THE CRUX OF AUTONOMY

Debate Now Down to Education Clauses and Date-Fixing.

Edmonton Chosen As the Temporary Capital of Alberta—Lands and Minerals in the New Province to Remain in the Control of the Dominion Authorities—Mr. Borden's Wisdom and Alertness.

Ottawa, June 28.—Yesterday's proceedings in the House began with the introduction of the Government's bill on the introduction of Hon. Charles Ryan and George Smith of North Oxford. They were led in between the Prime Minister and the Minister of Customs. The sitting was devoted mainly to discussion of the subject of cold storage introduced by Mr. Armstrong of Lambton, and spoken to at great length by the Minister of Agriculture.

Mr. Preston introduced a bill to provide for the regulation of wireless telegraphy in Canada, a reprint of the act passed in the British Parliament last year. It was read a first time.

Mr. Borden suggested that Mr. Logan's bill to prevent false representations to induce immigrants to come to Canada, and the bill of Mr. Guthrie to amend the criminal code, be put on the list of Government orders in order that they may be at least considered this session. Sir Wilfrid Laurier promised to take the suggestion into consideration.

Mr. Foster brought up the half-breed scrip deal. In reply, Sir Wilfrid Laurier said the allegations of fraud upon the half-breeds were specific and an investigation had been ordered, whereas those of Chaffee were indefinite. Will Confer With Mr. Borden.

Mr. Borden drew attention to a despatch referring to the Government's ten-year contracts with the North Atlantic Transportation Co. of Amsterdam for the bringing of immigrants to Canada at so much per head. Had the Government been dickered to bring out a certain Russian sect known as the Molokans? Mr. Oliver declared that was the first he had heard of the Molokans, and Mr. Fielding said it was his intention to confer with the leader of the Opposition as to making public the Government's contract with the Amsterdam company.

Edmonton Temporary Capital. In Committee on the autonomy bill, several of the non-contentious clauses were passed. On clause 8, fixing Edmonton as the temporary capital of Alberta, McCarthy protested and was ordered to sit down. He was supported by Lake of Qu'Appelle. Oliver and Scott favored Edmonton and the clause carried.

On the land clause, Lake moved that the lands and minerals be entrusted to the Province, and was supported by Fowler and McCarthy, who protested that the only reason for the Government retaining control was to keep in employment the army of Dominion officials now in the country. The clause carried, as did also the schedule of constituencies as amended.

All Over But Two Clauses. Mr. Fitzpatrick said that this disposal of the autonomy bill, with the exception of clauses 2 and 14, dealing with education, and clause 35 fixing the date on which the act shall come into force. These will be taken up first thing to-day.

C. P. R. Defeated. Ottawa, June 28.—The Victoria, Vancouver and Eastern Railway bill was again called at the Railway Committee yesterday. This was the sixth day which it was up for discussion. After a long discussion, the bill was reported on a vote of 74 to 66.

Killed at Level Crossing. Berlin, June 27.—Charles Schaefer, a well-known citizen of this town, was struck and instantly killed by a Grand Trunk freight train at midnight Monday. He was on his way home and was crossing the track at Avenue street when the accident occurred. Deceased was about 60 years old and leaves a family.

Suspicion of Foul Play. Chatham, June 28.—Coroner Bray yesterday morning decided to hold an inquest in connection with the drowning of Peter Clapperton, the man found in the river here Monday morning. The inquest, which will be held on Friday evening, was thought necessary because suspicions of foul play have arisen.

Would Rather Leave Canada. Winnipeg, June 28.—J. A. Bangs, the Calgary lawyer convicted in June last of being receiver of moneys stolen from the mails by Clerk Wilcox, was released from custody yesterday upon condition that he at once leave Canada. Bangs was sentenced to 18 months' imprisonment, and only had six months more to serve.

CAPT. TURNER

NOW MANAGER

Appointed as Head of the Kingston Branch of the Standard Bank

His Departure a Great Loss to Chatham—Good Work in the Regiment and Board of Trade.

Capt. J. S. Turner, assistant manager of the Standard Bank here, has received the appointment as manager of the Kingston Branch and will leave to assume his new duties about the end of this week.

While his Maple City friends are extending hearty congratulations upon the splendid appointment, there is much regret that Captain Turner is leaving the city. Few young men are as highly esteemed and none will be missed more.

Capt. Turner has been connected with the Standard Bank here for the past twelve and a half years, the last eighteen months of which he has been assistant manager of the branch. He has won for himself the confidence and admiration of the whole community and his place will be a very difficult one to fill.

