POINTS TO BE NOTED

The Conference is called by and will be held under the direction of the **National Reform Association**, an organization composed of tens of thousands of Christian patriots of every name.

Christian men and women from all parts of the world are invited and expected to attend.

Christian and civic organizations of every denomination and character are urged to appoint and send delegates.

Representatives from forty-six nations and many states have already been appointed to this Conference.

The Conference is already an assured success. Its scope—world-wide—and the present-day need for a Christian Conference in the interests of civic world reconstruction, insure this.

The city of Pittsburgh, U. S. A., is to be host for the Conference.

A committee of over one hundred of Pittsburgh's leading business and professional men has the local arrangements in charge. They have opened headquarters on the first floor of the Union Arcade, Pittsburgh's greatest office building.

The largest auditoriums in Pittsburgh are to be utilized for the various sectional and other simultaneous conferences to be held daily for the eight consecutive days this World Assembly is to be in session, November 9-16, 1919—Armistice Week.
