THE CANADA BRICK MACHINE.

Patented 1868.

MEDAL and DIPLOMA awarded at the Provincial
 Exhibition, Montreal, 1868

THIS Machine will mould 15,000 Bricks
PER DAY, with the attendance of one man to
 put in the Clay, one man or smart boy to attend to
 the Moulds, three strong boys to wheel off the Bricks
 and hack them up, and a small boy to sand the
 pallets.

To make SLOP BRICKS, less attendance than the
 above will be required.

By an alteration in the relative speed of the pistons
 and crown wheel, it will mould

30,000 BRICKS PER DAY

The Clay can be moulded stiffer than by ordinary
 Machines, and the great pressure applied gives more
 solidity and strength to the Bricks. They also retain
 their shape, and dry much quicker.

This Machine is inexpensive and simple, and is
 adapted for either steam or horse power.

If a stone or other obstruction prevents the Moulds
 from moving forward, the Machine will not get out of
 order, but regulates itself.

Provision is made for giving the pressure required
 for soft or for stiff Clay.

The corners are always well filled, and the Bricks
 turned out will all be fit for front work.

It is undoubtedly the most perfect and suitable Ma-
 chine for making Bricks yet introduced into use.

NINE of these Machines worked by steam, and
 TWO by horse power can be seen in actual operation
 at the Steam Brick Manufacturing Establishment of
 the undersigned, head of Fullum Street, Montreal.

The **CANADA AUTOMATIC BRICK MAKING**
MACHINE is manufactured and for sale (with the
 right of using it) by the Patentees.

EXCLUSIVE application is given to the
 COMMISSION BUSINESS, and personal atten-
 tion bestowed on each transaction. The utmost
 promptness in sales and returns is uniformly observed.
 The lowest scale of Commissions consistent with re-
 sponsibility is adopted, and due care taken to avoid in-
 cidental charges when practical. Consignments are kept
 regularly advised by letter, circular and telegram, of
 all matters of commercial interest. Consignments
 designed for sale in any of the several British or
 American markets will be forwarded to strictly re-
 liable agents, and advances granted without expense
 beyond actual outlay.