As a citizen he was foremost in every move for progress and advancement. His position as a member of the Council of the city Board of Trade brought him into close touch with civic industrial conditions and he is ever a leader in all movements for the public weal and betterment.

Capt. Turner is one of the moving spirits in the building of the 24th Regiment, where his departure will be deeply felt. As commanding officer of D Company he is very popular with his men and admired by his brother officers, and much of the exceptional success of the Regiment has been largely due to his splendid efforts. His departure will mean a severe loss to the 24th.

To his new sphere of usefulness Capt. Turner will carry with him the most ardent good wishes of the whole community.

MORPETH HOUSE
In Consequence of Thorough Overhauling and Improvement Licence has been Granted

That the East Kent License Commissioners are generally in earnest in their efforts to raise the standard of hotels is evidenced by the improvement and increased equipment being added to the house at Morpeth, which was yesterday allowed on these special conditions and the assurance that in future hotel will be kept in the fullest sense of the word.

Throughout the whole district the improvement reports that a wonderful improvement is noted in the condition of all licensed places and the East Kent Commissioners are to be congratulated on the results achieved.

The Anderson Hotel, of Ridgeway, was transferred from H. W. Fursell to Wm. Merrifield.

ACT NOW
The Council Should Immediately Pass a By-Law Prohibiting Dogs From Running at Large.

"I am glad to see The Planet is conducting a campaign against dogs running at large in the city," said a North Chatham Resident this morning. "Dogs are becoming a nuisance in Chatham, and when the City Council bring in that by-law that Ald. Bell spoke of prohibiting the nuisance, they should make it good and strong."

"There is a lady on Joseph street who had a couple of visitors on Sunday, and all day long there were three dogs around her house, running out and barking at every person who passed along the street."

"In the evening I saw another little dog around the same place, and when a little girl came out on the street it ran up to her. The little child put out her hand to pet the animal and received a nip on her hand, which sent the little girl home crying. Fortunately, no blood was raised, but it goes to show that if there happened to be any mad dogs in Chatham, pedestrians would not be safe from their attacks. Now is the time to act before we have a case like the one London is experiencing."

MISSIONER OF EMPIRE

Mr. Chamberlain Talks to C.M.A. Tourists in His Home City.

An Imperial Re-Union—A Self-Contained Empire Dream of "the Greatest Living Statesman"—To This End "Sentiment Must Be Organized and Consolidated"—We Dare Not Face Separation," is His Message.

Birmingham, June 28.—(C. A. P.)—The Canadian Manufacturers' Association had a great reception at Birmingham yesterday. Wherever they went crowds watched them. They were received at the Town Hall by the Mayor. Mr. W. K. George, replying to the hearty welcome, complimented Birmingham on having produced the greatest living statesman. Speaking on behalf of the Canadian manufacturers, he vowed that they were a unit in favor of Mr. Chamberlain's policy.

Afterwards the whole party were entertained at a luncheon by Mr. Chamberlain. Mr. J. J. Collins, who presided, said that if Mr. Chamberlain's ideas could be carried out they would weld the Empire together.

Mr. Chamberlain's Address. Mr. Chamberlain was received with tremendous applause, the whole audience rising and cheering. He said he attached the greatest possible importance to the visit. It was necessary to get a perfect understanding. He commented on the great opening which Canada offered for the redundant population which the Mother Country exported. The Canadian Manufacturers' Association should make the people of the Mother Country acquainted with the conditions in Canada. Referring to the Colonial conference, he said it must be held without any restrictions, what ever. Closer union with the Colonies was the greatest issue now. The question was whether we shall be able to maintain the relation. There are no colonies now in the old sense, but sister States. The great question was to weld together diverse interests for the common good. This was the greatest question since the beginning.

Our Loyalty Not Doubted. The Canadian Manufacturers' Association should speak on such a question. There was no reason why their mouths should be closed on a question which concerned the Empire as a whole. Were they as business men satisfied with the relations of the present time? Were they certain that they provided for the future? In spite of contemptible criticism, he never doubted the loyalty of Canadians. Sentiment, the ties of blood, language and law were slender, but surely not might not this in a great crisis prove insufficient? (Some cries of "No.") Sentiment must be organized and consolidated. They could not dare to face the possibilities of separation.

