ORIENTATION

ISSUE

# This University Belongs to the Students

We need people who care about what's happening at our university.  
 We need people who are probing and opinionated.  
 We need people who give a damn about this university.  
 We need people who think the system here at York is wrong and should be changed.  
 We need people who think we're not getting a good education.  
 We need people who feel the faculty is ignoring us.  
 We need people who want administration changes.  
 We want change.

*Excalibur, October 10, 1988*
