

A Young Lady Transformed!

All the charm of Girlhood restored.

This is only one of hundreds of cases in which "Fruit-a-tives" changed Pale, Sallow Skin into the Rosy Bloom of Health.

Too many women have sallow skin—bad complexions—dark circles under the eyes—headaches—backaches—sick stomachs.

Too few women have the robust health and rosy bloom of girlhood—that "Fruit-a-tives" preserve.

Some women don't realize how surely Constipation undermines the health and brings premature old age.

The intestines do two things—give up nourishment to the blood—and carry off waste matter.

But—If Constipation keeps the waste IN the intestines, the blood takes up poison instead of nutriment.

It is this waste—carried all over the system by the blood—that causes Heartburn, Sour Stomach, Indigestion, Bad Breath, Headaches, Backaches, Sallow Skin, Pimples, Paleless and Thinness.

The woman who wants—
—a fine complexion
—to be free of headaches and backaches
—to eat well, sleep well and look well
—to feel well ALL THE TIME
can have her wish if she takes "Fruit-a-tives."

Miss Jamison tells how she found the happiness of health in

Fruit-a-tives

or Fruit Liver Tablets.

MASON, P. Q., Nov. 16th, 1904.
Fruit-a-tives Limited,
Ottawa, Ont.

Gentlemen—
I have much pleasure in reporting to you the great benefit I have received from taking "Fruit-a-tives"—and I feel that I cannot say too much in favor of a medicine which has done me so much good. I was a martyr to that distressing complaint, Chronic Constipation, accompanied by severe headaches, backache, sick stomach and all the symptoms of dyspepsia. I had also a dreadful complexion, sallow in the extreme and black under the eyes. I had every symptom of kidney irritation and I had been told by physicians that my kidneys were affected. I consulted a number of physicians and took various remedies but received very little benefit. Last May I was advised to try "Fruit-a-tives" and when I began to take them I had little faith of getting anything to give me permanent relief, but after I had taken half a box, the constipation was relieved, the headaches left me, the pain in my back was better and I could sleep as soundly as when I was a child. Also, my complexion began to clear up again, all the sallowness disappeared

and the black circles under my eyes went away. The pain in the back gradually left me and all signs of kidney disease disappeared by the first of August after I had taken three boxes. Since then I have continued to improve and now I have none of my old symptoms and my appetite is good, digestion splendid and my complexion as clear as when I was a young girl. Also the constipation from which I had suffered so long has been entirely cured and it is not necessary for me to take the "Fruit-a-tives" now as I am quite well in every way. I took no medicine but "Fruit-a-tives" but I followed faithfully the directions as to diet etc. given in the pamphlet which accompanies each box of "Fruit-a-tives."

To all persons suffering from constipation and indigestion, headache and backache, and particularly those with sallow complexion, I would strongly recommend them to try "Fruit-a-tives" and faithfully carry out the directions in the pamphlet, and feel certain they will find this medicine simply marvelous. "Fruit-a-tives" is very mild and non-irritating, no griping is felt and the stomach is sweetened by taking them.

[Signed] FLORENCE JAMISON.

"Fruit-a-tives" are NOT cathartics. They contain NO calomel, jalap, cascara, "oil," or "salts."

"Fruit-a-tives" are fruit juices in tablet form.

They are a discovery that deserves to rank with anaesthetics and vaccine.

"Fruit-a-tives" are a tonic for the bowels. They tone up the intestines, make them move regularly and naturally.

SOME FREAK STAMPS

ERRORS THAT CAUSE PHILATELISTS TO JUMP FOR JOY.

The Cause Among Collectors For the Possession of Samples of Blunders Made by Uncle Sam's Bureau of Engraving and Printing.

About the only freaks of great value manufactured by the government are misprinted postage stamps, the value of one of these sometimes running up into the thousands. There is nothing more dear to the collector than these errors in printing, and, too, there is nothing which causes a tornado of trouble quicker in the bureau of engraving and printing. An error is generally a costly thing in this department. It means that whoever is responsible for the mistake must get out and hunt another job. The work is too important to permit of carelessness. An error produces a freak stamp, but it also produces a vacancy, often more, in the ranks of the employees of the department. But the collector, the philatelist, is happy, for he gets a prize of the first water.

Any and every thing in the way of a stamp which varies a hair's breadth from the correct design is a freak, and there is always a heated race by the stamp fends to secure one of these. Usually these errors, and they are not made often, are detected before many of the stamps are put in circulation, and when only a few get out the collectors are ready to pay fancy prices for one of the prizes. Some few collectors labor under the impression that "every man has his price," and the sum of \$20,000 was offered the head of the bureau a few years ago if he would have issued a half dozen sheets of two cent errors. Of course no consideration whatever was given to the proposition, and the get rich quick philatelist saw his plans miscarry.

Some very valuable freak stamps were issued in 1890, when a series of stamps was issued in colors. The series comprised denominations from one cent to 90 cents. The 15, 24, 30 and 90 cents were printed in two colors. On these the central picture was printed inverted, and the error was detected. Today any of these freaks will bring from \$500 to \$800 each.

The freak two cent pan-American series of stamps which turned up in Buffalo, N. Y., in the year of the Buffalo City exposition, 1901, are now rated at \$35 each. Only a few of these got in circulation before it was discovered that the railroad train in the center of the stamp was upside down. It is likely that thousands would have been sold had not a gentleman who had purchased ten stamps discovered the error and forthwith wrote the bureau of engraving and printing notifying the officers. He doubtless thought he was doing a good service for the government, and doubtless he was, but the stamp collectors denounce him as a chump of the rankest type. The gentleman gave away several of the stamps he had bought. While a large number of the stamps with the inverted train of cars were sold before the error was detected, there are only six of these freaks which can be accounted for, the other stamps having perhaps served their purpose without being discovered as belonging to the valuable freak family. It is altogether reasonable to suppose that the stamps were affixed to letters and the envelopes destroyed. If any sheet of error stamps other than that sent to the Buffalo office was ever sent out, the fact has never been known at the bureau, and it is not likely that the market will ever be glutted with this freak stamp.

During the winter of 1890 a sheet of the ordinary one cent stamps, with the word "Gum" printed across the face, slipped through with "Gum" upside down. These stamps were printed for the use of the island, and collectors have searched far and near for them. Only a few have been secured by the collectors, and they bring high prices. The people of Guam know but little about the value set on such freaks by the stamp collectors.

Back in the seventies, when the government used its own distinctive set of stamps for the several departments, an error was made by the bank note company which then held the contract for making the stamps. The regular color adopted by the navy department was blue. A sheet of the two cent denomination was printed in green, and the freak has now a market value of about \$45 each. The genuine, in blue, is worth twenty times its face value.

One collector was fortunate enough to corner the market by getting possession of a sheet of four cent stamps of the Columbian series which was printed by mistake in steel blue when its right color should have been ultramarine blue. He got it at its face value, and when he wants to dispose of one he can readily get \$35.

There are a number of other valuable freak stamps, but the errors of the bureau of engraving and printing have been remarkably few, considering the immense number of sheets of stamps turned out every year. Each sheet after being printed, passes through a dozen or more hands before it is ready for the stock vault, and inspectors and counters are always on the lookout for errors in printing.

The former made a feeling reply. We wish

WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked by Male Physicians.

Mme. Alfred Arcand Zula Ecolson

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women.

Is it any wonder, then, that women continue to suffer, and that doctors fail to cure female diseases when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them, than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters received by her prove. Many such grateful letters as the following are constantly pouring in.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.
