

anxious to obtain a title to the property, that she may
sell it, that with the proceeds, she may be assisted to
support and educate them. 41549

It seems to me that as the sale
of the Lot in question is liable to be Cancelled at any time
on account of the Non-payment of Arrears - this would be
an easy way of quieting the title, and one by which no in-
justice could possibly be done, as the woman has already in
the support of the Children alone, paid, many times over, the
value of the property - Equity would say that her request
should be granted. By referring the matter to the Court
it would cost, probably, quite as much as the whole property
is worth.

The Honorable Alexander Vidal, sometime ago
spoke to me about the matter. He thinks very decidedly that a
Patent in favor of the poor woman should be issued on her
paying the balance due on the lot. She would then be assisted
in some measure to support the Children, who have been
a very heavy burden upon her. Mr. Vidal also urged
me again to write to the Department, being satisfied,
as he said, that on a re-consideration of the Case, the
request of the woman would be granted.

I have the honor to be

Sir,
Yours Obedt. Servant

Chenyer Watson
Sd. Supt.
