This Cylinder shows why the **"Eureka" Root Cutter**

is the best on the market. See how it is designed. Grooved knives, with the

grooves on one blade opposite the teeth on the next. Instead of slicing or pulping, the "Eureka" turns out roots in shreds—thin narrow strips—suitable for any kind of feeding. The "Eureka" shreds from one to two bushels a minute, and turns so easily that a child can operate it. The sloping form of the cylinder makes the machine a self-cleaner. Write for catalogue which explains fully.