Opposed to a Treaty. United, no man shall make us afraid. Empires are not made in a day. If they advanced one step in the direction of his policy it would be a step for the peace and prosperity of the world. Sir Wilfrid Laurier offered to make a treaty with the Mother Country, a mutual Empire was the fundamental principle of his plan. Only its friends should recognize the difficulties in the way. He could not expect Canada to make a treaty by mortgage its future. The question should be fully discussed by the whole people, and he thought the Mother Country should be treated a little better than its competitor. The question should be fully debated by the people of both countries. He hoped the Canadian manufacturers, as business men and patriots, would help to explain away some of the prejudices on this side.

A Self-Contained Empire. The Empire could produce everything required in the way of luxuries and necessities. A self-contained Empire would be unique in the world's history. "Are you," he said in conclusion, "going to allow the great sceptre of the great Dominion to fall from power in able hands?"

AN IMPORTANT JUDGMENT. Light Co. Must Put Wires Underground Or Be Liable for Damages.

Montreal, June 28.—The Court of Review yesterday morning gave a very important judgment in a case against the Montreal Light, Heat & Power Co. Last year a man named Curde, operating a derrick, struck a live wire and was killed. Another ran to his rescue and was killed. Another ran to his rescue and was killed. A third ran to his rescue and was killed. A fourth ran to his rescue and was killed. A fifth ran to his rescue and was killed. A sixth ran to his rescue and was killed. A seventh ran to his rescue and was killed. An eighth ran to his rescue and was killed. A ninth ran to his rescue and was killed. A tenth ran to his rescue and was killed.

The Court of Review replied to this that any powers obtained from the Government were subordinate to the civil law, that special law or no special law the company must take the best way to avoid accidents with its wires, which was to put them underground. They therefore upheld the judgment for the full amount.

Druggist Was Fined. Brockville, June 28.—Under the new license inspector for Brockville, more convictions have been obtained for violations of the Liquor Act than for some years previous. Two fines were paid into the Police Court yesterday. One of the delinquents was a druggist charged with selling whiskey without a license. He paid a fine of \$50 and costs. The cases of two hotelkeepers will come up later in the week.

TOOTH BRUSHES

EXTRAORDINARY SALE

See them in our corner case outside. 10 cents each, sold regularly at 20 and 25 cents by retail dealers. We bought an immense lot and will sell your choice this week at

BASEBALL REVIVED

Dutton Downed Chatham in a Fast Game—Errors Responsible for Defeat—Fine Pitching.

A GOOD GAME. Some of the oldest inhabitants can remember the time when Chatham had a baseball team of its very own. Yesterday a fresh start was made when a team Chatham clinched with the Dutton aggregation. Let it be said right here that, although Dutton does not occupy a very large space on the map, it will, hereafter, be noted in the future geographies of Canada, as being famous for the brand of ball-players raised in that vicinity. They played fast, snappy ball, summarized by the semblance of an error. Only splendid pitching held their score down. The Chatham bunch, while not quite so fast, did splendidly. Just throw a lot of letters of the alphabet together and mix them up and you have Chatham's pitcher—Bellestreich. This young man can do stunts with a ball and to his ability is due the fact that Dutton's score was not larger.

The final score was 6-1 in favor of the victors. They were presented with one in the second on an error. Again in the fifth Carter muffed a pop fly and, by a passed ball advanced the runner to second, from whence a hit scored him; another hit and a little sleepy play on second scored another—5-0. Chatham had a good chance in the sixth, when Cook got one of the two hits of the day and O'Keefe bunted safely. With two out Head failed to connect and the chance went glimmering. In the seventh Carter threw into centre field to catch a runner stealing second and Cook's arm-bon pot hindered him from fielding the ball—result, score was increased to 4-0.

Chatham scored its only run in the eighth on a two base hit by Carlier and Rankin's sacrifice. In the ninth Dutton made the score 6-1 by an error, a sacrifice and two hits for two sacks. In their half Chatham could do nothing.

The spectators were greatly pleased at the showing of the team, notwithstanding its defeat, and would like to see more exhibitions. It is felt the revival of the sport is due in a great measure to the generous support of Peter McAulay.

On Saturday evening last the festival of St. John the Baptist, the newly elected officers of Parthenon Lodge, No. 267, A. F. & A. M., were installed by W. Bro. Geo. Crumb. This ceremony has been performed for many years by Rt. W. Bro. E. C. Macnabb, whose advancing years prevented his officiating this year, much to the regret of the craft. W. Bro. Crumb was highly complimented upon the most excellent manner in which he conducted the entire ceremony.
