation. In the case of mineralogy a set of analytical tables like the RECORD is almost indispensable.

The Bulletin of the NATURAL HISTORY SOCIETY OF NEW BRUNSWICK, No. IV. is at hand and comes up to the standard of excellence hitherto maintained by the reports of this Society. Following are the chief articles:—'Ethics of law,' by the President; 'Preliminary list of the plants of New Brunswick,' by Prof. James Fowler, M. A.; 'The geology of Fredericton,' by W. T. L. Reed; 'The Invertebrates of Passamaquoddy Bay,' by W. F. Ganong, B. A.; 'Recent discoveries in the St. John Group,' by G. F. Matthews, M. A.

The North American Review concludes its seventieth year with its June number. It never had so large a circulation, nor greater influence, nor a more brilliant staff of contributors. This number discusses seven topics of vital public interest by no less than fourteen eminent writers, not including the short contributions in "Comments." "Shall Silver be Demonetized?" is answered, pro and con, by three distinguished economists, Sumner, Laughlin and Walker, representing Yale and Harvard Colleges, and the Massachusetts Institute of Technology. "The Tardiness of Justice" is discussed by Judge W. L. Learned, and "Prohibition in Politics" by Gail Hamilton; "The Swearing Habit," by E. P. Whipple, and "French Spoilation Claims" by Edward Everett. The policy of the Roman Catholic hierarchy toward our Public Schools is assailed in a learned essay by a new polemic, Mr. M. C. O'Byrne, of North Carolina, and defended by Bishop Keane, of Virginia, with equal erudition. It is a most interesting double presentation of an impending issue. "How shall Women Dress?" is answered by Charles Dudley Warner, Elizabeth Phelps, Dr. W. A. Hammond, Dr. Kate J. Jackson, and Mrs E. M. King, the English leader of the dress reform movement.
